CONSERVATION RESERVE PROGRAM
ENROLLMENT ACTIVITY AND NEWS –SEPTEMBER 2018

- Enrollment remains at 22.6 million acres.
- On June 1, the Secretary announced the opening of continuous (non-CREP) signup for buffers and wetland restoration on June 4; a one-year contract extension for eligible general and continuous signup contracts set to expire September 30, 2018; and that incentive payments will not be made (except for CREP). CREP signup was not shut down.
- Due to the one-year extension offer, 2018 expirations have declined and 2019's have increased.
- This year's continuous signup (#51) has enrolled about 295,000 acres so far. Enrollment ended August 17.
- A new grasslands signup (#201) ranking was also announced.
- See June 1st press release for details.

*Excludes lands enrolled in CREP. Includes contracts starting in FY 2019.

General Signup. Producers with eligible lands compete nationally for acceptance based on an environmental benefits index (EBI) during specified enrollment periods. Producers may submit offers below soil-specific maximum rental rates and select wildlife-enhancing vegetative covers to increase EBI ranking.

Continuous (Non-CREP) Sign-up. Producers with eligible lands may enroll certain high priority conservation practices, such as filter strips, riparian buffers, and wetlands at any time during the year without competition. In addition to annual soil rental payment and cost-share assistance, many practices are eligible for additional annual and one-time up-front financial incentives. Lands enrolled under various initiatives are included in this category.

Conservation Reserve Enhancement Program (CREP). Under CREP agreements, Federal/State partnerships, implement projects designed to address specific environmental objectives through targeted CRP enrollments. Sign-up is held on a continuous basis, general sign-up practices may be included, and additional financial incentives are generally provided.

Farmable Wetland Program (FWP). Producers enroll small non-flood plain wetlands, and new practices added by the 2008 Farm Bill, under modified continuous sign-up provisions.

Grasslands. Enrollments are to support grazing operations and to preserve and restore grasslands. No cropping history is required.

The accompanying tables are based on contract data developed and maintained in CRP data files by USDA Service Centers through the **end of September** and are based on the physical location of the CRP contracted land. Some adjustments have been made to correct miscoded data in the active contract files.
