USDA Supports Military Veteran's Transition to Farming

Are you a military veteran interested in farming? USDA offers resources to help you:

- **Fund Your Operation:** USDA's Farm Service Agency offers a variety of [funding opportunities](#) to help agricultural producers finance their businesses. Certain funds are targeted for veterans and beginning farmers and ranchers.
- **Conserve Natural Resources:** USDA's Natural Resources Conservation Service offers [conservation programs and expert one-on-one technical assistance](#) to strengthen agricultural operations now and into the future. Veterans may be eligible for a cost share of up to 90 percent and advance payments of up to 50 percent to cover certain conservation practices.

Southern Co May 11, 10 am

- **Manage Risks:** USDA is here to help you prepare for and recover from the unexpected. Veterans who are beginning farmers may be eligible for reduced premiums, application fee waivers, increased insurance coverage, and other incentives for multiple [USDA programs that support risk management](#).

USDA wants to ensure that veterans transitioning to agriculture have the resources needed to succeed. While USDA offices are currently closed to visitors because of the pandemic, Service Center staff continue to work with agricultural producers via phone, email, and other digital tools. To conduct business, please contact your local USDA Service Center. Additionally, more information related to USDA's response and relief for producers can be found at farmers.gov/coronavirus. If you're a new farmer, you can also reach out to your [state Beginning Farmer and Rancher Coordinator](#).

After Identifying Gaps in Previous Aid, USDA Announces 'Pandemic Assistance for Producers' to Distribute Resources More Equitably

Agriculture Secretary Tom Vilsack announced that USDA is establishing new programs and efforts to bring financial assistance to farmers, ranchers and producers who felt the impact of COVID-19 market disruptions. The new initiative—**USDA Pandemic Assistance for Producers**—will reach a broader set of producers than in previous COVID-19 aid programs.

USDA is dedicating at least \$6 billion toward the new programs. The Department will also develop rules for new programs that will put a greater emphasis on outreach to small and socially disadvantaged producers, specialty crop and organic producers, timber harvesters, as well as provide support for the food supply chain and producers of renewable fuel, among others. Existing programs like the Coronavirus Food Assistance Program (CFAP) will fall within the new initiative and, where statutory authority allows, will be refined to better address the needs of producers.

USDA Pandemic Assistance for Producers was needed, said Vilsack, after a review of previous COVID-19 assistance programs targeting farmers identified a number of gaps and disparities in how assistance was distributed as well as inadequate outreach to underserved producers and smaller and medium operations.

USDA will reopen sign-up for CFAP 2 for at least 60 days beginning on April 5, 2021. The USDA Farm Service Agency (FSA) has committed at least \$2.5 million to improve outreach for CFAP 2

and will establish partnerships with organizations with strong connections to socially disadvantaged communities to ensure they are informed and aware of the application process.

USDA Pandemic Assistance for Producers – 4 Parts

Part 1: Investing \$6 Billion to Expand Help & Assistance to More Producers

USDA will dedicate at least \$6 billion to develop a number of new programs or modify existing proposals using discretionary funding from the Consolidated Appropriations Act and other coronavirus funding that went unspent by the previous administration.

Part 2: Adding \$500 Million of New Funding to Existing Programs

USDA expects to begin investing approximately \$500 million in expedited assistance through several existing programs this spring, with most by April 30.

Part 3: Carrying Out Formula Payments under CFAP 1, CFAP 2, CFAP AA

The Consolidated Appropriations Act, 2021, enacted December 2020 requires FSA to make certain payments to producers according to a mandated formula. USDA is now expediting these provisions because there is no discretion involved in interpreting such directives, they are self-enacting.

- An increase in CFAP 1 payment rates for cattle. Cattle producers with approved CFAP 1 applications will automatically receive these payments beginning in April. Information on the additional payment rates for cattle can be found on farmers.gov/cfap. Eligible producers do not need to submit new applications, since payments are based on previously approved CFAP 1 application. USDA estimates additional payments of more than \$1.1 billion to more than 410,000 producers, according to the mandated formula.
- Additional CFAP assistance of \$20 per acre for producers of eligible crops identified as CFAP 2 flat-rate or price-trigger crops beginning in April. This includes alfalfa, corn, cotton, hemp, peanuts, rice, sorghum, soybeans, sugar beets and wheat, among other crops. FSA will automatically issue payments to eligible price trigger and flat-rate crop producers based on the eligible acres included on their CFAP 2 applications. Eligible producers do not need to submit a new CFAP 2 application. For a list of all eligible row-crops, visit farmers.gov/cfap. USDA estimates additional payments of more than \$4.5 billion to more than 560,000 producers, according to the mandated formula.
- USDA will finalize routine decisions and minor formula adjustments on applications and begin processing payments for certain applications filed as part of the CFAP Additional Assistance program in the following categories:
 - Applications filed for pullets and turfgrass sod;
 - A formula correction for row-crop producer applications to allow producers with a non-Actual Production History (APH) insurance policy to use 100% of the 2019 Agriculture Risk Coverage-County Option (ARC-CO) benchmark yield in the calculation;
 - Sales commodity applications revised to include insurance indemnities, Noninsured Crop Disaster Assistance Program payments, and Wildfire and Hurricane Indemnity Program Plus payments, as required by statute; and
 - Additional payments for swine producers and contract growers under CFAP Additional Assistance remain on hold and are likely to require modifications to the regulation as part of the broader evaluation and future assistance; however, FSA will continue to accept applications from interested producers.

Part 4: Reopening CFAP 2 Sign-Up to Improve Access & Outreach to Underserved Producers

As noted above, USDA will re-open sign-up for of CFAP 2 for at least 60 days beginning on April 5, 2021.

- FSA has committed at least \$2.5 million to establish partnerships and direct outreach efforts intended to improve outreach for CFAP 2 and will cooperate with grassroots organizations with strong connections to socially disadvantaged communities to ensure they are informed and aware of the application process.

Please visit www.farmers.gov for additional information and announcements under the **USDA Pandemic Assistance to Producers** initiative, which will help to expand and more equitably distribute financial assistance to producers and farming operations during the COVID-19 national emergency.

American Rescue Plan Socially Disadvantaged Farmer Debt Payments

USDA recognizes that socially disadvantaged farmers and ranchers have faced systemic discrimination with cumulative effects that have, among other consequences, led to a substantial loss in the number of socially disadvantaged producers, reduced the amount of farmland they control, and contributed to a cycle of debt that was exacerbated during the COVID-19 pandemic. During the pandemic, socially disadvantaged communities saw a disproportionate amount of COVID-19 infection rates, loss of property, hospitalizations, death, and economic hurt.

To address these systemic challenges, the American Rescue Plan Act of 2021 provides historic debt relief to socially disadvantaged producers including Black/African American, American Indian or Alaskan native, Hispanic or Latino, and Asian American or Pacific Islander.

USDA is now reviewing and working to gather feedback to implement the Act, and more guidance will be forthcoming for socially disadvantaged borrowers with direct or guaranteed farm loans as well as Farm Storage Facility Loans. As information becomes available, it will be provided directly to socially disadvantaged borrowers and stakeholder groups representing socially disadvantaged producers, posted here on farmers.gov, and shared through our social media channels, email newsletters, and the media.

Who qualifies for this debt relief?

Any socially disadvantaged borrower with direct or guaranteed farm loans as well as Farm Storage Facility Loans qualifies. The American Rescue Plan Act uses the 2501 definition of socially disadvantaged, which includes Black/African American, American Indian or Alaskan native, Hispanic or Latino, and Asian American or Pacific Islander. Gender is not a criterion in and of itself, but of course women are included in these categories.

I qualify as socially disadvantaged under the American Rescue Plan definition, but I am not late on my payments. Do I still qualify?

Yes. Any socially disadvantaged borrower with direct or guaranteed farm loans as well as Farm Storage Facility Loans qualifies.

When will qualified borrowers begin to see a loan pay-off or other payment in response to the American Rescue Plan?

USDA is now reviewing and working to gather feedback to implement the Act, and more guidance will be forthcoming for socially disadvantaged borrowers with direct or guaranteed farm loans as well as Farm Storage Facility Loans. For borrowers in arrears, the moratorium established on January 26th to stop all debt collections, foreclosures and evictions for all borrowers, including socially disadvantaged producers, remains in effect.

Producers who have worked with USDA's Farm Service Agency previously may have their ethnicity and race on file. A borrower, including those with guaranteed loans, can contact their local their local USDA Service Center to verify, update or submit a new ethnicity and race designation using the AD-2047. Find your nearest service center at farmers.gov/service-locator.

To learn more about USDA's work to implement the American Rescue Plan Act of 2021, visit www.usda.gov/arp.

USDA Offers Disaster Assistance for Producers Facing Inclement Weather

Severe weather events create significant challenges and often result in catastrophic loss for agricultural producers.

Despite every attempt to mitigate risk, your operation may suffer losses. USDA offers several programs to help with recovery.

Risk Management

For producers who have risk protection through [Federal Crop Insurance](#) or the [Noninsured Crop Disaster Assistance Program](#) (NAP), we want to remind you to report crop damage to your crop insurance agent or the local Farm Service Agency (FSA) office.

If you have crop insurance, contact your agency within 72 hours of discovering damage and be sure to follow up in writing within 15 days. If you have NAP coverage, file a Notice of Loss (also called Form CCC-576) within 15 days of loss becoming apparent, except for hand-harvested crops, which should be reported within 72 hours.

Disaster Assistance

USDA also offers disaster assistance programs, which is especially important to livestock, fruit and vegetable, specialty and perennial crop producers who have fewer [risk management options](#).

First, the [Livestock Indemnity Program](#) (LIP) and [Emergency Assistance for Livestock, Honeybee and Farm-raised Fish Program](#) (ELAP) reimburses producers for a portion of the value of livestock, poultry and other animals that died as a result of a qualifying natural disaster event or for loss of grazing acres, feed and forage. And, the [Livestock Forage Disaster Program](#) (LFP) provides assistance to producers of grazed forage crop acres that have suffered crop loss due to a qualifying drought. Livestock producers suffering the impacts of drought can also request [Emergency Haying and Grazing](#) on Conservation Reserve Program (CRP) acres.

Next, the [Tree Assistance Program](#) (TAP) provides cost share assistance to rehabilitate and replant tree, vines or shrubs loss experienced by orchards and nurseries. This complements NAP or crop insurance coverage, which cover the crop but not the plants or trees in all cases.

For LIP and ELAP, you will need to file a Notice of Loss for livestock and grazing or feed losses within 30 days and honeybee losses within 15 days. For TAP, you will need to file a program application within 90 days.

Documentation

It's critical to keep accurate records to document all losses following this devastating cold weather event. Livestock producers are advised to document beginning livestock numbers by taking time and date-stamped video or pictures prior to after the loss.

Other common documentation options include:

- Purchase records
- Production records
- Vaccination records
- Bank or other loan documents
- Third-party certification

Other Programs

The [Emergency Conservation Program](#) and [Emergency Forest Restoration Program](#) can assist landowners and forest stewards with financial and technical assistance to restore damaged farmland or forests.

Additionally, FSA offers a variety of loans available including emergency loans that are triggered by disaster declarations and operating loans that can assist producers with credit needs. You can use these loans to replace essential property, purchase inputs like livestock, equipment, feed and seed, or refinance farm-related debts, and other needs.

Meanwhile, USDA's Natural Resources Conservation Service (NRCS) provides financial resources through its [Environmental Quality Incentives Program](#) to help with immediate needs and long-term support to help recover from natural disasters and conserve water resources. Assistance may also be available for emergency animal mortality disposal from natural disasters and other causes.

Additional Resources

Additional details – including payment calculations – can be found on our [NAP](#), [ELAP](#), [LIP](#), and [TAP](#) fact sheets. On farmers.gov, the [Disaster Assistance Discovery Tool](#), [Disaster-at-a-Glance fact sheet](#), and [Farm Loan Discovery Tool](#) can help you determine program or loan options.

While we never want to have to implement disaster programs, we are here to help. To file a Notice of Loss or to ask questions about available programs, contact your local USDA Service Center. All [USDA Service Centers](#) are open for business, including those that restrict in-person visits or require appointments because of the pandemic.

USDA Extends General Signup for Conservation Reserve Program

The USDA is extending the Conservation Reserve Program (CRP) General Signup period, which had previously been announced as ending on Feb. 12, 2021. USDA will continue to accept offers as it takes this opportunity for the incoming Administration to evaluate ways to increase enrollment. Under the previous Administration, incentives and rental payment rates were reduced resulting in an enrollment shortfall of over 4 million acres. The program, administered by USDA's Farm Service Agency (FSA), provides annual rental payments for 10 to 15 years for land devoted to conservation purposes, as well as other types of payments. Before the General CRP Signup period ends, producers will have the opportunity to adjust or resubmit their offers to take advantage of planned improvements to the program.

This signup for CRP gives producers an opportunity to enroll land for the first time or re-enroll land under existing contracts that will be expiring Sept. 30, 2021. All interested producers, including those on Indian reservations and with trust lands, are encouraged to contact their local [USDA Service Center](#) for more information.

Communication is Key in Lending

Farm Service Agency (FSA) is committed to providing our farm loan borrowers the tools necessary to be successful. FSA staff will provide guidance and counsel from the loan application process through the borrower's graduation to commercial credit. While it is FSA's commitment to advise borrowers as they identify goals and evaluate progress, it is crucial for borrowers to communicate with their farm loan staff when changes occur. It is the borrower's responsibility to alert FSA to any of the following:

- Any proposed or significant changes in the farming operation
- Any significant changes to family income or expenses
- The development of problem situations
- Any losses or proposed significant changes in security

If a farm loan borrower can't make payments to suppliers, other creditors, or FSA on time, contact your farm loan staff immediately to discuss loan servicing options.

For more information about farm loans, contact your local [USDA Service Center](#) or visit fsa.usda.gov.

Applying for Beginning Farmer Loans

The Farm Service Agency (FSA) assists beginning farmers to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

- Has operated a farm for not more than 10 years
- Will materially and substantially participate in the operation of the farm
- Agrees to participate in a loan assessment, borrower training and financial management program sponsored by FSA

- Does not own a farm in excess of 30 percent of the county's average size farm.

For more information, contact your local [USDA Service Center](#) or visit fsa.usda.gov.

Persons with disabilities who require accommodations to attend or participate in these meetings and/or events should contact Lloyd Wilhelm, Northern CED, at (907) 895-4242, Erin Sturdivant, Southern CED, at (907) 761-7754 or Federal Relay Service at 1-800-877-8339.
