Farm Storage Facility Loans

FSA's Farm Storage Facility Loan (FSFL) program provides low-interest financing to producers to build or upgrade storage facilities.

The low-interest funds can be used to build or upgrade permanent facilities to store commodities. Eligible commodities include corn, grain sorghum, rice, soybeans, oats, peanuts, wheat, barley, minor oilseeds harvested as whole grain, pulse crops (lentils, chickpeas and dry peas), hay, honey, renewable biomass, fruits, nuts and vegetables for cold storage facilities, floriculture, hops, maple sap, rye, milk, cheese, butter, yogurt, meat and poultry (unprocessed), eggs, and aquaculture (excluding systems that maintain live animals through uptake and discharge of water). Qualified facilities include grain bins, hay barns and cold storage facilities for eligible commodities.

Loans up to \$50,000 can be secured by a promissory note/security agreement and some loans between \$50,000 and \$100,000 will no longer require additional security.

To find contact information for your local office go to www.fsa.usda.gov/ms

Producers do not need to demonstrate the lack of commercial credit availability to apply. The loans are designed to assist a diverse range of farming operations, including small and mid-sized businesses, new farmers, operations supplying local food and farmers markets, non-traditional farm products, and underserved producers.

To learn more about the FSA Farm Storage Facility Loan, visit www.fsa.usda.gov/pricesupport or contact your local FSA county office. To find your local FSA county office, visit <http://offices.usda.gov>.

Foreign Buyers Notification

The Agricultural Foreign Investment Disclosure Act (AFIDA) requires all foreign owners of U.S. agricultural land to report their holdings to the Secretary of Agriculture. The Farm Service Agency administers this program for USDA.

All individuals who are not U.S. citizens, and have purchased or sold agricultural land in the county are required to report the transaction to FSA with 90 days of the closing. Failure to submit the AFIDA form (FSA-153) could result in civil penalties of up to 25 percent of the fair market value of the property. County government offices, Realtors, attorneys and others involved in real estate transactions are reminded to notify foreign investors of these reporting requirements

Guaranteed Loan Program

FSA guaranteed loans allow lenders to provide agricultural credit to farmers who do not meet the lender's normal underwriting criteria. Farmers and ranchers apply for a guaranteed loan through a lender, and the lender arranges for the guarantee. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. Guaranteed loans can be used for both farm ownership and operating purposes.

Guaranteed farm ownership loans can be used to purchase farmland, construct or repair buildings, develop farmland to promote soil and water conservation or to refinance debt.

Guaranteed operating loans can be used to purchase livestock, farm equipment, feed, seed, fuel, farm chemicals, insurance and other operating expenses.

FSA can guarantee farm ownership and operating loans up to \$1,399,000. Repayment terms vary depending on the type of loan, collateral and the producer's ability to repay the loan. Operating loans are normally repaid within seven years and farm ownership loans are not to exceed 40 years.

Please contact your lender or local FSA farm loan office for more information on guaranteed loans

Filing a Notice of Loss

The CCC-576, Notice of Loss, is used to report failed acreage and prevented planting and may be completed by any producer with an interest in the crop. Timely filing a Notice of Loss is required for all crops including grasses. For losses on crops covered by the Non-Insured Crop Disaster Assistance Program (NAP), you must file a CCC-576, Notice of Loss, in the FSA County Office within 15 days of the occurrence of the disaster or when losses become apparent or 15 calendar days after the normal harvest date.

Producers of hand-harvested crops must notify FSA of damage or loss through the administrative County Office within 72 hours of the date of damage or loss first becomes apparent. This notification can be provided by filing a CCC-576, email, fax or phone. Producers who notify the County Office by any method other than by filing the CCC-576 are still required to file a CCC-576, Notice of Loss, within the required 15 calendar days.

If filing for prevented planting, an acreage report and CCC-576 must be filed within 15 calendar days of the final planting date for the crop.

2017 Acreage Reporting Dates

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit their local FSA office to file an accurate crop certification report by the applicable deadline.

Acreage reporting dates vary by crop and by county so please contact your local FSA office for a list of county-specific deadlines.

Mississippi	Perennial Forage	November 15
	Fall-Seeded Small Grains	December 15
	Blueberries, Grapes, Peaches	January 15
	Pecans	March 15
	all other crops	July 15

The following exceptions apply to acreage reporting dates:

- If the crop has not been planted by the applicable acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.
- If a producer acquires additional acreage after the applicable acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.
- If a perennial forage crop is reported with the intended use of "cover only," "green manure," "left standing," or "seed," then the acreage must be reported by July 15th.

Noninsured Crop Disaster Assistance Program (NAP) policy holders should note that the acreage reporting date for NAP covered crops is the earlier of the applicable dates or 15 calendar days before grazing or harvesting of the crop begins.

For questions regarding crop certification and crop loss reports, please contact your local FSA office.

Double-Cropping

Each year, state committees will review and approve or disapprove county committee recommended changes or additions to specific combinations of crops.

Double-cropping is approved when the two specific crops have the capability to be planted and carried to maturity for the intended use, as reported by the producer, on the same acreage within a crop year under normal growing conditions. The specific combination of crops recommended by the county committee must be approved by the state committee.

Double-cropping is approved in Mississippi on a county-by-county basis. Contact your local FSA Office for a list of approved double-cropping combinations for your county.

A crop following a cover crop terminated according to termination guidelines is approved double cropping and these combinations do not have to be approved by the state committee.

Guaranteed Conservation Loans

Guaranteed Conservation Loans are available for applicants to install a conservation practice. These funds may be used for any conservation activities included in a conservation plan or Forest Stewardship Management plan. A copy of the conservation plan is required to complete the application. These loans are not limited to just family farmers. In some cases, applicants can operate non-eligible enterprises. Loan funds are issued by a participating commercial lender and guaranteed up to 80 percent by FSA or up to 90 percent for beginning and historically underserved producers.

Farmers to Receive Documentation of USDA Services

Farm Service Agency (FSA) reminds agricultural producers that FSA provides a receipt to customers who request or receive assistance or information on FSA programs.

The 2014 Farm Bill requires a customer receipt to be issued for any agricultural program assistance requested from FSA, the National Resources Conservation Service (NRCS) and Rural Development (RD). Receipts include the date, summary of the visit and any agricultural information, program and/or loan assistance provided to an individual or entity. Electronic receipts for acreage reports will begin on August 1, 2016.

A service is any information, program or loan assistance provided whether through a visit, email, fax or letter

Selected Interest Rates for

90-Day Treasury Bill .250

Farm Operating Loans — Direct 2.25

Farm Ownership Loans — Direct 3.25
