USDA Opens Signup for Market Facilitation Program

Enrollment Now Open through Dec. 6

Signup opens today for the Market Facilitation Program (MFP), a U.S. Department of Agriculture (USDA) program to assist farmers who continue to suffer from damages because of unjustified trade retaliation from foreign nations. Through MFP, USDA will provide up to \$14.5 billion in direct payments to impacted producers, part of a broader trade relief package announced in late July. The sign-up period runs through Dec. 6.

MFP payments will be made to producers of certain non-specialty and specialty crops as well as dairy and hog producers.

Non-Specialty Crops

MFP payments will be made to producers of alfalfa hay, barley, canola, corn, crambe, dried beans, dry peas, extra-long staple cotton, flaxseed, lentils, long grain and medium grain rice, millet,

State Committee:

Mark Gross, *Chairman*

Tiffani Robertson, *Member*

Gwen Kitzan, *Member*

Bill Simonson, *Member*

Kelsey Ducheneaux, *Member*

mustard seed, oats, peanuts, rapeseed, rye, safflower, sesame seed, small and large chickpeas, sorghum, soybeans, sunflower seed, temperate japonica rice, triticale, upland cotton, and wheat.

MFP assistance for 2019 crops is based on a single county payment rate multiplied by a farm's total plantings to the MFP-eligible crops in aggregate in 2019. Those per acre payments are not dependent on which of those crops are planted in 2019. A producer's total payment-eligible plantings cannot exceed total 2018 plantings. [View payment rates by county.](#)

Dairy and Hogs

Dairy producers who were in business as of June 1, 2019, will receive a per hundredweight payment on production history, and hog producers will receive a payment based on the number of live hogs owned on a day selected by the producer between April 1 and May 15, 2019.

Program Managers:

LaDonna Hupp
Farm Loan

Specialty Crops

MFP payments will also be made to producers of almonds, cranberries, cultivated ginseng, fresh grapes, fresh sweet cherries, hazelnuts, macadamia nuts, pecans, pistachios, and walnuts. Each specialty crop will receive a payment based on 2019 acres of fruit or nut bearing plants, or in the case of ginseng, based on harvested acres in 2019.

More Information

To find contact information for your local office go to www.fsa.usda.gov/sd

Payments will be made in up to three tranches, with the second and third tranches evaluated as market conditions and trade opportunities dictate. If conditions warrant, the second and third tranches will be made in November and early January.

MFP payments are limited to a combined \$250,000 for non-specialty crops per person or legal entity. MFP payments are also limited to a combined \$250,000 for dairy and hog producers and a combined \$250,000 for specialty crop producers. However, no applicant can receive more than \$500,000. Eligible applicants must also have an average adjusted gross income (AGI) for tax years 2015, 2016, and 2017 of less than \$900,000, or 75 percent of the person's or legal entity's average AGI for those tax years must have been derived from farming and ranching. Applicants must also comply with the provisions of the Highly Erodible Land and Wetland Conservation regulations.

More information can be found on farmers.gov/mfp, including payment information and a program application.

USDA Offers Producers Options to Re-enroll or Extend Expiring CRP Contracts

Farmers and ranchers with expiring [Conservation Reserve Program \(CRP\)](#) contracts may now re-enroll in certain CRP continuous signup practices or, if eligible, select a one-year contract extension. USDA's Farm Service Agency (FSA) is also accepting offers from landowners who want to enroll for the first time in one of the country's largest conservation programs. FSA's 52nd signup for CRP runs from June 3 to August 23.

This year's CRP continuous signup includes practices such as grass waterways, filter strips, riparian buffers, wetland restoration and others. [View a full list of practices approved for this signup](#). Continuous signup contracts last for 10 to 15 years. Soil rental rates are set at 90 percent of 2018 rates. Incentive payments are not offered for these practices.

Producers interested in applying for CRP continuous practices, including those under existing CREP agreements, or who want to extend their contract, should contact their USDA service center by August 23.

To locate your local FSA office, visit www.farmers.gov. More information on CRP can be found at www.fsa.usda.gov/crp.

USDA Now Making Payments for New Dairy Margin Coverage Program

Income-over-feed margin for May triggers fifth payment for 2019

The U.S. Department of Agriculture's Farm Service Agency (FSA) opened enrollment for the [Dairy Margin Coverage \(DMC\)](#) program on June 17 and has started issuing payments to producers who purchased coverage. Producers can enroll through Sept. 20, 2019.

Authorized by the 2018 Farm Bill, DMC replaces the Margin Protection Program for Dairy (MPP-Dairy). The program offers protection to dairy producers when the difference between the all-milk price and the average feed cost (the margin) falls below a certain dollar amount selected by the producer. To date, nearly 10,000 operations have signed up for the new program, and FSA has begun paying approximately \$100 million to producers for January through May.

May Margin Payment

DMC provides coverage retroactive to January 1, 2019, with applicable payments following soon after enrollment.

The May 2019 income over feed cost margin was \$9.00 per hundredweight (cwt.), triggering the fifth payment for eligible dairy producers who purchase the \$9.50 level of coverage under DMC. Payments for January, February, March and April also were triggered.

With the 50 percent hay blend, FSA's revised April 2019 income over feed cost margin is \$8.82 per cwt. The revised margins for January, February and March are, respectively, \$7.71, \$7.91 and \$8.66.

Coverage Levels and MPP Reimbursements

Dairy producers can choose coverage levels from \$4 up to \$9.50 at the time of signup. More than 98 percent of the producers currently enrolled have elected \$9.50 coverage on up to 95 percent of their production history.

More Information

On December 20, 2018, President Trump signed into law the 2018 Farm Bill, which provides support, certainty and stability to our nation's farmers, ranchers and land stewards by enhancing farm support programs, improving crop insurance, maintaining disaster programs and promoting and supporting voluntary conservation. FSA is committed to implementing these changes as quickly and effectively as possible, and today's updates are part of meeting that goal.

For more information, visit farmers.gov DMC webpage or contact your local USDA service center. To locate your local FSA office, visit farmers.gov/service-locator.

Report Noninsured Crop Disaster Assistance Program (NAP) Losses

The Noninsured Crop Disaster Assistance Program (NAP) provides financial assistance to producers of non-insurable crops when low yields, loss of inventory, or prevented planting occur due to natural disasters including freeze, hail, excessive moisture, excessive wind or hurricanes, flood, excessive heat and qualifying drought (includes native grass for grazing), among others.

Eligible producers must have purchased NAP coverage for 2019 crops. A notice of loss must be filed the earlier of 15 days of the occurrence of the disaster or when losses become apparent or 15 days of the final harvest date.

Producers of hand-harvested crops and certain perishable crops must notify FSA within 72 hours of when a loss becomes apparent.

Eligible crops must be commercially produced agricultural commodities for which crop insurance is not available, including perennial grass forage and grazing crops, fruits, vegetables, mushrooms, floriculture, ornamental nursery, aquaculture, turf grass, ginseng, honey, syrup, bioenergy, and industrial crops.

For more information on NAP, contact your local FSA office or visit www.fsa.usda.gov/nap.

FSA Offers Joint Financing Option on Direct Farm Ownership Loans

The USDA Farm Service Agency's (FSA) [Direct Farm Ownership loans](#) are a resource to help farmers and ranchers become owner-operators of family farms, improve and expand current operations, increase agricultural productivity, and assist with land tenure to save farmland for future generations.

Depending on the applicant's needs, there are three types of Direct Farm Ownership Loans: regular, down payment and joint financing. FSA also offers a [Direct Farm Ownership Microloan](#) option for smaller financial needs up to \$50,000.

Joint financing allows FSA to provide more farmers and ranchers with access to capital. FSA lends up to 50 percent of the total amount financed. A commercial lender, a State program or the seller of the property being purchased, provides the balance of loan funds, with or without an FSA guarantee. The maximum loan amount for a Joint Financing loan is \$600,000 and the repayment period for the loan is up to 40 years.

To be eligible, the operation must be an eligible farm enterprise. Farm Ownership loan funds cannot be used to finance nonfarm enterprises and all applicants must be able to meet general eligibility requirements. Loan applicants are also required to have participated in the business operations of a farm or ranch for at least three years out of the 10 years prior to the date the application is submitted. The applicant must show documentation that their participation in the business operation of the farm or ranch was not solely as a laborer.

For more information about FSA Loan programs, contact your local FSA office or visit www.fsa.usda.gov. To find your local FSA office, visit <http://offices.usda.gov>.

USDA Accepting Applications to Help Cover Producers' Costs for Organic Certification

USDA's Farm Service Agency (FSA) announced that organic producers and handlers can apply for federal funds to assist with the cost of receiving and maintaining organic certification through the [Organic Certification Cost Share Program](#) (OCCSP). Applications for fiscal 2019 funding are due Oct. 31, 2019.

OCCSP received continued support through the 2018 Farm Bill. It provides cost-share assistance to producers and handlers of agricultural products for the costs of obtaining or maintaining organic certification under the USDA's National Organic Program. Eligible producers include any certified producers or handlers who have paid organic certification fees to a USDA-accredited certifying agent. Eligible expenses for cost-share reimbursement include application fees, inspection costs, fees related to equivalency agreement and arrangement requirements, travel expenses for inspectors, user fees, sales assessments and postage.

Certified producers and handlers are eligible to receive reimbursement for up to 75 percent of certification costs each year, up to a maximum of \$750 per certification scope, including crops, livestock, wild crops, handling and state organic program fees.

More Information

To learn more about organic certification cost share, please visit the [OCCSP webpage](#), view the [notice of funds availability on the Federal Register](#), or contact your [FSA county office](#). To learn more about USDA support for organic agriculture, visit usda.gov/organic.

Farm Storage Facility Loans

FSA's Farm Storage Facility Loan (FSFL) program provides low-interest financing to producers to build or upgrade storage facilities and to purchase portable (new or used) structures, equipment and storage and handling trucks.

The low-interest funds can be used to build or upgrade permanent facilities to store commodities. Eligible commodities include corn, grain sorghum, rice, soybeans, oats, peanuts, wheat, barley, minor oilseeds harvested as whole grain, pulse crops (lentils, chickpeas and dry peas), hay, honey, renewable biomass, fruits, nuts and vegetables for cold storage facilities, floriculture, hops, maple sap, rye, milk, cheese, butter, yogurt, meat and poultry (unprocessed), eggs, and aquaculture (excluding systems that maintain live animals through uptake and discharge of water). Qualified facilities include grain bins, hay barns and cold storage facilities for eligible commodities.

Loans up to \$100,000 can be secured by a promissory note/security agreement. Loans exceeding \$100,000 require additional security.

Producers do not need to demonstrate the lack of commercial credit availability to apply. The loans are designed to assist a diverse range of farming operations, including small and mid-sized businesses, new farmers, operations supplying local food and farmers markets, non-traditional farm products, and underserved producers.

To learn more about the FSA Farm Storage Facility Loan, visit www.fsa.usda.gov/pricesupport or contact your local FSA county office. To find your local FSA county office, visit <http://offices.usda.gov>.
