Gainesville, FL 32606

Phone: 352-379-4500

<https://www.fsa.usda.gov/fl>

#### State Committee:

Michelle Williamson (Chair)  
Mike Adams  
Jimmy LeFils  
Mack Glass  
Mark Soddors

#### State Executive Director:

Sherry McCorkle

### Additional Commodities Eligible for Coronavirus Food Assistance Program

U.S. Secretary of Agriculture Sonny Perdue announced an initial list of additional commodities and program adjustments to the Coronavirus Food Assistance Program (CFAP). The changes were based on comments received from agricultural producers, organizations and market data. Producers will be able to submit applications that include these commodities on Monday, July 13, 2020. USDA's Farm Service Agency (FSA) is accepting applications for CFAP through Aug. 28, 2020. USDA expects additional eligible commodities to be announced in the coming weeks.

#### Changes to CFAP include:

- Adding the following commodities: alfalfa sprouts, anise, arugula, basil, bean sprouts, beets, blackberries, Brussels sprouts, celeriac (celery root), chives, cilantro, coconuts, collard greens, dandelion greens, greens (others not listed separately), guava, kale greens, lettuce – including Boston,

Please contact your local FSA Office for questions specific to your operation or county.

green leaf, Lolla Rossa, oak leaf green, oak leaf red and red leaf – marjoram, mint, mustard, okra, oregano, parsnips, passion fruit, peas (green), pineapple, pistachios, radicchio, rosemary, sage, savory, sorrel, fresh sugarcane, Swiss chard, thyme and turnip top greens.

- Expanding for seven currently eligible commodities – apples, blueberries, garlic, potatoes, raspberries, tangerines and taro – CARES Act funding for sales losses because USDA found these commodities had a 5 percent or greater price decline between mid-January and mid-April as a result of the COVID-19 pandemic. Originally, these commodities were only eligible for marketing adjustments.
- Determining that peaches and rhubarb no longer qualify for payment under the CARES Act sales loss category.
- Correcting payment rates for apples, artichokes, asparagus, blueberries, cantaloupes, cucumbers, garlic, kiwifruit, mushrooms, papaya, peaches, potatoes, raspberries, rhubarb, tangerines and taro.

Additional details can be found in the Federal Register in the [Notice of Funding Availability \(NOFA\)](#) and [Final Rule Correction](#) and at [www.farmers.gov/cfap](http://www.farmers.gov/cfap).

Producers have several options for applying to the CFAP program:

1. Using an online portal, accessible at [farmers.gov/cfap](http://farmers.gov/cfap), allows producers with secure USDA login credentials—known as eAuthentication—to certify eligible commodities online, digitally sign applications and submit directly to the local USDA Service Center. New commodities will be available in the system on July 13, 2020.
2. Completing the application form using our CFAP Application Generator and Payment Calculator found at [farmers.gov/cfap](http://farmers.gov/cfap). This Excel workbook allows customers to input information specific to their operation to determine estimated payments and populate the application form, which can be printed, then signed and submitted to their local USDA Service Center. An updated version with the new commodities will be available on the website on July 13, 2020.
3. Downloading the AD-3114 application form from [farmers.gov/cfap](http://farmers.gov/cfap) and manually completing the form to submit to the local USDA Service Center by mail, electronically or by hand delivery to an office drop box. In some limited cases, the office may be open for in-person business by appointment. Visit [farmers.gov/coronavirus/service-center-status](http://farmers.gov/coronavirus/service-center-status) to check the status of your local office.

USDA Service Centers can also work with producers to complete and securely transmit digitally signed applications through two commercially available tools: Box and OneSpan. Producers who are interested in digitally signing their applications should notify their local service centers when calling to discuss the CFAP application process. You can learn more about these solutions at [farmers.gov/mydocs](http://farmers.gov/mydocs).

**Getting Help from FSA**

New customers seeking one-on-one support with the CFAP application process can call 877-508-8364 to speak directly with a

USDA employee ready to offer general assistance. This is a recommended first step before a producer engages the team at the FSA county office at their local USDA Service Center.

All other eligibility forms, such as those related to adjusted gross income and payment information, can be downloaded from [farmers.gov/cfap](https://farmers.gov/cfap). For existing FSA customers, these documents are likely already on file.

## Coronavirus Food Assistance Program Producer Webinar: Additional Eligible Commodities & Program Adjustments

***Tue, Jul 14, 2020 3:00 PM EDT***

Join the USDA Farm Service Agency as we discuss additional commodities that are now eligible for the Coronavirus Food Assistance Program (CFAP). We will also cover adjustments made to the program based on comments received from agricultural producers and organizations and review of market data. USDA's Farm Service Agency is accepting applications for CFAP through Aug. 28, 2020. The CFAP program helps offset price declines and additional marketing costs because of the coronavirus pandemic.

## More than 1.2 million acres accepted for Conservation Reserve Program Grasslands

More than 1.2 million acres were accepted in the Conservation Reserve Program (CRP) Grasslands during the recent signup period that began March 16 and ended May 15.

Through CRP Grasslands, participants retain the right to conduct common grazing practices, such as haying, mowing or harvesting seed from the enrolled land. Timing of some activities may be restricted by the primary nesting season of birds.

Participants will receive an annual rental payment and may receive up to 50 percent cost-share for establishing approved conservation practices. The duration of the CRP contract is 10 or 15 years. FSA ranked offers using a number of factors, including existence of expiring CRP land, threat of conversion or development, existing grassland and predominance of native species cover and cost.

The 2018 Farm Bill set aside 2 million acres for CRP Grassland enrollment. CRP is one of the largest conservation programs at USDA. CRP marks its 35-year anniversary in 2020 with 22 million acres currently enrolled.

For more information or to enroll in CRP Grasslands, contact your local FSA county office or visit <http://fsa.usda.gov/crp>. To locate your local FSA office, visit [farmers.gov/service-locator](https://farmers.gov/service-locator).

## May Margin Triggers Dairy Margin Coverage Program Payment

The U.S. Department of Agriculture's Farm Service Agency (FSA) today announced that the May 2020 income over feed cost margin was \$5.37 per hundredweight (cwt.), triggering the third

payment of 2020 for dairy producers who purchased the appropriate level of coverage under the [Dairy Margin Coverage](#) (DMC) program.

To date, FSA has issued more than \$176 million in program benefits to dairy producers who purchased DMC coverage for 2020.

Authorized by the 2018 Farm Bill, DMC is a voluntary risk management program that offers protection to dairy producers when the difference between the all-milk price and the average feed price (the margin) falls below a certain dollar amount selected by the producer. Over 13,000 operations enrolled in the program for the 2020 calendar year.

Although DMC enrollment for 2020 coverage has closed, signup for 2021 coverage will begin October 13 and will run through December 11, 2020.

All USDA Service Centers are open for business, including some that are open to visitors to conduct business in person by appointment only. All Service Center visitors wishing to conduct business with the FSA, Natural Resources Conservation Service, or any other Service Center agency should call ahead and schedule an appointment. Service Centers that are open for appointments will pre-screen visitors based on health concerns or recent travel and visitors must adhere to social distancing guidelines. Visitors may also be required to wear a face covering during their appointment. Field work will continue with appropriate social distancing. Our program delivery staff will be in the office, and they will be working with our producers in office, by phone, and using online tools. More information can be found at [farmers.gov/coronavirus](https://farmers.gov/coronavirus).

For more information, visit [farmers.gov](https://farmers.gov) [DMC webpage](#) or contact your local USDA Service Center. To locate your local FSA office, visit [farmers.gov/service-center-locator](https://farmers.gov/service-center-locator).

## USDA Announces Flexibilities for Producers Filing ‘Notice of Loss’ for Failed, Prevented Planted Acres

The U.S. Department of Agriculture (USDA) is providing additional flexibilities for producers to file on acres with failed crops or crops that were prevented from planting because of extreme weather events. USDA's Farm Service Agency (FSA) is adding these flexibilities for *Notice of Loss* on both insured and uninsured crops to enable Service Centers to best assist producers.

### Filing for Prevented Planted Acres

For insured crops, producers who timely filed a prevented planted claim with the reinsurance company but filed a *Notice of Loss* (CCC-576) form after the deadline will be considered timely filed for FSA purposes. FSA can use data from the Risk Management Agency (RMA) for accepting the report of prevented planting with FSA. If the information is not available through RMA, the producer may also provide proper evidence to FSA that the prevented planted claim was timely filed with the reinsurance company.

For uninsured crops, producers may start a *Notice of Loss* (CCC-576) by calling their FSA county office, or they may print and complete the *Notice of Loss* ([CCC-576](#)) form from home and send to their county office. For prevented planted acreage, *Notice of Loss* forms mailed to the FSA office must be postmarked by the final acreage reporting date in the county to be considered timely filed. For all prevented planted cases, the *Report of Acreage* (FSA-578) form and the completed and signed *Notice of Loss* (CCC-576) **must** be filed by the applicable acreage reporting date.

### Filing for Failed Acres

For failed acreage of uninsured crops, the *Notice of Loss* (CCC-576) must be completed, signed and verified before the disposition of the crop.

### **When to File a 'Notice of Loss'**

A *Notice of Loss* cannot be filed for a crop before the final planting date, but it can be filed before completing the crop acreage report.

### **More Information**

Producers who miss FSA's [July 15 acreage reporting deadline](#) will not face a late filing fee if filed within a month of the deadline.

For questions, please contact your FSA county office. To locate your FSA county office at your Service Center, visit [farmers.gov/service-center-locator](https://farmers.gov/service-center-locator).

---

## **USDA Reminds Florida Producers to Complete Crop Acreage Reports**

USDA's Farm Service Agency (FSA) reminds Florida producers to complete [crop acreage reports](#) by the applicable deadline for their county. Acreage reporting dates vary by crop and by county. Contact your FSA county office for a list of acreage reporting deadlines by crop.

Due to the pandemic, FSA has implemented acreage reporting flexibilities. FSA can work with producers to file timely acreage reports by phone, email, online tools and virtual meetings.

FSA offices are using Microsoft Teams software to virtually meet with producers to review maps and documents for certification. Producers who want to schedule a virtual appointment can download the Microsoft Teams app on their smart phone or tablet and call the FSA office for an appointment. You can also use Microsoft Teams from your personal computer without downloading software.

FSA county offices in Florida will provide maps to producers along with instructions for completing and returning the maps through either mail, email or through commercially available free and secure online tools such as Box for file sharing and OneSpan for eSignature solutions. After planting is complete, producers must return the signed form certifying their acreage report to the FSA office through mail, email or the Box and OneSpan tools within 15 days of planting NAP crops or by July 15, 2020.

After completed maps and all acreage reporting information is received, FSA will make software updates and send producers the completed *Report of Acreage* form (FSA-578) to sign. Producers must return the signed form certifying their acreage report to the FSA office through mail, email, or Box within 15 days of receipt.

The following exceptions apply to acreage reporting dates:

- If the crop has not been planted by the acreage reporting date, the acreage must be reported no later than 15 calendar days after planting is completed.
- If a producer has not timely filed an acreage report, the producer may file the acreage report within 30 days of the acreage reporting date. Because of the pandemic, late fees will be waived if filed within the 30 days.

FSA is also providing additional flexibilities for producers to file on acres with failed crops or crops that were prevented from planting because of extreme weather events. For insured crops, producers who timely filed a prevented planted claim with the reinsurance company but filed a *Notice of Loss* (CCC-576) form after the deadline will be considered timely filed for FSA purposes. For uninsured crops, producers may start a *Notice of Loss* by calling their FSA county office.

Noninsured Crop Disaster Assistance Program (NAP) policy holders should note that the acreage reporting date for NAP-covered crops is the earlier of the dates listed above or 15 calendar days before grazing or harvesting of the crop begins.

When producers are working with FSA staff – either in-person or virtually – they can also take care of applications for other FSA programs, including the Coronavirus Food Assistance Program. A CFAP Call Center is available for producers who would like additional one-on-one support with the CFAP application process. Please call 877-508-8364 to speak directly with a USDA employee ready to offer assistance. The CFAP Call Center can provide service to non-English speaking customers. Customers will select 1 for English and 2 to speak with a Spanish speaking employee. For other languages, customers select 1 and indicate their language to the Call Center staff.

Applications can also be submitted for the Wildfire and Hurricane Indemnity Program Plus for 2018 and 2019 as well as other disaster assistance programs that may be able to assist producers at this time.

For questions, contact your County USDA Service Center or visit [fsa.usda.gov](https://fsa.usda.gov).

---

## **FSA Implements Set-Aside Loan Provision for Customers Impacted by COVID-19**

### *Set-Aside Delays Loan Payments for Borrowers*

USDA's Farm Service Agency (FSA) will broaden the use of the Disaster Set-Aside (DSA) loan provision, normally used in the wake of natural disasters, to allow farmers with USDA farm loans who are affected by COVID-19, and are determined eligible, to have their next payment set aside. In some cases, FSA may also set aside a second payment for farmers who have already had one payment set aside because of a prior designated disaster.

FSA direct loan borrowers will receive a letter with the details of the expanded Disaster Set-Aside authorities, which includes the possible set-aside of annual operating loans, as well as explanations of the additional loan servicing options that are available. To discuss or request a loan payment Set-Aside, borrowers should call or email the farm loan staff at their local FSA county office.

The set-aside payment's due date is moved to the final maturity date of the loan or extended up to twelve months in the case of an annual operating loan. Any principal set-aside will continue to accrue interest until it is repaid. This aims to improve the borrower's cashflow in the current production cycle.

FSA previously announced it was relaxing the loan-making process and adding flexibilities for servicing direct and guaranteed loans to provide credit to producers in need. Direct loan applicants and borrowers are encouraged to contact their local FSA county office to discuss loan making and servicing flexibilities and other needs or concerns. Customers participating in FSA's guaranteed loan programs are encouraged to contact their lender. Information on these flexibilities, and office contact information, can be found on [farmers.gov/coronavirus](https://farmers.gov/coronavirus).

FSA will be accepting most forms and applications by facsimile or electronic signature. Some services are also available online to customers with an eAuth account, which provides access to the [farmers.gov](https://farmers.gov) portal where producers can view USDA farm loan information and certain program applications and payments. Customers can track payments, report completed practices, request conservation assistance and electronically sign documents. Customers who do not already have an eAuth account can enroll at [farmers.gov/sign-in](https://farmers.gov/sign-in).

USDA Service Centers are open for business by phone appointment only, and field work will continue with appropriate social distancing. While program delivery staff will continue to come into the office, they will be working with producers by phone and using online tools whenever possible. All Service Center visitors wishing to conduct business with the FSA, Natural Resources Conservation Service or any other Service Center agency are required to call their Service Center to schedule a phone appointment. More information can be found at [farmers.gov/coronavirus](https://farmers.gov/coronavirus).

---

# USDA Announces Loan Maturity for Marketing Assistance Loans Now Extended to 12 Months

Agricultural producers now have more time to repay Marketing Assistance Loans (MAL) as part of the U.S. Department of Agriculture's implementation of the Coronavirus Aid, Relief, and Economic Security (CARES) Act of 2020. The loans now mature at 12 months rather than nine, and this flexibility is available for most commodities.

Effective immediately, producers of eligible commodities now have up to 12 months to repay their commodity loans. The maturity extension applies to nonrecourse loans for crop years 2018, 2019 and 2020. Eligible open loans must in good standing with a maturity date of March 31, 2020, or later or new crop year (2019 or 2020) loans requested by September 30, 2020. All new loans requested by September 30, 2020, will have a maturity date 12 months following the date of approval.

The maturity extension for current, active loans will be automatically extended an additional 3 months. Loans that matured March 31 have already been automatically extended by USDA's Farm Service Agency (FSA). Producers who prefer a nine-month loan will need to contact their local FSA county office. Loans requested after September 30, 2020, will have a term of nine months.

Eligible commodities include barley, chickpeas (small and large), corn, cotton (upland and extra-long staple), dry peas, grain sorghum, honey, lentils, mohair, oats, peanuts, rice (long and medium grain), soybeans, unshorn pelts, wheat, wool (graded and nongraded); and other oilseeds, including canola, crambe, flaxseed, mustard seed, rapeseed, safflower, sunflower seed, and sesame seed. Seed cotton and sugar are not eligible.

## About MALs

Placing commodities under loan provides producers interim financing to meet cash flow needs without having to sell their commodities when market prices are low and allows producers to store production for more orderly marketing of commodities throughout the year.

These loans are considered nonrecourse because the commodity is pledged as loan collateral, and producers have the option of delivering the pledged collateral to the Commodity Credit Corporation (CCC) for repayment of the outstanding loan at maturity.

## MAL Repayment

Under the new maturity provisions, producers can still repay the loan as they would have before the extension:

- repay the MAL on or before the maturity date;
- upon maturity by delivering or forfeiting the commodity to CCC as loan repayment; or
- after maturity and before CCC acquires the farm-stored commodity by repaying the outstanding MAL principle and interest.

## Marketing Loan Gains

A Marketing Loan Gain occurs when a MAL is repaid at less than the loan principal. If market gain is applicable during the now-extended loan period, producers can receive a gain on the repayment made before the loan matures.

For more information on MALs, contact the nearest FSA county office. USDA Service Centers, including FSA county offices, are open for business by phone appointment only, and field work will continue with appropriate social distancing. While program delivery staff will continue to come into the office, they will be working with producers by phone and using online tools whenever possible. All Service Center visitors wishing to conduct business with the FSA, Natural Resources Conservation Service, or any other Service Center agency are required to call their Service Center to schedule a phone appointment. More information can be found at [farmers.gov/coronavirus](https://farmers.gov/coronavirus).

---

## Eligibility for Nominations for the 2020 County Committee Elections

The U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) county committees are a critical component of the day-to-day operations of FSA and allow grassroots input and local administration of federal farm programs.

Committees are comprised of locally elected agricultural producers responsible for the fair and equitable administration of FSA farm programs in their counties. Committee members are accountable to the Secretary of Agriculture. If elected, members become part of a local decision making and farm program delivery process.

A county committee is composed of three to 11 elected members from local administrative areas (LAA). Each member serves a three-year term. To be eligible for nomination and hold office as a committee member or alternate, a person must fulfill each of the following requirements: (1) be a producer with an interest in farming or ranching operations, (2) participate or cooperate in any FSA program provided for by law, (3) be a U.S. citizen, (4) be of legal voting age, (5) meet the basic eligibility requirements, and (6) reside in the county or multi-county jurisdiction in which they will be serving.

All nomination forms for the 2020 election must be postmarked or received in the local USDA Service Center by Aug. 1, 2020 (or next business day). For more information on FSA county committee elections and appointments, refer to the FSA fact sheet: *Eligibility to Vote and Hold Office as a COC Member* available online at: [fsa.usda.gov/elections](https://fsa.usda.gov/elections).
