A Note from State Executive Director Laurie Funderburk

Season Greetings, South Carolina Producers!

South Carolina FSA wishes you a wonderful holiday season filled with beauty and blessings. As 2023 comes to a close, I would like to express my appreciation and admiration to all our farmers for your hard work, dedication, and commitment to South Carolina agriculture, as well as to our FSA employees and the producers who serve on our County Committees for their devotion to serve South Carolina farmers and ranchers. At FSA, we value our relationship with our customers and look forward to working with you in the New Year!

This year has been filled with weather-related disasters for many of our counties. Most recently, FSA received [two Secretarial Natural Disaster Designations](#) to extend emergency credit to producers in eight (8) counties in the upstate of South Carolina due to severe drought. According to the [U.S. Drought Monitor](#), these counties suffered from a drought intensity value during the growing season of 1) D2 Drought-Severe for 8 or more consecutive weeks or 2) D3 Drought-Extreme or D4 Drought-Exceptional. FSA is also accepting applications for the [Livestock Forage Disaster](#)

[Program \(LFP\)](#) in these same eight counties for grazing losses due to drought. **The deadline to apply for 2023 LFP assistance is Jan. 30, 2024.**

Deadlines for several FSA programs are quickly approaching:

- FSA is currently accepting individual requests for assistance from borrowers who took certain extraordinary measures to avoid delinquency on their direct FSA loans. Borrowers may also seek a cash flow analysis from FSA using a recent balance sheet and operating plan to determine their eligibility for cash flow-based assistance. The **Application deadline is December 31, 2023.** For more information on eligibility, please visit [gov/inflation-reduction-investments/assistance](https://www.fsa.usda.gov/inflation-reduction-investments/assistance).
- USDA has extended the deadline for the [Farm Labor Stabilization and Protection Pilot Program \(FLSP\)](#) to **January 3, 2024.** Applications must be submitted electronically through [grants.gov](https://www.grants.gov) by this deadline to be considered for funding.
- The Discrimination Financial Assistance Program **application deadline is January 13, 2024.** Applicants can visit 22007apply.gov or call the free call center at 1-800-721-0970. There is also a new office for assistance located in Columbia, South Carolina at 140 Stoneridge Drive, Suite 430, Columbia, SC 29210.

The interest in growing sesame is rising in South Carolina, and USDA is now offering [crop insurance for sesame producers nationwide](#). Beginning in the 2024 crop year, USDA's Risk Management Agency (RMA) is expanding the Actual Production History (APH) plan to allow producers to request written agreements wherever sesame or a similar crop has been grown successfully. FSA will continue to offer coverage on sesame through the Non-Insured Disaster Assistance Program (NAP) which will give South Carolina sesame producers the opportunity to choose the risk management tool that best fits their operations.

Lastly, I am excited to share that the South Carolina Department of Agriculture (SCDA) is partnering with the USDA Agricultural Marketing Service to offer over \$4 million in competitive grants to support middle-of-the-food-supply-chain infrastructure for domestic food and farm businesses and other eligible entities. Grants under the [Resilient Food System Infrastructure program](#), or RFSI, will support expanded capacity for the aggregation, processing, manufacturing, storing, transporting, wholesaling, and distribution of locally and regionally produced food products, including specialty crops, dairy, grains and other row crops for human consumption, aquaculture, and other food products, excluding meat and poultry, and wild-caught seafood. **The application opens today, December 20, 2023.** Through initiatives such as this, USDA continues to offer the nation's producers opportunities to help strengthen their operations, as well as the local food supply chain.

As we reflect on this year's challenges and successes, I am reminded of the important role we all play in supporting agriculture in South Carolina. In this season of joy and hope, I trust that you will enjoy holiday festivities, family traditions, and some much-deserved rest and time with loved ones.

From all of us at South Carolina FSA, we wish you a very Merry Christmas!

Laurie Slade Funderburk
State Executive Director

Merry Christmas from the Funderburks!

Agriculture Risk Coverage and Price Loss Coverage Programs Receive 2018 Farm Bill One Year Extension, Farmers Can Now Enroll for the 2024 Crop Year

The U.S. Department of Agriculture (USDA) today announced that agricultural producers can now enroll in the Farm Service Agency's (FSA) [Agriculture Risk Coverage \(ARC\) and Price Loss Coverage \(PLC\)](#) programs for the 2024 crop year. Producers can enroll and make election changes for the 2024 crop year starting Dec. 18, 2023. The deadline to complete enrollment and any election change is March 15, 2024.

On Nov. 16, 2023, President Biden signed into law H.R. 6363, the *Further Continuing Appropriations and Other Extensions Act, 2024* (Pub. L. 118-22), which extended the *Agriculture Improvement Act of 2018* (Pub. L. 115-334), more commonly known as the 2018 Farm Bill, through September 30, 2024. This extension allows authorized programs, including ARC and PLC, to continue operating.

2024 Elections and Enrollment

Producers can elect coverage and enroll in ARC-County (ARC-CO) or PLC, which provide crop-by-crop protection, or ARC-Individual (ARC-IC), which protects the entire farm. Although election changes for 2024 are optional, producers must enroll through a signed contract each year. Also, if

a producer has a multi-year contract on the farm it will continue for 2024 unless an election change is made.

If producers do not submit their election revision by the March 15, 2024, deadline, their election remains the same as their 2023 election for commodities on the farm. Farm owners cannot enroll in either program unless they have a share interest in the cropland.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice, safflower seed, seed cotton, sesame, soybeans, sunflower seed and wheat.

2022 Crop Year Payments

This fall, FSA issued payments totaling more than \$267 million to agricultural producers who enrolled in the 2022 ARC-CO option and the ARC ARC-IC option for covered commodities that triggered a payment. Payments through the PLC option did not trigger for the 2022 crop year.

ARC and PLC payments for a given crop year are paid out the following fall to allow actual county yields and the Market Year Average prices to be finalized. These payments help mitigate fluctuations in either revenue or prices for certain crops. Payments for crops that may trigger for the 2023 crop year will be issued in the fall of 2024.

Crop Insurance Considerations

ARC and PLC are part of a broader USDA safety net that also includes crop insurance and marketing assistance loans.

Producers are reminded that ARC and PLC elections and enrollments can impact eligibility for some crop insurance products.

Producers on farms with a PLC election can purchase Supplemental Coverage Option (SCO) through their Approved Insurance Provider; however, producers on farms where ARC is the election are ineligible for SCO on their planted acres for that crop on that farm.

Unlike SCO, the Enhanced Coverage Option (ECO) is unaffected by an ARC election. Producers may add ECO regardless of the farm program election.

Upland cotton farmers who choose to enroll seed cotton base acres in ARC or PLC are ineligible for the stacked income protection plan (STAX) on their planted cotton acres for that farm.

Web-Based Decision Tools

Many universities offer web-based decision tools to help producers make informed, educated decisions using crop data specific to their respective farming operations. Producers are encouraged to use the tool of their choice to support their ARC and PLC elections.

More Information

For more information on ARC and PLC, producers can visit the [ARC and PLC webpage](#) or contact their local [USDA Service Center](#). Producers can also make elections and complete enrollment [online with level 2 eAuth](#).

USDA Reminds Specialty Crop Growers of Deadline to Apply for Assistance for 2023 On-Farm Food Safety Expenses

The U.S. Department of Agriculture (USDA) reminds specialty crop growers that assistance is available for producers who incur eligible on-farm food safety program expenses to obtain or renew a food safety certification through the Food Safety Certification for

Specialty Crops (FSCSC) program. Producers can apply for assistance on their calendar year 2023 expenses through Jan. 31, 2024.

Program Details

FSCSC assists specialty crop operations that incurred eligible on-farm food safety certification and related expenses pertaining to obtaining or renewing a food safety certification in calendar year 2023. FSCSC covers a percentage of the specialty crop operation's cost of obtaining or renewing its certification, as well as a portion of related expenses.

To be eligible for FSCSC, the applicant must be a specialty crop operation; meet the definition of a small business or very small business; and have paid eligible expenses related to the 2023 certification.

Specialty crop operations may receive assistance for the following costs:

- Developing a food safety plan for first-time food safety certification.
- Maintaining or updating an existing food safety plan.
- Food safety certification.
- Certification upload fees.
- Microbiological testing for products, soil amendments and water.
- Training.

FSCSC payments are calculated separately for each category of eligible costs. A higher payment rate has been set for socially disadvantaged, limited resource, beginning and veteran farmers and ranchers. Details about the payment rates and limitations can be found at farmers.gov/food-safety.

Applying for Assistance

The FSCSC application period for 2023 closes Jan. 31, 2024. FSA will issue payments after the application period closes. If calculated payments exceed the amount of available funding, payments will be prorated.

Interested specialty crop producers can apply by completing the FSA-888, Food Safety Certification for Specialty Crops Program (FSCSC) application. The application, along with other required documents, can be submitted to the FSA office at any USDA Service Center nationwide by mail, fax, hand delivery or via electronic means.

Specialty crop producers can also call 877-508-8364 to speak directly with a USDA employee ready to assist. Visit farmers.gov/food-safety for additional program details, eligibility information and forms needed to apply.

USDA to Provide More Than \$3 Billion to Commodity and Specialty Crop Producers Impacted by 2022 Natural Disasters

The U. S Department of Agriculture (USDA) will provide more than \$3 billion to commodity and specialty crop producers impacted by natural disaster events in 2022. Eligible impacted producers can apply for financial assistance through the [Emergency Relief Program \(ERP\) 2022](#). The program will help offset the financial impacts of crop yield and value losses from qualifying disasters occurring in 2022.

Background

On Dec. 29, 2022, President Biden signed into law the *Disaster Relief Supplemental Appropriations Act, 2023 (P.L. 117-328)* that provides about \$3.7 billion in financial assistance for agricultural producers impacted by eligible natural disasters that occurred in calendar year 2022.

ERP 2022 covers losses to crops, trees, bushes and vines due to qualifying, calendar year 2022 natural disaster events including wildfires, hurricanes, floods, derechos, excessive heat, tornadoes, winter storms, freeze (including a polar vortex), smoke exposure, excessive moisture, qualifying drought and related conditions.

ERP 2022 program benefits will be delivered to eligible producers through a two-track process. FSA intends to make both tracks available to producers at the same time. This two-track approach enables USDA to:

- Streamline the application process.
- Reduce the paperwork burden on producers.
- Proactively include provisions for underserved producers who have not been well served by past emergency relief efforts.
- Encourage producer participation in existing risk management programs to mitigate the impacts of future severe weather events.

It's important to note that disaster-impacted producers may be eligible for ERP 2022 assistance under one or both tracks. To avoid duplicative benefits, if a producer applies for both tracks, the Track 2 payment calculation will take into account any payments received through Track 1.

ERP 2022 Application Process – Track 1

ERP 2022 Track 1 leverages existing federal crop insurance or Noninsured Crop Disaster Assistance Program (NAP) data as the basis for calculating payments for eligible crop producers who received indemnities through these risk management programs. Although FSA is sending pre-filled ERP 2022 Track 1 application forms to producers who have crop insurance and NAP data already on file with USDA, producers indemnified for losses resulting from 2022 natural disasters do not have to wait to receive the application before requesting ERP 2022 assistance. Effective Oct. 31, 2023, producers can apply for ERP 2022 benefits whether they have received the pre-filled application or not. Receipt of a pre-filled application is not confirmation that a producer is eligible to receive an ERP 2022 Track 1 payment.

USDA estimates that ERP Track 1 benefits will reach more than 206,000 producers who received indemnities for losses covered by federal crop insurance and more than 4,500 producers who obtained NAP coverage for the 2022 crop year.

ERP 2022 Application Process – Track 2

Track 2 is a revenue-based certification program designed to assist eligible producers who suffered an eligible decrease in revenue resulting from 2022 calendar year disaster events when compared with revenue in a benchmark year using revenue information that is readily available from most tax records. In cases where revenue does not reasonably reflect a normal year's revenue, Track 2 provides an alternative method for establishing revenue. Likewise, Track 2 affords producers of crops that are used within an operation and do not generate revenue from the sale of the crop a method for establishing revenue for the purpose of applying for ERP 2022 benefits. Producers are not required to submit tax records to FSA unless requested by the County Committee if required for an FSA compliance spot check.

Although not required when applying for ERP 2022 Track 2, applicants might find the following documents useful to the process:

- Schedule F (Form 1040)
- *Profit or Loss from Farming* or similar tax documents for tax years 2018, 2019, 2022 and 2023.

Track 2 targets gaps in emergency relief assistance for eligible producers whose eligible losses were not covered by crop insurance or NAP including revenue losses too small (shallow loss) to be covered by crop insurance.

Producers interested in applying for ERP 2022 Track 2, should contact their local FSA county office. Additional reference resources can be found on FSA's [emergency relief website](#).

Additional Required Forms

For both ERP 2022 tracks, all producers must have certain required forms on file with FSA within 60 days of the ERP 2022 deadline. Producers can apply for ERP 2022 starting Oct. 31, 2023. The application deadline has not yet been determined and will be announced at a later date. If not already on file, producers can update, complete and submit required forms to FSA at any time.

Required forms:

- Form AD-2047, *Customer Data Worksheet*.
- Form CCC-902, *Farm Operating Plan* for an individual or legal entity.
- Form CCC-901, *Member Information for Legal Entities* (if applicable).
- Form FSA-510, *Request for an Exception to the \$125,000 Payment Limitation for Certain Programs* (if applicable).
- Form CCC-860, *Socially Disadvantaged, Limited Resource, Beginning and Veteran Farmer or Rancher Certification*, if applicable, for the 2022 program year.
- A highly erodible land conservation (sometimes referred to as HELC) and wetland conservation certification (Form AD-1026 *Highly Erodible Land Conservation (HELC) and Wetland Conservation (WC) Certification*) for the ERP producer and applicable affiliates.

Most producers, especially those who have previously participated in FSA programs, will likely have these required forms on file. However, those who are uncertain or want to confirm the status of their forms can contact their local FSA county office.

Future Insurance Coverage Requirements

All producers who receive ERP 2022 payments must purchase crop insurance, or NAP coverage where crop insurance is not available, in the next two available crop years as determined by the Secretary. Purchased coverage must be at the 60/100 coverage level or higher for insured crops or at the catastrophic coverage level or higher for NAP crops.

More Information

ERP 2022 eligibility details and payment calculation factor tables are available on the [emergency relief website](#), in the [ERP Track 1](#) and [ERP Track 2](#) fact sheets and through your local [FSA county office](#).

Inflation Reduction Act Assistance for Distressed Borrowers

Since October 2022, USDA has provided approximately \$1.5 billion in immediate assistance to more than 24,000 financially distressed direct and guaranteed FSA loan borrowers through the Inflation Reduction Act.

FSA is currently accepting individual requests for assistance from borrowers who took certain extraordinary measures to avoid delinquency on their direct FSA loans, missed a recent installment, or are unable to make their next scheduled installment.

For more information on eligibility, or to submit a request for assistance, producers can contact their local USDA Service Center or visit farmers.gov/inflation-reduction-investments/assistance.

Livestock Producers in 8 Counties in South Carolina Are Eligible for Drought Recovery Assistance

The U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) announced that FSA is now accepting applications for the [Livestock Forage Disaster Program \(LFP\)](#) in Cherokee, Chester, Greenville, Oconee, Pickens, Spartanburg, Union and York Counties for grazing losses due to drought. **The deadline to apply for 2023 LFP assistance is Jan. 30, 2024.**

LFP provides compensation to eligible livestock producers who suffered grazing losses for covered livestock due to drought on privately owned or cash leased land or fire on federally managed land. For LFP, qualifying drought intensity levels are determined using the [U.S. Drought Monitor](#). Producers in Cherokee, Chester, Greenville, Oconee, Pickens, Spartanburg, Union and York Counties are eligible to apply for 2023 LFP benefits for grazing losses on full season improved mixed pasture, full season improved pasture and native pasture. Visit the [FSA LFP webpage](#) for a full list of eligible counties and pasture types.

Livestock eligible for LFP include alpacas, beef cattle, bison, buffalo, beefalo, dairy cattle, deer, elk, emus, equine, goats, llamas, ostriches, reindeer, or sheep that have been or would have been grazing the eligible grazing land or pastureland. Recently, FSA updated LFP policy to expand program eligibility to include additional income producing grazing animals, like horses and ostrich, that contribute to the commercial viability of an agricultural operation.

Livestock used for hunting and consumption by the owner and horses and other animals that are used or intended to be used for racing and wagering remain ineligible.

As a reminder, producers who want to participate in many USDA programs including disaster assistance programs like LFP, must file timely acreage reports by filling out the FSA-578 form to remain eligible for program benefits.

More information in USDA disaster assistance is available at farmers.gov/recover.

USDA Makes Producer-Friendly Change to 2023 Notice of Loss Requirements for Two Livestock Disaster Assistance Programs

The U.S. Department of Agriculture (USDA) has waived certain notice of loss requirements for 2023 for the [Emergency Assistance for Livestock, Honeybees, and Farm-raised Fish \(ELAP\)](#) and [Livestock Indemnity Program \(LIP\)](#). In an effort to streamline assistance to support access to critical 2023 natural disaster recovery assistance, USDA's Farm Service Agency (FSA) is waiving the requirement to submit ELAP or LIP notices of loss within a pre-determined number of days for 2023. Instead, producers have the flexibility to submit 2023 notices of loss as soon as possible, once losses are realized, following a natural disaster event or no later than the established annual program application for payment deadlines for each program. FSA county committees are also being asked to re-evaluate 2023 ELAP and LIP late-filed notices of loss to determine if the waiver applies.

Emergency Assistance for Livestock, Honeybees, and Farm-raised Fish

ELAP provides recovery assistance to eligible producers of livestock, honeybee, and farm-raised fish losses due to an eligible adverse weather or loss condition, including blizzards, disease, water shortages and wildfires. ELAP covers grazing and feed losses, transportation of water and feed to livestock and hauling livestock to grazing acres. ELAP also covers certain mortality losses for

livestock including honeybees and farm-raised fish as well as honeybee hive losses. ELAP is designed to address losses not covered by other FSA disaster assistance programs.

For 2023, FSA is waiving the regulatory requirement for producers who are eligible for ELAP to file a notice of loss with FSA within 30 calendar days from when the loss first became apparent for livestock and farm-raised fish and 15 calendar days for honeybees. Under this waiver, notices of loss are to be completed by the eligible producer and submitted to FSA no later than the annual program application deadline of January 30 following the program year in which the loss occurred. Therefore, producers who incurred ELAP-eligible losses in 2023, will need to submit a notice of loss by Jan. 30, 2024.

Livestock Indemnity Program

LIP provides disaster recovery assistance to livestock owners and contract growers who experience livestock deaths, in excess of normal mortality caused by eligible loss conditions including adverse weather, disease and attacks by animals reintroduced into the wild by the federal government or protected by federal law, including wolves and avian predators. LIP also helps livestock owners who must sell livestock at a reduced price because of an injury from certain loss conditions.

For 2023, FSA is waiving the regulatory requirement for producers who are eligible for LIP to file a notice of loss within 30 calendar days from when the loss first became apparent. Under this waiver, producers are still required to complete and submit the notice of loss to FSA no later than the annual program payment application date, which is 60 calendar days following the program year in which the loss occurred. The LIP payment application and notice of loss deadline is Feb. 29, 2024, for the 2023 program year.

2023 Disapproved Applications

FSA county committees will review all notices of loss for both ELAP and LIP that were previously disapproved for the 2023 program year due to late filing and re-evaluate them to determine if the waiver applies. To receive ELAP and LIP benefits, producers will still need to file an application for payment by the established program deadline for the 2023 program year. Producers who are unsure about the status of their notice of loss or application for payment, should contact their local FSA county office as soon as possible.

Supporting Documentation

Accurate records and loss documentation are critical following disaster events and are required when filing notices of loss with FSA. Acceptable loss documentation includes:

- Documentation of the number, kind, type, and weight range of livestock that have died, supplemented, if possible, by photographs or video records of ownership and losses.
- Rendering truck receipts by kind, type, and weight - important to document prior to disposal.
- Beginning inventory supported by birth recordings or purchase receipts.
- Documentation from Animal Plant Health Inspection Service, Department of Natural Resources, or other sources to substantiate eligible death losses due to an eligible loss condition.
- Documentation that livestock were removed from grazing pastures due to an eligible adverse weather or loss condition.
- Costs of transporting livestock feed to eligible livestock, such as receipts for equipment rental fees for hay lifts and snow removal.
- Feed purchase receipts if feed supplies or grazing pastures are destroyed.

- Number of gallons of water transported to livestock due to water shortages.

More Information

The improvements to ELAP and LIP build on others made since 2021. This includes ELAP benefits for above normal costs for hauling feed and water to livestock and transporting livestock to other grazing acres during a qualifying drought. FSA also [expanded eligible livestock](#) under ELAP, LIP, and the Livestock Forage Disaster Assistance Program, and increased the LIP payment rate for beef, beefalo, bison, and dairy animals less than 250 pounds and most recently beef calves over 800 pounds. Learn about USDA disaster assistance programs on [farmers.gov](#).

On [farmers.gov](#), the [Disaster Assistance Discovery Tool](#), [Disaster-at-a-Glance fact sheet](#) and [Loan Assistance Tool](#) can help producers and landowners determine [disaster protection and recovery](#) program or loan options. For more information about FSA programs, contact your local [USDA Service Center](#).

Is the Noninsured Crop Disaster Assistance Program Right for You?

Farmers and ranchers rely on crop insurance to protect themselves from disasters and unforeseen events, but not all crops are insurable through the USDA's Risk Management Agency. The Farm Service Agency's (FSA) Noninsured Crop Disaster Assistance Program (NAP) provides producers another option to obtain coverage against disaster for these crops. NAP provides financial assistance to producers of non-insurable crops impacted by natural disasters that result in lower yields, crop losses, or prevents crop planting.

Commercially produced crops and agricultural commodities for which crop insurance is not available are generally eligible for NAP. Eligible crops include those grown specifically for food, fiber, livestock consumption, biofuel or biobased products, or value loss crops such as aquaculture, Christmas trees, ornamental nursery, and others. Contact your local FSA office to see which crops are eligible in your state and county.

Eligible causes of loss include drought, freeze, hail, excessive moisture, excessive wind or hurricanes, earthquake and flood. These events must occur during the NAP policy coverage period, before or during harvest, and the disaster must directly affect the eligible crop. For guidance on causes of loss not listed, contact your local FSA county office.

Interested producers apply for NAP coverage using FSA form [CCC-471](#), "Application for Coverage," and pay the applicable service fee at the FSA office where their farm records are maintained. These must be filed by the application closing date, which varies by crop. Contact your local FSA office to verify application closing dates and ensure coverage for eligible NAP crops.

At the time of application, each producer acknowledges they have received the [NAP Basic Provisions](#), which describes NAP requirements for coverage. NAP participants must report crop acreage shortly after planting and provide verifiable or reliable crop production records when required by FSA.

Producers are required to pay service fees which vary depending on the number of crops and number of counties your operation is located in. The NAP service fee is the lesser of \$325 per crop or \$825 per producer per administrative county, not to exceed a total of \$1,950 for a producer with farming interests in multiple counties. Premiums also apply when producers elect higher levels of coverage with a maximum premium of \$15,750 per person or legal entity.

A producer's certification on Form CCC-860 *Socially Disadvantaged, Limited Resource, Beginning and Veteran Farmer or Rancher Certification* may serve as an application for basic NAP coverage

for all eligible crops beginning with crop year 2022. These producers will have all NAP-related service fees for basic coverage waived, in addition to a 50 percent premium reduction if higher levels of coverage are elected.

For more detailed information on NAP, download the [NAP Fact Sheet](#). To get started with NAP, we recommend you contact your [local USDA service center](#).

USDA Now Accepting Applications for Farm Loans Online

The U.S. Department of Agriculture (USDA) has launched an [online application for Direct Loan customers](#). More than 26,000 customers who submit a Direct Loan application each year can now use an online, interactive, guided application that is paperless and provides helpful features including an electronic signature option, the ability to attach supporting documents such as tax returns, complete a balance sheet and build a farm operating plan. This tool is part of a broader effort by USDA's Farm Service Agency (FSA) to streamline its processes, improve customers service, and expand credit access.

The online farm loan application replicates the support an applicant would receive when completing a loan application in person with an FSA Farm Loan Officer, while continuing to provide customers with one-on-one assistance as needed. This tool and other process improvements allow farmers and ranchers to submit complete loan applications and reduce the number of incomplete and withdrawn applications.

Through a personalized dashboard, borrowers can track the progress of their loan application. It can be accessed on [farmers.gov](#) or by completing FSA's Loan Assistance Tool at [farmers.gov/loan-assistance-tool](#). To use the online loan application tool, producers must establish a USDA customer account and a [USDA Level 2 eAuthentication \("eAuth"\) account or a Login.gov account](#). For the initial stage, the online application tool is only available for producers who will be, or are currently, operating their farm as an individual. FSA is expanding the tools availability to married couples applying jointly and other legal entities in 2024.

Farm Loan Improvement Efforts

FSA has a significant initiative underway to streamline and automate Farm Loan Program customer-facing business processes. For the over 26,000 producers who submit a Direct Loan application to FSA annually, and its 85,000 Direct Loan borrowers, FSA has made improvements this year, including:

- A [simplified direct loan paper application](#), reduced from 29 pages to 13 pages.
- The [Loan Assistance Tool on farmers.gov](#) that provides customers with an interactive online, step-by-step guide to identifying the Direct Loan products that may be a fit for their business needs and to understanding the application process.

More Information

FSA continues to accept and review individual requests for assistance from borrowers who took certain extraordinary measures to avoid delinquency on their direct FSA loans or those who missed a recent installment or are unable to make their next scheduled installment. All requests for assistance must be received by Dec. 31, 2023. For more information, or to submit a request for assistance, producers can contact their local [USDA Service Center](#) or visit [farmers.gov/inflation-reduction-investments/assistance](#).

The Inflation Reduction Act, a historic, once-in-a-generation investment and opportunity for agricultural communities, provided \$3.1 billion for USDA to provide relief for distressed borrowers with certain FSA direct and guaranteed loans and to expedite assistance for those whose

agricultural operations are at financial risk. Since October 2022, USDA has provided approximately \$1.6 billion in immediate assistance to more than 27,000 financially distressed direct and guaranteed FSA loan borrowers.

Tax Resources for USDA Program Participants

Navigating filing taxes can be challenging, especially if you are new to running a farm business, participating in disaster programs for first time, or trying to forecast the farm's tax bill. Receiving funds from USDA through activities such as a conservation program payment or a disaster program is considered farm income that includes a tax liability for farm businesses. USDA technical assistance is free and creates no tax implications.

At the end of the tax year, USDA issues tax forms 1098 and 1099 forms for farm loans, conservation programs administered by the Farm Service Agency and Natural Resource Conservation Service including the Conservation Reserve Program and Environmental Quality Incentives Program, crop disaster payments, and the Market Facilitation Program. USDA also issues tax forms for recipients of assistance for distressed borrowers, including through Section 22006 of the Inflation Reduction Act.

If you have received tax forms related to your operation, USDA cannot and does not provide tax advice but wants you to be aware of options that may help manage your tax liability. USDA has partnered with experts to provide resources to help you make the right tax decisions for your operation. Monthly webinars are available for registration and to view on demand at <https://www.farmers.gov/working-with-us/taxes>.

The [Tax Estimator Tool](#) is an interactive spreadsheet that producers can download to estimate tax liability. It is for informational and educational purposes and should not be considered tax or legal advice. Producers may need to work with a tax professional to determine the correct information to be entered in the Tax Estimator Tool.

We encourage you to visit <https://www.farmers.gov/working-with-us/taxes> for more information on how to find and work with a tax preparer as well as instructions on how to request copies of USDA documents and links to other helpful tax resources.
