

LAST CHANCE - Deadline Approaching for Discrimination Financial Assistance Program

January 13 is the deadline for Kansas farmers, ranchers and forest landowners to submit applications for assistance through the Discrimination Financial Assistance Program for those who experienced discrimination in USDA farm lending programs prior to January 2021.

If you think you may be eligible, we encourage you to check out the program website: <https://22007apply.gov>. You'll find various assistance to help learn about the program and help you apply.

Borrowers have the option to apply for assistance online via 22007apply.gov or through a paper-based form. FSA offices in Kansas are not managing the program and cannot help with applications. As directed by Congress, USDA is working with third-party vendors to administer this program.

We've been made aware of some lawyers and groups spreading misleading information about the discrimination assistance process, pressuring people to sign retainer agreements, and asking people to fill out forms with private and sensitive information. The official application process and filling out an application is **FREE** and does not require a lawyer.

To apply or learn more about the Discrimination Financial Assistance Program, please visit 22007apply.gov or call the free call center at 1-800-721-0970 before January 13, 2024.

Farmers Can Now Enroll for the Agriculture Risk Coverage and Price Loss Coverage Programs the 2024 Crop Year

The U.S. Department of Agriculture (USDA) announced that agricultural producers can now enroll in the Farm Service Agency's (FSA) [Agriculture Risk Coverage \(ARC\) and Price Loss Coverage \(PLC\)](#) programs for the 2024 crop year. Producers can enroll and make election changes for the 2024 crop year starting Dec. 18, 2023. The deadline to complete enrollment and any election change is March 15, 2024.

On Nov. 16, 2023, President Biden signed into law H.R. 6363, the *Further Continuing Appropriations and Other Extensions Act, 2024* (Pub. L. 118-22), which extended the *Agriculture Improvement Act of 2018* (Pub. L. 115-334), more commonly known as the

2018 Farm Bill, through September 30, 2024. This extension allows authorized programs, including ARC and PLC, to continue operating.

2024 Elections and Enrollment

Producers can elect coverage and enroll in ARC-County (ARC-CO) or PLC, which provide crop-by-crop protection, or ARC-Individual (ARC-IC), which protects the entire farm. Although election changes for 2024 are optional, producers must enroll through a signed contract each year. Also, if a producer has a multi-year contract on the farm it will continue for 2024 unless an election change is made.

If producers do not submit their election revision by the March 15, 2024, deadline, their election remains the same as their 2023 election for commodities on the farm. Farm owners cannot enroll in either program unless they have a share interest in the cropland.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice, safflower seed, seed cotton, sesame, soybeans, sunflower seed and wheat.

2022 Crop Year Payments

This fall, FSA issued payments totaling more than \$267 million to agricultural producers who enrolled in the 2022 ARC-CO option and the ARC-IC option for covered commodities that triggered a payment. Payments through the PLC option did not trigger for the 2022 crop year.

ARC and PLC payments for a given crop year are paid out the following fall to allow actual county yields and the Market Year Average prices to be finalized. These payments help mitigate fluctuations in either revenue or prices for certain crops. Payments for crops that may trigger for the 2023 crop year will be issued in the fall of 2024.

Crop Insurance Considerations

ARC and PLC are part of a broader USDA safety net that also includes crop insurance and marketing assistance loans.

Producers are reminded that ARC and PLC elections and enrollments can impact eligibility for some crop insurance products.

Producers on farms with a PLC election can purchase Supplemental Coverage Option (SCO) through their Approved Insurance Provider; however, producers on farms where ARC is the election are ineligible for SCO on their planted acres for that crop on that farm.

Unlike SCO, the Enhanced Coverage Option (ECO) is unaffected by an ARC election. Producers may add ECO regardless of the farm program election.

Upland cotton farmers who choose to enroll seed cotton base acres in ARC or PLC are ineligible for the stacked income protection plan (STAX) on their planted cotton acres for that farm.

Web-Based Decision Tools

Many universities offer web-based decision tools to help producers make informed, educated decisions using crop data specific to their respective farming operations. Producers are encouraged to use the tool of their choice to support their ARC and PLC elections.

More Information

For more information on ARC and PLC, producers can visit the [ARC and PLC webpage](#) or contact their local [USDA Service Center](#). Producers can also make elections and complete enrollment [online with level 2 eAuth](#).

USDA Reminds Specialty Crop Growers of Deadline to Apply for Assistance for 2023 On-Farm Food Safety Expenses

The U.S. Department of Agriculture (USDA) reminds specialty crop growers that assistance is available for producers who incur eligible on-farm food safety program expenses to obtain or renew a food safety certification through the Food Safety Certification for Specialty Crops (FSCSC) program. Producers can apply for assistance on their calendar year 2023 expenses through Jan. 31, 2024.

Program Details

FSCSC assists specialty crop operations that incurred eligible on-farm food safety certification and related expenses pertaining to obtaining or renewing a food safety certification in calendar year 2023. FSCSC covers a percentage of the specialty crop operation's cost of obtaining or renewing its certification, as well as a portion of related expenses.

To be eligible for FSCSC, the applicant must be a specialty crop operation; meet the definition of a small business or very small business; and have paid eligible expenses related to the 2023 certification.

Specialty crop operations may receive assistance for the following costs:

- Developing a food safety plan for first-time food safety certification.
- Maintaining or updating an existing food safety plan.
- Food safety certification.
- Certification upload fees.
- Microbiological testing for products, soil amendments and water.
-

FSCSC payments are calculated separately for each category of eligible costs. A higher payment rate has been set for socially disadvantaged, limited resource, beginning and veteran

farmers and ranchers. Details about the payment rates and limitations can be found at farmers.gov/food-safety.

Applying for Assistance

The FSCSC application period for 2023 closes Jan. 31, 2024. FSA will issue payments after the application period closes. If calculated payments exceed the amount of available funding, payments will be prorated.

Interested specialty crop producers can apply by completing the FSA-888, Food Safety Certification for Specialty Crops Program (FSCSC) application. The application, along with other required documents, can be submitted to the FSA office at any USDA Service Center nationwide by mail, fax, hand delivery or via electronic means.

Specialty crop producers can also call 877-508-8364 to speak directly with a USDA employee ready to assist. Visit farmers.gov/food-safety for additional program details, eligibility information and forms needed to apply.

USDA Now Accepting Applications for Farm Loans Online

The U.S. Department of Agriculture (USDA) has launched an [online application for Direct Loan customers](#). More than 26,000 customers who submit a Direct Loan application each year can now use an online, interactive, guided application that is paperless and provides helpful features including an electronic signature option, the ability to attach supporting documents such as tax returns, complete a balance sheet and build a farm operating plan. This tool is part of a broader effort by USDA's Farm Service Agency (FSA) to streamline its processes, improve customer service, and expand credit access.

The online farm loan application replicates the support an applicant would receive when completing a loan application in person with an FSA Farm Loan Officer, while continuing to provide customers with one-on-one assistance as needed. This tool and other process improvements allow farmers and ranchers to submit complete loan applications and reduce the number of incomplete and withdrawn applications.

Through a personalized dashboard, borrowers can track the progress of their loan application. It can be accessed on farmers.gov or by completing FSA's Loan Assistance Tool at farmers.gov/loan-assistance-tool. To use the online loan application tool, producers must establish a USDA customer account and a [USDA Level 2 eAuthentication \("eAuth"\) account or a Login.gov account](#). For the initial stage, the online application tool is only available for producers who will be, or are currently, operating their farm as an individual. FSA is expanding the tools availability to married couples applying jointly and other legal entities in 2024.

Farm Loan Improvement Efforts

FSA has a significant initiative underway to streamline and automate Farm Loan Program customer-facing business processes. For the over 26,000 producers who submit a Direct

Loan application to FSA annually, and its 85,000 Direct Loan borrowers, FSA has made improvements this year, including:

- A [simplified direct loan paper application](#), reduced from 29 pages to 13 pages.
- The [Loan Assistance Tool on farmers.gov](#) that provides customers with an interactive online, step-by-step guide to identifying the Direct Loan products that may be a fit for their business needs and to understanding the application process.

More Information

FSA continues to accept and review individual requests for assistance from borrowers who took certain extraordinary measures to avoid delinquency on their direct FSA loans or those who missed a recent installment or are unable to make their next scheduled installment. All requests for assistance must be received by Dec. 31, 2023. For more information, or to submit a request for assistance, producers can contact their local [USDA Service Center](#) or visit [farmers.gov/inflation-reduction-investments/assistance](#).

The Inflation Reduction Act, a historic, once-in-a-generation investment and opportunity for agricultural communities, provided \$3.1 billion for USDA to provide relief for distressed borrowers with certain FSA direct and guaranteed loans and to expedite assistance for those whose agricultural operations are at financial risk. Since October 2022, USDA has provided approximately \$1.6 billion in immediate assistance to more than 27,000 financially distressed direct and guaranteed FSA loan borrowers.
