Enrollment Period for 2016 USDA Safety Net Coverage Ends Aug. 1

Producers who chose coverage from the safety net programs established by the 2014 Farm Bill, known as the Agriculture Risk Coverage (ARC) or the Price Loss Coverage (PLC) programs, can visit FSA county offices through Aug. 1, 2016, to sign contracts to enroll in coverage for 2016.

Although the choice between ARC and PLC is completed and remains in effect through 2018, producers must still enroll their farm by signing a contract each year to receive coverage.

Producers are encouraged to contact their local FSA office to schedule an appointment to enroll. If a farm is not enrolled during the 2016 enrollment

State Executive Director:
Wilfred L. Pace

Administrative Officer:
Toni Turner

Farm Programs Chief:
Amy Turner

Farm Loan Programs Chief:
Frank Sligh

Producers can contact their [local FSA Office](#) for more information or to schedule an appointment.

Important Dates and Deadlines:

August 1: Signup
Deadline for ARCPLC

August 15: Acreage
Reporting Deadline for
Tomatoes (planted 7/1 -
7/15).

September 5: Offices
Closed for Labor Day

period, producers on that farm will not be eligible for financial assistance from the ARC or PLC programs should crop prices or farm revenues fall below the historical price or revenue benchmarks established by the program.

The two programs were authorized by the 2014 Farm Bill and offer a safety net to agricultural producers when there is a substantial drop in prices or revenues for covered commodities. Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain and sweet rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity. For more details regarding these programs, go to www.fsa.usda.gov/arc-plc.

For more information, producers are encouraged to visit their local FSA office. To find a local FSA office, visit <http://offices.usda.gov>.

Dairy Producers Can Enroll to Protect Milk Production Margins

USDA Farm Service Agency (FSA) in SC announced that dairy producers can enroll for 2017 coverage in the Margin Protection Program for Dairy (MPP-Dairy) starting July 1. The voluntary program, established by the 2014 Farm Bill, provides financial assistance to participating dairy producers when the margin – the difference between the price of milk and feed costs – falls below the coverage level selected by the producer.

The Margin Protection Program gives participating dairy producers the flexibility to select coverage levels best suited for their operation. Enrollment began July 1 and ends on Sept. 30, 2016, for coverage in calendar year 2017. Participating farmers will remain in the program through 2018 and pay a minimum \$100 administrative fee each year. Producers have the option of selecting a different coverage level during open enrollment each year.

USDA has a web tool to help producers determine the level of coverage under the Margin Protection Program that will provide them with the strongest safety net under a variety of conditions. The online resource, available at www.fsa.usda.gov/mpptool, allows dairy farmers to quickly and easily combine unique operation data and other key variables to calculate their coverage needs based on price projections. Producers can also review historical data or estimate future coverage needs, based on data projections. The secure site can be accessed via computer, Smartphone or tablet 24 hours a day, seven days a week.

To complete enrollment, producers must make coverage elections during the enrollment period and pay the annual \$100 administrative fee that provides basic catastrophic protection that covers 90 percent of milk production at a \$4 margin coverage level. For additional premiums, operations can protect 25 to 90 percent of production history with margin coverage levels from \$4.50 to \$8, in 50 cent increments. Once enrolled, dairy operations are required to participate through 2018 by making coverage elections each year. Producers can mail the appropriate form to the producer's administrative county FSA office, along with applicable fees without necessitating a trip to the local FSA office. If electing higher coverage for 2017, dairy producers can either pay the premium in full at the time of enrollment or pay 100 percent of the premium by Sept. 1, 2017. Premium fees may be paid directly to FSA or producers can work with their milk handlers to remit premiums on their behalf.

Also beginning July 1, 2016, FSA will begin accepting applications for intergenerational transfers, allowing program participants who added an adult child, grandchild or spouse to the operation during calendar year 2014 or 2015, or between Jan. 1 and June 30, 2016, to increase production history by the new cows bought into the operation by the new family members. For intergenerational transfers occurring on or after July 1, 2016, notification to FSA must be made within 60 days of purchasing the additional cows.

Dairy operations enrolling in the new program must meet conservation compliance provisions and cannot participate in the Livestock Gross Margin Dairy Insurance Program.

For more information, visit FSA online at www.fsa.usda.gov/dairy or stop by a local FSA office to learn more about the Margin Protection Program. To find a local FSA office in your area, visit <http://offices.usda.gov>.

FSAfarm+, FSA's Customer Self-Service Portal

The U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) has launched a new tool to provide farmers and ranchers with remote access to their personal farm information using their home computers. Farmers and ranchers can now view, print or export their personal farm data all without visiting an FSA county office.

The program, known as **FSAfarm+**, provides you with secure access to view your personal FSA data, such as base and yields, Conservation Reserve Program data, other conservation program acreage, Highly Erodible Land Conservation and Wetland Conservation status information, field boundaries, farm imagery, name and address details, contact information and membership interest and shares in the operation. This data will be available in real time, at no cost to the producer and allow operators and owners to export and print farm records, including maps. Producers also can electronically share their data with a crop insurance agent from their own personal computer.

Farm operators and owners first will need "Level 2 eAuthentication" to access the webportal. This level of security ensures that personal information is protected for each user. Level 2 access can be obtained by going to www.eauth.usda.gov, completing the required information and then visiting your local FSA office to finalize access.

For more information on **FSAfarm+**, the customer self-service portal, contact your local FSA office. To find your local FSA county office, click <http://offices.usda.gov>.

FSA Unveils Monthly Webinar Series

The FSA Outreach and Education Division will host a series of webinars each month to inform producers about FSA programs and initiatives. To register for any of the webinars, visit

www.fsa.usda.gov/outreach and click on “Outreach Webinars.” The next available webinar is listed below.

Aug. 9 @ 2 p.m. EDT

Need Commodity Storage? The Farm Storage Facility Loan (FSFL) Can Help

The Farm Storage Facility Loan Program provides low-interest financing so producers can build or upgrade permanent or portable facilities to store commodities. Learn how this program may be able to help your operation.

Persons with disabilities who require accommodations to attend or participate in these webinars should contact Tanya Brown at 202-690-1700 or Federal Relay Service at 1-800-877-8339 at least three business days prior to the webinar.

The webinars will be recorded for future viewing and can be accessed on www.fsa.usda.gov/outreach.

FSA Offers Improved Program to Limit Losses on Forages

Reduced forage quality is now considered a production loss for weather disaster assistance coverage under the new buy-up provisions of the Farm Service Agency (FSA) Noninsured Crop Disaster Assistance Program (NAP).

This safety net is important for cattlemen who produce non-insurable forages for feeding livestock. Previously, FSA only considered a decrease in overall forage tonnage produced when determining if the producer suffered a compensable loss after a qualifying weather event. Under FSA’s new NAP buy-up provisions, a decrease in forage quality – such as protein content – is also considered.

To receive coverage for the 2017 crop year, producers must enroll their eligible forage in NAP by November 20, 2016. Beginning, limited resource and targeted underserved farmers or ranchers are eligible for a waiver of the NAP service fee and a 50 percent premium reduction in buy-up provisions.

For more information on NAP, visit www.fsa.usda.gov/nap.

USDA Offers New Loans for Portable Farm Storage and Handling Equipment

Portable Equipment Can Help Producers, including Small-Scale and Local Farmers, Get Products to Market Quickly

USDA’s Farm Service Agency (FSA) will provide a new financing option to help farmers purchase portable storage and handling equipment. The loans, which now include a smaller microloan option with lower down payments, are designed to help producers, including new, small and mid-sized producers, grow their businesses and markets.

The program also offers a new “microloan” option, which allows applicants seeking less than \$50,000 to qualify for a reduced down payment of five percent and no requirement to provide three years of production history. Farms and ranches of all sizes are eligible. The microloan option is expected to be of particular benefit to smaller farms and ranches, and specialty crop producers who may not have access to commercial storage or on-farm storage after harvest. These producers can invest in equipment like conveyers, scales or refrigeration units and trucks that can store

commodities before delivering them to markets. Producers do not need to demonstrate the lack of commercial credit availability to apply.

Earlier this year, FSA significantly expanded the list of commodities eligible for Farm Storage Facility Loan. Eligible commodities now include aquaculture; floriculture; fruits (including nuts) and vegetables; corn, grain sorghum, rice, oilseeds, oats, wheat, triticale, spelt, buckwheat, lentils, chickpeas, dry peas sugar, peanuts, barley, rye, hay, honey, hops, maple sap, unprocessed meat and poultry, eggs, milk, cheese, butter, yogurt and renewable biomass. FSFL microloans can also be used to finance wash and pack equipment used post-harvest, before a commodity is placed in cold storage.

To learn more about Farm Storage Facility Loans, visit www.fsa.usda.gov/pricesupport or contact a local FSA county office. To find your local FSA county office, visit <http://offices.usda.gov>.

Report Livestock Losses

The Livestock Indemnity Program (LIP) provides assistance to eligible producers for livestock death losses in excess of normal mortality due to adverse weather and attacks by animals reintroduced into the wild by the federal government or protected by federal law. LIP compensates livestock owners and contract growers for livestock death losses in excess of normal mortality due to adverse weather, including losses due to hurricanes, floods, blizzards, wildfires, extreme heat or extreme cold.

For 2016, eligible losses must occur on or after Jan. 1, 2016, and before December 31, 2016. A notice of loss must be filed with FSA within 30 days of when the loss of livestock is apparent. Participants must provide the following supporting documentation to their local FSA office no later than 30 calendar days after the end of the calendar year for which benefits are requested:

- Proof of death documentation
- Copy of growers contracts
- Proof of normal mortality documentation

USDA has established normal mortality rates for each type and weight range of eligible livestock. These established percentages reflect losses that are considered expected or typical under “normal” conditions. Producers who suffer livestock losses in 2016 must file both of the following:

- A notice of loss the earlier of 30 calendar days of when the loss was apparent or by January 30, 2017
- An application for payment by January 30, 2017.

Additional Information about LIP is available at your local FSA office or online at: www.fsa.usda.gov.

Double-Cropping

Each year, state committees will review and approve or disapprove county committee recommended changes or additions to specific combinations of crops.

Double-cropping is approved when the two specific crops have the capability to be planted and carried to maturity for the intended use, as reported by the producer, on the same acreage within a crop year under normal growing conditions. The specific combination of crops recommended by the county committee must be approved by the state committee.

Double-cropping is approved in SC on a county-by-county basis. Contact your local FSA Office for a list of approved double-cropping combinations for your county.

A crop following a cover crop terminated according to termination guidelines is approved double cropping and these combinations do not have to be approved by the state committee.

Borrower Training

Borrower training is available for all Farm Service Agency customers. This training is required for all direct loan applicants, unless the applicant has a waiver issued by the agency.

Borrower training includes instruction in production and financial management. The purpose is to help the applicant develop and improve skills that are necessary to successfully operate a farm and build equity in the operation. It aims to help the producer become financially successful. Borrower training is provided, for a fee, by agency approved vendors. Contact your local FSA Farm Loan Manager for a list of approved vendors.

Youth Loans

The Farm Service Agency makes loans to youth to establish and operate agricultural income-producing projects in connection with 4-H clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is \$5000.

Youth Loan Eligibility Requirements:

- Be a citizen of the United States (which includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands) or a legal resident alien
- Be 10 years to 20 years of age
- Comply with FSA's general eligibility requirements
- Be unable to get a loan from other sources
- Conduct a modest income-producing project in a supervised program of work as outlined above
- Demonstrate capability of planning, managing and operating the project under guidance and assistance from a project advisor. The project supervisor must recommend the youth loan applicant, along with providing adequate supervision.

Stop by the county office for help preparing and processing the application forms.
