Coronavirus Food Assistance Program Signup Ends September 11, 2020

FSA is accepting through September 11, 2020, applications for the Coronavirus Food Assistance Program (CFAP), which helps offset price declines and additional marketing costs because of the coronavirus pandemic. USDA announced that additional commodities are covered by CFAP in response to public comments and data. Read more about these program updates at farmers.gov/cfap.

We offer a call center at 877-508-8364 for producers interested in one-on-one assistance with the application, and your [local USDA Service Center](#) staff are always available to help as well.

Farmers support our nation, and we are here to support our farmers. Visit farmers.gov/cfap to learn more about this program, and don't forget to submit your application by September 11.

Save Time – Make an Appointment with FSA

Producers are encouraged to call their local FSA office to schedule an appointment to ensure maximum use of their time and to make sure FSA staff is available to tend to their important business needs. Please call your local FSA office ahead to set an appointment and to discuss any records or documentation that

Conservation Covey
Headquarters newsletter.

might be needed during your appointment. To find your local FSA
office, visit farmers.gov/service-center-locator.

USDA Reminds Farmers of Sept. 30 Deadline to Update Safety-Net Program Crop Yields

Don't Miss This One-Time Opportunity - First Since 2014

USDA's Farm Service Agency (FSA) reminds farm owners that they have a one-time opportunity to update Price Loss Coverage (PLC) program yields for covered commodities on the farm. The deadline is September 30, 2020, to update yields, which are used to calculate the PLC payments for 2020 through 2023. Additionally, producers who elected Agriculture Risk Coverage (ARC) should also consider updating their yields.

Updating yields requires the signature of one owner on a farm and not all owners. If a yield update is not made, no action is required to maintain the existing base crop yield on file with FSA.

For program payments, updated yields will apply beginning with the 2020 crop year which, should payments trigger, will be paid out in October of 2021.

Determining Yield Updates

The updated yield will be equal to 90% of the average yield per planted acre in crop years 2013-2017. That excludes any year where the applicable covered commodity was not planted and is subject to the ratio obtained by dividing the 2008-2012 average national yield by the 2013-2017 average national yield for the covered commodity.

The chart below provides the ratio obtained by this calculation.

Covered Commodity National Yield Factor

Barley	0.9437
Canola	0.9643
Chickpeas, Large	1.0000
Chickpeas, Small	0.9760
Corn	0.9000
Crambe	1.0000
Flaxseed	1.0000
Grain Sorghum	0.9077
Lentils	1.0000

Mustard Seed	0.9460
Oats	0.9524
Peanuts	0.9273
Peas, Dry	0.9988
Rapeseed	1.0000
Rice, Long	0.9330
Rice, Medium	0.9887
Rice, Temp Japonica	0.9591
Safflower	1.0000
Seed Cotton	0.9000
Sesame Seed	0.9673
Soybeans	0.9000
Sunflower Seed	0.9396
Wheat	0.9545

If the reported yield in any year is less than 75 percent of the 2013-2017 average county yield, the yield will be substituted with 75 percent of the county average yield.

More information

PLC yields may be updated on a covered commodity-by-covered commodity basis by submitting FSA form CCC-867 to include a farm owner's signature.

For more information, reference resources, and decision tools, visit farmers.gov/arc-plc. Contact your local FSA county office for assistance at farmers.gov/service-center-locator.

FSA Reminds Producers of Ongoing Disaster Assistance Program Signup

USDA has started making payments through the Wildfire and Hurricane Indemnity Program – Plus (WHIP+) to agricultural producers who suffered eligible losses because of drought or excess moisture in 2018 and 2019. Signup for these causes of loss opened March 23, and producers who suffered losses from drought (in counties designated D3 or above), excess moisture, hurricanes,

floods, tornadoes, typhoons, volcanic activity, snowstorms or wildfires can still apply for assistance through WHIP+.

To be eligible for WHIP+, producers must have suffered losses of certain crops, trees, bushes or vines in counties with a Presidential Emergency Disaster Declaration or a Secretarial Disaster Designation (primary counties only) for qualifying natural disaster events that occurred in calendar years 2018 or 2019. Also, losses located in a county not designated by the Secretary as a primary county may be eligible if a producer provides documentation showing that the loss was due to a qualifying natural disaster event.

For losses due to drought, a producer is eligible if any area of the county in which the loss occurred was rated D3, or extreme drought, or higher on the U.S. Drought Monitor during calendar years 2018 or 2019. Producers who suffered losses should contact their FSA county office.

In addition to the recently added eligible losses of drought and excess moisture, FSA will implement a WHIP+ provision for crop quality loss that resulted in price deductions or penalties when marketing crops were damaged by eligible disaster events. To ensure an effective program for all impacted farmers, the Agency is currently gathering information on the extent of quality loss from producers and stakeholder organizations.

USDA Service Centers, including FSA county offices, are open for business by phone only, and field work will continue with appropriate social distancing. While program delivery staff will continue to come into the office, they will be working with producers by phone and using online tools whenever possible. All Service Center visitors wishing to conduct business with the FSA, Natural Resources Conservation Service or any other Service Center agency are required to call their Service Center to schedule a phone appointment. More information on Service Centers can be found at farmers.gov/coronavirus, and more information on WHIP+ can be found at farmers.gov/whip-plus.

USDA Accepting Applications to Help Cover Costs for Organic Certification

USDA's Farm Service Agency (FSA) announced that organic producers and handlers can apply for federal funds to assist with the cost of receiving and maintaining organic certification through the [Organic Certification Cost Share Program](#) (OCCSP). Applications for eligible certification expenses paid between Oct. 1, 2019, and Sept. 30, 2020, are due Oct. 31, 2020.

OCCSP provides cost-share assistance to producers and handlers of agricultural products for the costs of obtaining or maintaining organic certification under the USDA's National Organic Program. Eligible producers include any certified producers or handlers who have paid organic certification fees to a USDA-accredited certifying agent. Eligible expenses for cost-share reimbursement include application fees, inspection costs, fees related to equivalency agreement and arrangement requirements, travel expenses for inspectors, user fees, sales assessments and postage.

Changes in Reimbursement

Due to expected participation levels for fiscal year 2020, FSA revised the reimbursement amount through fiscal year 2023. Certified producers and handlers are now eligible to receive reimbursement for up to 50 percent of the certified organic operation's eligible expenses, up to a maximum of \$500 per scope.

This change is due to the limited amount of funding available and will allow a larger number of certified organic operations to receive assistance. If additional funding is authorized later, FSA may provide additional assistance to certified operations that have applied for OCCSP, not to exceed 75 percent of their eligible costs, up to \$750 per scope.

The changes to the payment calculation and maximum payment amount are applicable to all certified organic operations, regardless of whether they apply through an FSA county office or a participating state agency. State agencies that are interested in overseeing reimbursements to producers and handlers in their states must establish new agreements with FSA for fiscal 2020.

Opportunities for State Agencies

Today's announcement also includes the opportunity for state agencies to apply for grant agreements to administer the OCCSP program in fiscal 2020. State agencies that establish agreements for fiscal 2020 may be able to extend their agreements and receive additional funds to administer the program in future years.

FSA has not yet determined whether an additional application period will be announced for later years for state agencies that choose not to participate in fiscal 2020. States that would like to administer OCCSP for future years are encouraged to establish an agreement for 2020 to ensure that they will be able to continue to participate.

FSA will accept applications from state agencies for fiscal year 2020 funding for cost-share assistance from Aug. 10, 2020 through Sept. 9, 2020.

State Agencies must submit the Application for Federal Assistance (Standard Form 424 and 424B) electronically via Grants.gov, the Federal grants website, at <http://www.grants.gov>.

More Information

To learn more about organic certification cost share, please visit the [OCCSP webpage](#), view the [notice of funds availability on the Federal Register](#), or contact the [FSA county office](#) at your local USDA Service Center. All USDA Service Centers are open for business, including some that are open to visitors to conduct business in person by appointment only. All Service Center visitors wishing to conduct business with FSA, Natural Resources Conservation Service or any other Service Center agency should call ahead and schedule an appointment. Service Centers that are open for appointments will pre-screen visitors based on health concerns or recent travel, and visitors must adhere to social distancing guidelines. Visitors may also be required to wear a face covering during their appointment.

To learn more about USDA support for organic agriculture, visit usda.gov/organic.

USDA Offers Targeted Farm Loan Funding for Underserved Groups and Beginning Farmers

The USDA Farm Service Agency (FSA) reminds producers that FSA offers targeted farm ownership and farm operating loans to assist underserved applicants and beginning farmers and ranchers.

USDA defines underserved applicants as a group whose members have been subjected to racial, ethnic, or gender prejudice because of their identity as members of the group without regard to their

individual qualities. For farm loan program purposes, targeted underserved groups are women, African Americans, American Indians and Alaskan Natives, Hispanics and Asians and Pacific Islanders.

Underserved or beginning farmers and ranchers who cannot obtain commercial credit from a bank can apply for either FSA direct loans or guaranteed loans. Direct loans are made to applicants by FSA. Guaranteed loans are made by lending institutions who arrange for FSA to guarantee the loan. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. The FSA guarantee allows lenders to make agricultural credit available to producers who do not meet the lender's normal underwriting criteria.

The direct and guaranteed loan program provides for two types of loans: farm ownership loans and farm operating loans. In addition to customary farm operating and ownership loans, FSA offers Microloans through the direct loan program. Microloans focus on the financing needs of small, beginning farmer, niche, and non-traditional farm operations. Microloans are available for both ownership and operating finance needs. To learn more about microloans, visit fsa.usda.gov/microloans.

To qualify as a beginning producer, the individual or entity must meet the eligibility requirements outlined for direct or guaranteed loans. Individuals and all entity members must have operated a farm for less than 10 years. Applicants must materially or substantially participate in the operation.

For more information on FSA's farm loan programs and targeted underserved and beginning farmer guidelines, contact your local USDA Service Center or visit fsa.usda.gov/farmloans.

Report Banking Changes to FSA

Farm Service Agency (FSA) program payments are issued electronically into your bank account. In order to receive timely payments, you need to notify your FSA servicing office if you close your account or if your bank information is changed for any reason (such as your financial institution merging or being purchased). Payments can be delayed if FSA is not notified of changes to account and bank routing numbers.

For some programs, payments are not made until the following year. For example, payments for crop year 2019 through the Agriculture Risk Coverage and Price Loss Coverage program aren't paid until 2020. If the bank account was closed due to the death of an individual or dissolution of an entity or partnership before the payment was issued, please notify your local FSA office as soon as possible to claim your payment.

Farm Safety

Flowing grain in a storage bin or gravity-flow wagon is like quicksand — it can kill quickly. It takes less than five seconds for a person caught in flowing grain to be trapped.

The mechanical operation of grain handling equipment also presents a real danger. Augers, power take offs, and other moving parts can grab people or clothing.

These hazards, along with pinch points and missing shields, are dangerous enough for adults; not to mention children. It is always advisable to keep children at a safe distance from operating farm

equipment. Always use extra caution when backing or maneuvering farm machinery. Ensure everyone is visibly clear and accounted for before machinery is engaged.

FSA wants all farmers to have a productive crop year and that begins with putting safety first.

Farmers.gov Feature Helps Producers Find Farm Loans that Fit Their Operation

Farmers and ranchers can use the *Farm Loan Discovery Tool* on farmers.gov to find information on USDA farm loans that may best fit their operations.

USDA's Farm Service Agency (FSA) offers a variety of loan options to help farmers finance their operations. From buying land to financing the purchase of equipment, FSA loans can help.

USDA conducted field research in eight states, gathering input from farmers and FSA farm loan staff to better understand their needs and challenges.

How the Tool Works

Farmers who are looking for financing options to operate a farm or buy land can answer a few simple questions about what they are looking to fund and how much money they need to borrow. After submitting their answers, farmers will receive information on farm loans that best fit their specific needs. The loan application and additional resources also will be provided.

Farmers can download application quick guides that outline what to expect from preparing an application to receiving a loan decision. There are four guides that cover loans to individuals, entities, and youth, as well as information on microloans. The guides include general eligibility requirements and a list of required forms and documentation for each type of loan. These guides can help farmers prepare before their first USDA service center visit with a loan officer.

Farmers can access the *Farm Loan Discovery Tool* by visiting farmers.gov/fund and clicking the "Start" button. Follow the prompts and answer five simple questions to receive loan information that is applicable to your agricultural operation. The tool is built to run on any modern browser like Chrome, Edge, Firefox, or the Safari browser, and is fully functional on mobile devices. It does not work in Internet Explorer.

About Farmers.gov

In 2018, USDA unveiled farmers.gov, a dynamic, mobile-friendly public website combined with an authenticated portal where farmers will be able to apply for programs, process transactions, and manage accounts.

The *Farm Loan Discovery Tool* is one of many resources on farmers.gov to help connect farmers to information that can help their operations. Earlier this year, USDA launched the *My Financial Information* feature, which enables farmers to view their loan information, history, payments, and alerts by logging into the website.

USDA is building farmers.gov for farmers, by farmers. In addition to the interactive farm loan features, the site also offers a Disaster Assistance Discovery Tool. Farmers can visit

farmers.gov/recover/disaster-assistance-tool#step-1 to find disaster assistance programs that can help their operation recover from natural disasters.

For more information, contact your local USDA Service Center or visit farmers.gov.

Interest Rates and Dates to Remember

Selected Interest Rates for September 2020

90-Day Treasury Bill	0.125%
Farm Operating Loans - Direct	1.250%
Farm Ownership Loans - Direct	2.250%
Farm Ownership Loans - Direct Down Payment, Beginning Farmer or Rancher	1.500%
Emergency Loans	2.250%
Farm Storage Facility Loans (3 years)	0.125%
Farm Storage Facility Loans (5 years)	0.250%
Farm Storage Facility Loans (7 years)	0.500%
Farm Storage Facility Loans (10 years)	0.625%
Farm Storage Facility Loans (12 years)	0.750%
Commodity Loans (1996-Present)	1.125%

Dates to Remember

September 11, 2020	Final date to submit application for Coronavirus Food Assistance Program (CFAP).
September 30, 2020	NAP application closing date for strawberries & fall-seeded small grains.
September 30, 2020	Final date to update PLC yields for 2020 crop year.
October 12, 2020	Columbus Day Holiday. FSA offices are closed.
October 31, 2020	Final date to submit applications for the Organic Certification Cost Share Program for certification costs paid Oct. 1, 2019, through Sept. 30, 2020.
