### South Carolina Farm Service Agency

1927 Thurmond Mall, Suite  
100  
Columbia, SC 29201  
Phone: 803.806.3820

[www.fsa.usda.gov/sc](http://www.fsa.usda.gov/sc)

**State Executive Director:**  
Boone Peeler

**State Committee:**  
Anthony Grant, Chairperson  
Robert Battle  
Bill Sarratt  
Landy Weathers  
Beth White

### USDA Launches Trade Mitigation Programs

USDA launched the trade mitigation package aimed at assisting farmers suffering from damage due to unjustified trade retaliation by foreign nations. Producers of certain commodities can now sign up for the Market Facilitation Program (MFP).

USDA [provided details in August](#) of the programs to be employed. USDA's Farm Service Agency (FSA) will administer the Market Facilitation Program (MFP) to provide payments to corn, cotton, dairy, hog, sorghum, soybean, and wheat producers. An announcement about further payments will be made in the coming months, if warranted. USDA is currently working to determine how to address market disruptions for producers of almonds and sweet cherries.

The sign-up period for MFP is now open and runs through Jan. 15, 2019, with information and instructions provided at [www.farmers.gov/mfp](http://www.farmers.gov/mfp). MFP provides payments to cotton, corn, dairy, hog, sorghum, soybean, and wheat producers who have been significantly impacted by actions of foreign governments resulting in the loss of traditional exports. Eligible producers should

**Administrative Officer:** apply after harvest is complete, as payments will only be issued once production is reported.  
Kenn Jameson

**Farm Programs Chief:** A payment will be issued on 50 percent of the producer's total production, multiplied by the MFP rate for a specific commodity. A second payment period, if warranted, will be determined by the  
Amy Turner

**Farm Loan Programs Chief:** USDA.  
William Shelley

Producers can contact their [local FSA Office](#) for more information or to schedule an appointment.

#### Market Facilitation Program

#### Important Dates and Deadlines:

**September 30:** NAP Application Closing Date for Small Grains (not covered by crop insurance)

**October 8:** Offices Closed for Columbus Day

Commodity Payment** (in \$1,000s)	Initial Payment Rate	Est. Initial Payment
Cotton	\$0.06/lb.	\$276,900
Corn	\$0.01/bu.	\$96,000
Dairy (milk)	\$0.12/cwt.	\$127,400
Pork (hogs)	\$8.00/head	\$290,300
Soybeans	\$1.65/bu.	\$3,629,700
Sorghum	\$0.86/bu.	\$156,800
Wheat	\$0.14/bu.	\$119,200
<b>Total</b>		<b>\$4,696,300</b>

\*\*Initial payment rate on 50% of production

MFP payments are limited to a combined \$125,000 for corn, cotton, sorghum, soybeans, and wheat capped per person or legal entity. MFP payments are also limited to a combined \$125,000 for dairy and hog producers. Applicants must also have an average adjusted gross income for tax years 2014, 2015, and 2016 of less than \$900,000. Applicants must also comply with the provisions of the Highly Erodible Land and Wetland Conservation regulations.

For more further information or to locate and contact local FSA offices, interested producers can visit [www.farmers.gov](http://www.farmers.gov).

---

## USDA Assistance is Available to South Carolina Pecan Growers Affected by 2017 Weather Events

The U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) announced that assistance is available for pecan growers in South Carolina to replant and replace trees through the Tree Assistance Program (TAP) as they recover from the impacts of 2017 weather events.

Funding will be provided through TAP, a program administered by FSA. Up to \$15 million is available to eligible pecan orchardists or pecan nursery tree growers for certain mortality losses incurred during 2017. To be eligible, the grower must have suffered a mortality loss on a stand in excess of 7.5 percent, but less than 15 percent, adjusted for normal mortality.

The assistance was made to eligible pecan orchardists and pecan nursery tree growers by Congress through the Consolidated Appropriations Act of 2018. To qualify for a TAP payment for pecan tree losses, orchardists and nursery tree growers must have:

- planted, or be considered to have planted (by purchase before the loss of existing stock planted for commercial purposes) pecan trees for commercial purposes, or have a production history, for commercial purposes, of planted or existing trees;
- suffered a qualifying pecan tree loss in excess of 7.5 percent mortality (after adjustment for normal mortality), from Jan. 1, 2017, through Dec. 31, 2017; and
- continuously owned the stand from the time of the disaster until the time that the TAP application is submitted.

For more information about TAP, visit [www.fsa.usda.gov/tap](http://www.fsa.usda.gov/tap) or contact your local FSA office. To find your local FSA office, visit [www.farmers.gov](http://www.farmers.gov).

---

## Farm Storage Facility Loans

FSA's Farm Storage Facility Loan (FSFL) program provides low-interest financing to producers to build or upgrade storage facilities and to purchase portable (new or used) structures, equipment and storage and handling trucks.

The low-interest funds can be used to build or upgrade permanent facilities to store commodities. Eligible commodities include corn, grain sorghum, rice, soybeans, oats, peanuts, wheat, barley, minor oilseeds harvested as whole grain, pulse crops (lentils, chickpeas and dry peas), hay, honey, renewable biomass, fruits, nuts and vegetables for cold storage facilities, floriculture, hops, maple sap, rye, milk, cheese, butter, yogurt, meat and poultry (unprocessed), eggs, and aquaculture (excluding systems that maintain live animals through uptake and discharge of water). Qualified facilities include grain bins, hay barns and cold storage facilities for eligible commodities.

Loans up to \$50,000 can be secured by a promissory note/security agreement. Loans exceeding \$100,000 require additional security.

Producers do not need to demonstrate the lack of commercial credit availability to apply. The loans are designed to assist a diverse range of farming operations, including small and mid-sized businesses, new farmers, operations supplying local food and farmers markets, non-traditional farm products, and underserved producers.

To learn more about the FSA Farm Storage Facility Loan, visit [www.fsa.usda.gov/pricesupport](http://www.fsa.usda.gov/pricesupport) or contact your local FSA county office. To find your local FSA county office, visit <http://offices.usda.gov>.

## USDA Enrollment Period for Safety Net Coverage in 2018

Farmers and ranchers with base acres in the Agriculture Risk Coverage (ARC) or Price Loss Coverage (PLC) safety net program still have time to enroll for the 2018 crop year. The enrollment period for farms without generic base acres will end on Sept. 28, 2018. Producers with generic base acres have until Dec. 7, 2018, to allocate generic base acres, update yields, make a program election for seed cotton base acres and enroll farms that formerly contained generic base acres.

**Since shares and ownership of a farm can change year-to-year, producers must enroll by signing a contract each program year.**

The producers on a farm that are not enrolled for the 2018 enrollment period will not be eligible for financial assistance from the ARC or PLC programs for the 2018 crop should crop prices or farm revenues fall below the historical price or revenue benchmarks established by the program. Producers who made their elections in previous years must still enroll during the 2018 enrollment period.

The ARC and PLC programs were authorized by the 2014 Farm Bill and offer a safety net to agricultural producers when there is a substantial drop in prices or revenues for covered commodities. Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain and sweet rice), safflower seed, sesame, soybeans, sunflower seed, wheat and upland cotton. For more details regarding these programs, go to [www.fsa.usda.gov/arc-plc](http://www.fsa.usda.gov/arc-plc).

For more information, producers are encouraged to visit their local FSA office. To find a local FSA office, visit <https://www.farmers.gov/>.

---

## Farm Service Agency Makes Administrative Change to the Livestock Indemnity Program

Agricultural producers who have lost livestock to disease, resulting from a weather disaster, have an additional way to become eligible for the [Livestock Indemnity Program](#).

In the event of disease, this change by USDA's Farm Service Agency (FSA) authorizes local FSA county committees to accept veterinarian certifications that livestock deaths were directly related to adverse weather and unpreventable through good animal husbandry and management. The committees may then use this certification to allow eligibility for producers on a case-by-case basis for LIP.

LIP provides benefits to agricultural producers for livestock deaths in excess of normal mortality caused by adverse weather, disease or by attacks by animals reintroduced into the wild by the federal government. Eligible weather events include earthquakes, hail, tornadoes, hurricanes, storms, blizzard and flooding.

Producers interested in LIP or other USDA disaster assistance programs should contact their [local USDA service center](#).

---

## Environmental Review Required Before Project Implementation

The National Environmental Policy Act (NEPA) requires Federal agencies to consider all potential environmental impacts for federally-funded projects before the project is approved.

For all Farm Service Agency (FSA) programs, an environmental review must be completed before actions are approved, such as site preparation or ground disturbance. These programs include, **but are not limited to**, the Emergency Conservation Program (ECP), Farm Storage Facility Loan (FSFL) program and farm loans. If project implementation begins before FSA has completed an environmental review, this will result in a denial of the request. There are exceptions regarding the Stafford Act and emergencies. It is important to wait until you receive written approval of your project proposal before starting any actions, including, but not limited to, vegetation clearing, site preparation or ground disturbance.

Remember to contact your local FSA office early in your planning process to determine what level of environmental review is required for your program application so that it can be completed timely.

Applications cannot be approved contingent upon the completion of an environmental review. FSA must have copies of all permits and plans before an application can be approved.

---

## Emergency Assistance for Livestock, Honeybee, and Farm-Raised Fish Program (ELAP)

The Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program (ELAP) provides emergency assistance to eligible livestock, honeybee, and farm-raised fish producers who have losses due to disease, adverse weather or other conditions, such as blizzards and wildfires, not covered by other agricultural disaster assistance programs.

Eligible livestock losses include grazing losses not covered under the Livestock Forage Disaster Program (LFP), loss of purchased feed and/or mechanically harvested feed due to an eligible adverse weather event, additional cost of transporting water because of an eligible drought and additional cost associated with gathering livestock to treat for cattle tick fever.

Eligible honeybee losses include loss of purchased feed due to an eligible adverse weather event, cost of additional feed purchased above normal quantities due to an eligible adverse weather condition, colony losses in excess of normal mortality due to an eligible weather event or loss condition, including CCD, and hive losses due to eligible adverse weather.

Eligible farm-raised fish losses include death losses in excess of normal mortality and/or loss of purchased feed due to an eligible adverse weather event.

Producers who suffer eligible livestock, honeybee, or farm-raised fish losses from Oct. 1, 2017 to Sept. 30, 2018 must file:

- A notice of loss the earlier of 30 calendar days of when the loss is apparent or by Nov. 1, 2018
- An application for payment by Nov. 1, 2018

The following ELAP Fact Sheets (by topic) are available online:

- ELAP for Farm-Raised Fish Fact Sheet
- ELAP for Livestock Fact Sheet
- ELAP for Honeybees Fact Sheet

To view these and other FSA program fact sheets, visit the FSA fact sheet web page at [www.fsa.usda.gov/factsheets](http://www.fsa.usda.gov/factsheets).

---

## Report Noninsured Crop Disaster Assistance Program (NAP) Losses

The Noninsured Crop Disaster Assistance Program (NAP) provides financial assistance to producers of non-insurable crops when low yields, loss of inventory, or prevented planting occur due to natural disasters including freeze, hail, excessive moisture, excessive wind or hurricanes, flood, excessive heat and qualifying drought (includes native grass for grazing), among others.

Eligible producers must have purchased NAP coverage for 2018 crops. A notice of loss must be filed the earlier of 15 days of the occurrence of the disaster or when losses become apparent or 15 days of the final harvest date.

Producers of hand-harvested crops and certain perishable crops must notify FSA within 72 hours of when a loss becomes apparent.

Eligible crops must be commercially produced agricultural commodities for which crop insurance is not available, including perennial grass forage and grazing crops, fruits, vegetables, mushrooms, floriculture, ornamental nursery, aquaculture, turf grass, ginseng, honey, syrup, bioenergy, and industrial crops.

For more information on NAP, contact your local FSA office or visit [www.fsa.usda.gov/nap](http://www.fsa.usda.gov/nap).

---

## FSAfarm+, FSA's Customer Self-Service Portal

The U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) has launched a new tool to provide farmers and ranchers with remote access to their personal farm information using their home computers. Farmers and ranchers can now view, print or export their personal farm data all without visiting an FSA county office.

The program, known as **FSAfarm+**, provides you with secure access to view your personal FSA data, such as base and yields, Conservation Reserve Program data, other conservation program acreage, Highly Erodible Land Conservation and Wetland Conservation status information, field boundaries, farm imagery, name and address details, contact information and membership interest and shares in the operation. This data will be available in real time, at no cost to the producer and allow operators and owners to export and print farm records, including maps. Producers also can electronically share their data with a crop insurance agent from their own personal computer.

Farm operators and owners first will need "Level 2 eAuthentication" to access the webportal. This level of security ensures that personal information is protected for each user. Level 2 access can be obtained by going to [www.eauth.usda.gov](http://www.eauth.usda.gov), completing the required information and then visiting your local FSA office to finalize access.

For more information on **FSAfarm+**, the customer self-service portal, contact your local FSA office. To find your local FSA county office, click <http://offices.usda.gov>.

---

## MAL and LDP Policy

The Agricultural Act of 2014 authorized 2014-2018 crop year Marketing Assistance Loans (MALs) and Loan Deficiency Payments (LDPs), with a few minor policy changes.

Among the changes, farm-stored MAL collateral transferred to warehouse storage will retain the original loan rate, be allowed to transfer only the outstanding farm-stored quantity with no additional quantity allowed and will no longer require producers to have a paid for measurement service when moving or commingling loan collateral.

MALs and LDPs provide financing and marketing assistance for wheat, feed grains, soybeans, and other oilseeds, pulse crops, rice, peanuts, cotton, wool and honey. MALs provide producers interim financing after harvest to help them meet cash flow needs without having to sell their commodities when market prices are typically at harvest-time lows. A producer who is eligible to obtain a loan, but agrees to forgo the loan, may obtain an LDP if such a payment is available. Marketing loan provisions and LDPs are not available for sugar and extra-long staple cotton.

FSA is now accepting requests for 2018 MALs and LDPs for all eligible commodities after harvest. Requests for loans and LDPs shall be made on or before the final availability date for the respective commodities.

Before MAL repayments with a market loan gain or LDP disbursements can be made, producers must meet the requirements of actively engaged in farming, cash rent tenant and member contribution.

Commodity certificates are available to loan holders who have outstanding nonrecourse loans for wheat, upland cotton, rice, feed grains, pulse crops (dry peas, lentils, large and small chickpeas), peanuts, wool, soybeans and designated minor oilseeds. These certificates can be purchased at the posted county price (or adjusted world price or national posted price) for the quantity of commodity under loan, and must be immediately exchanged for the collateral, satisfying the loan. MALs redeemed with commodity certificates are not subject to the actively engaged in farming, cash-rent tenant, Adjusted Gross Income provisions or the payment limitation.

To be considered eligible for an LDP, producers must have form [CCC-633EZ](#), Page 1 on file at their local FSA Office before losing beneficial interest in the crop. Pages 2, 3 or 4 of the form must be submitted when payment is requested.

The 2014 Farm Bill also establishes payment limitations per individual or entity not to exceed \$125,000 annually on certain commodities for the following program benefits: price loss coverage payments, agriculture risk coverage payments, marketing loan gains (MLGs) and LDPs. These payment limitations do not apply to MAL loan disbursements or redemptions using commodity certificate exchange.

Adjusted Gross Income (AGI) provisions were modified by the 2014 Farm Bill, which states that a producer whose total applicable three-year average AGI exceeds \$900,000 is not eligible to receive an MLG or LDP. Producers must have a valid CCC-941 on file to earn a market gain of LDP. The AGI does not apply to MALs redeemed with commodity certificate exchange.

For more information and additional eligibility requirements, please visit a nearby USDA Service Center or FSA's website [www.fsa.usda.gov](http://www.fsa.usda.gov).
