USDA California Farm Service Agency is Hiring

Do you have a passion to support your farmers and ranchers here in California? Are you ready to make a difference? Opportunities for growth and career advancement are limitless within the United States Department of Agriculture.

Multiple Farm Service Agency (FSA) offices are hiring full time Temporary County Office Program Technicians. These positions are a great opportunity for career advancement in the USDA.

Job Locations:

- **Hanford, CA**
- **Lancaster, CA**

- **Madera, CA**
- **Modesto, CA**
- **Oroville, CA**
- **Petaluma, CA**
- **Red Bluff, CA**
- **Redding, CA**
- **Salinas, CA**
- **Vacaville, CA**

As a County Program Technician, you will be:

- Carrying out office activities and functions pertaining to one or more of the program areas administered in the county.
- Interpreting and explaining procedures, program regulations and forms to producers and other agency personnel.
- Utilizing various web-based software applications to maintain farmer data and processing automated forms.
- Successful applicants must be reliable, have a professional attitude and enjoy working with the public.

To Apply:

Interested Candidates who meet the basic eligibility requirements may file for consideration by sending the following information to the email below:

- ***Completed & signed*** Application Form [FSA 675](#) "Application for FSA County Employment.
- You may ALSO submit a resume.
- On a separate piece of paper with your application, please describe your: ability to communicate orally & in writing, identify & resolve problems; knowledge of FSA programs & practices; skill in using computers, to include software you are proficient in; customer service skills with examples. You must include your country of Citizenship, education, and work experience.

Employment applications may be emailed using the following address:

Brooke.Raffaele@usda.gov

USDA Extends Deadline for Emergency Conservation Program Applications from California Producers in 52 Counties

Funding Available to Help Restore Lands to Pre-Disaster Condition, Replace or Repair Fencing

The U.S. Department of Agriculture (USDA) has extended the deadline for accepting [Emergency Conservation Program](#) (ECP) applications from California agricultural producers who need assistance to address damages from severe storms. The application deadline has been extended an additional six months to October 13, 2023.

“We understand the extent of the damage caused by these severe storms and the catastrophic and widespread impacts of these disasters on California’s agricultural communities,” said Blong Xiong, State Executive Director for the Farm Service Agency (FSA) in California. “This deadline extension will give producers more time to apply for emergency assistance and rebuild with resiliency.”

ECP provides financial assistance to producers to help them restore their farmland to pre-disaster conditions. Approved ECP applicants may receive up to 75% of the cost of an approved restoration activity. Limited resource, socially disadvantaged, and beginning farmers and ranchers may receive up to 90% cost-share. The payment limitation for ECP is \$500,000 per disaster event.

The approved counties for ECP signup are Alameda, Alpine, Amador, Butte, Calaveras, Colusa, Contra Costa, Del Norte, El Dorado, Fresno, Glenn, Humboldt, Imperial Inyo, Kern, Kings, Los Angeles, Madera, Marin, Mariposa, Mendocino, Merced, Modoc, Monterey, Napa, Nevada, Placer, Plumas, Sacramento, San Benito, San Diego, San Francisco, San Joaquin, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Stanislaus, Sutter, Tehama, Trinity, Tulare, Tuolumne, Ventura, Yolo and Yuba.

The approved ECP practices under this authorization for recovery include:

- Removing debris from farmland;
- Grading, shaping, releveling, or similar measures;
- Replacing or repairing permanent fences; and
- Restoring conservation structures and other installations

Producers with damage from such events must apply for assistance prior to beginning reconstructive work. They must also work with FSA to complete the National Environmental Policy Act (NEPA) and environmental compliance review process. before they begin reconstructive work. If a producer submits an ECP application after reconstructive work has been completed, their eligibility for program benefits may be adversely impacted.

FSA county committees will evaluate applications based on an applicant’s estimate or measurement of the damaged land, taking into consideration the type and extent of the

damage. On-site visits will be required for every ECP application. Applying for ECP assistance does not guarantee that cost-share funding will be provided.

The use of ECP funds is limited to activities to return the land to the relative pre-disaster condition. Conservation concerns that were present on the land prior to the disaster are not eligible for ECP assistance.

More Information

For more information on ECP, please contact your local FSA office or visit farmers.gov/recover. To find your local FSA office visit farmers.gov/service-center-locator.

Additional USDA disaster assistance can be found on farmers.gov, including the [Disaster Assistance Discovery Tool](#), [Disaster Assistance-at-a-Glance](#) fact sheet, and [Loan Assistance Tool](#) can help producers and landowners determine program or loan options. For assistance with a crop insurance claim, producers and landowners should contact their [crop insurance agent](#). For FSA and NRCS programs, they should contact their local [USDA Service Center](#).

Avoid Scams Related to USDA Financial Assistance for Farmers Facing Discrimination

The Inflation Reduction Act provides \$2.2 billion in financial assistance for farmers, ranchers, and forest landowners who experienced discrimination in USDA's farm lending programs prior to January 1, 2021.

USDA has become aware of some lawyers and groups spreading misleading information about this process, pressuring people to sign retainer agreements, and asking people to fill out forms with private and sensitive information.

Application forms for this program **are not yet available** and the **application filing period has not started**. Before the application process opens, USDA will publish a list of trusted community organizations located across the country that will provide **FREE** help completing applications.

Please beware of organizations seeking to file your application for a fee. Filing an application for the program will be **FREE**. You **will not** need a lawyer to file an application for this program. If you feel the need for legal advice, seek the assistance of a trusted, licensed attorney.

Beware of solicitations by mail, email, or phone calls from individuals claiming to be connected to USDA. **USDA will not solicit you for information.**

The most up-to-date information on this program will be posted at www.farmers.gov/22007, a USDA website. Please check there for any concerns or reach out to your local FSA office. To find your local office, visit farmers.gov/service-locator.

If you believe there is an organization conducting a scam related to this process, please contact the USDA Office of the Inspector General (OIG) or any other appropriate authorities.

The USDA OIG hotline can be accessed online at <https://usdaoig.oversight.gov/hotline> and by phone at (800) 424-9121.

USDA Simplifies Application Process for Noninsured Crops for Underserved Producers; Improves Risk Management Accessibility

A Message from FSA Administrator Zach Ducheneaux

Earlier this year, Farm Service Agency (FSA) made several updates to disaster assistance programs to give more farmers, ranchers, and Tribes equitable access to recovery programs. Specifically, we made changes to the Noninsured Crop Disaster Assistance Program (NAP) and simplified the application process for underserved producers.

This important policy change opens the door to risk management options for producers who may not have previously known about or been able to obtain coverage to protect their crops.

NAP provides financial assistance to producers of noninsurable crops when natural disaster events cause low yields, loss of inventory, or prevented planting.

Our policy improvements mean that, beginning with the 2022 crop year, having a CCC-860 form, *Socially Disadvantaged, Limited Resource, Beginning and Veteran Farmer or Rancher Certification*, on file with FSA will provide producers with basic NAP coverage for all eligible crops. Specifically, FSA is waiving all NAP-related service fees for basic coverage for producers with a CCC-860 on file prior to the application closing date for each crop. These producers are also eligible to receive a 50% premium reduction if they elect higher levels of coverage before the application closing date for each crop.

At the end of January, FSA notified producers who already have the CCC-860 certification form on file regarding their eligibility for NAP basic coverage for 2022. If you suffered losses from natural disasters in 2022, you will need to contact your local FSA county office to file an acreage report, as well as a notice of loss, and an application for a NAP payment.

If you are interested in NAP coverage for 2023 and future years, your local FSA county office staff will be more than happy to provide information on eligibility, coverage options, and how to apply for additional coverage.

While these recent policy changes are intended to remove barriers to available benefits and help underserved producers manage risk, any producer of noninsurable crops can apply for NAP coverage by completing FSA form [CCC-471](#), Application for Coverage, and paying a service fee. Your local FSA office can verify application closing dates and ensure coverage for your crops is available.

FSA is committed to revisiting program policies and finding ways, within our authorities, to remove obstacles that prevent participation. Expanding NAP to ensure all producers of noninsured crops have access to risk coverage is the result of proactive input from producers and the willingness of FSA employees to think outside of the box for the benefit of the producers we serve.

Please contact your local [USDA Service Center](#) for more information on NAP coverage options.

Is the Noninsured Crop Disaster Assistance Program Right for You?

Farmers and ranchers rely on crop insurance to protect themselves from disasters and unforeseen events, but not all crops are insurable through the USDA's Risk Management Agency. The Farm Service Agency's (FSA) Noninsured Crop Disaster Assistance Program (NAP) provides producers another option to obtain coverage against disaster for these crops. NAP provides financial assistance to producers of non-insurable crops impacted by natural disasters that result in lower yields, crop losses, or prevents crop planting.

Commercially produced crops and agricultural commodities for which crop insurance is not available are generally eligible for NAP. Eligible crops include those grown specifically for food, fiber, livestock consumption, biofuel or biobased products, or value loss crops such as aquaculture, Christmas trees, ornamental nursery, and others. Contact your local FSA office to see which crops are eligible in your state and county.

Eligible causes of loss include drought, freeze, hail, excessive moisture, excessive wind or hurricanes, earthquake and flood. These events must occur during the NAP policy coverage period, before or during harvest, and the disaster must directly affect the eligible crop. For guidance on causes of loss not listed, contact your local FSA county office.

Interested producers apply for NAP coverage using FSA form [CCC-471](#), "Application for Coverage," and pay the applicable service fee at the FSA office where their farm records are maintained. These must be filed by the application closing date, which varies by crop. Contact your local FSA office to verify application closing dates and ensure coverage for eligible NAP crops.

At the time of application, each producer acknowledges they have received the [NAP Basic Provisions](#), which describes NAP requirements for coverage. NAP participants must report crop acreage shortly after planting and provide verifiable or reliable crop production records when required by FSA.

Producers are required to pay service fees which vary depending on the number of crops and number of counties your operation is located in. The NAP service fee is the lesser of \$325 per crop or \$825 per producer per administrative county, not to exceed a total of \$1,950 for a producer with farming interests in multiple counties. Premiums also apply when producers elect higher levels of coverage with a maximum premium of \$15,750 per person or legal entity.

A producer's certification on Form CCC-860 *Socially Disadvantaged, Limited Resource, Beginning and Veteran Farmer or Rancher Certification* may serve as an application for basic NAP coverage for all eligible crops beginning with crop year 2022. These producers will have all NAP-related service fees for basic coverage waived, in addition to a 50 percent premium reduction if higher levels of coverage are elected.

For more detailed information on NAP, download the [NAP Fact Sheet](#). To get started with NAP, we recommend you contact your [local USDA service center](#).

Community Alliance with Family Farmers Offers Small Farm Tech Hub

How can technology help expand market opportunities and increase business efficiencies for small farms?

Community Alliance with Family Farmers (CAFF) Tech Hub is here to Help!

Free Consultation services available to small scale farmers, food hubs and farmers markets operating out of California.

For any questions email Techhub@caff.org or visit www.caff.org/techhub

A Q&A on Choosing a Tax Professional

If you participate in USDA programs, it's time to start preparing to file your taxes. In this Ask the Expert, Dr. Tamara Cushing answers questions about choosing a tax professional. Dr. Cushing is an Extension Forest Business Specialist from the University of Florida who works to educate landowners, foresters and tax professionals about the economics of growing trees, tax interactions with forestry and landowner succession.

What Qualifies Someone to Complete Your Tax Return?

- Here are some qualifications to look for: A degree in accounting and possibly in taxation; maybe a law degree.
- Certification by a state licensing body or the Internal Revenue Service (IRS). This may include CPA, Licensed Tax Consultant (LTC), Licensed Tax Preparer (LTP), Enrolled Agent (EA), and tax attorney. Also, some Certified Financial Planners (CFP) can provide tax services. Some states require paid preparers to have specific qualifications to complete state tax returns and some don't. Qualified, licensed and or certified tax preparers may be found through various locations some of which will be discussed later in this Q&A.
- Some preparers may not hold educational or other professional credentials but are IRS-authorized. These preparers will have a PTIN (Preparer tax identification number) and complete continuing education courses required by the IRS and or state regulatory agency.
- All preparers should have a PTIN.

USDA Microloans Help Farmers Purchase Farmland and Improve Property

Farmers can use USDA farm ownership microloans to buy and improve property. These microloans are especially helpful to beginning or underserved farmers, U.S. veterans looking for a career in farming, and those who have small and mid-sized farming operations.

Microloans have helped farmers and ranchers with operating costs, such as feed, fertilizer, tools, fencing, equipment, and living expenses since 2013.

Microloans can also help with farmland and building purchases and soil and water conservation improvements. FSA designed the expanded program to simplify the application process, expand eligibility requirements and expedite smaller real estate loans to help farmers strengthen their operations. Microloans provide up to \$50,000 to qualified producers and can be issued to the applicant directly from the USDA Farm Service Agency (FSA).

To learn more about the FSA microloan program, contact your local County USDA Service Center or visit fsa.usda.gov/microloans.

Free Farm Manager Apprenticeship Training

Farmers, are you searching for your future manager or supervisor? Whether you have a current employee who could use some additional training, or are seeking to hire a new team member, The Beginning Farm and Ranch Management Apprenticeship provides a structured pathway for aspiring farm managers to develop the knowledge and skills they need to be successful on your farm. The Center for Land-Based Learning covers all tuition for coursework and provides support for farmers and apprentices. To learn more about training an apprentice, visit <https://landbasedlearning.org/apprentice-farmer-mentor>
