USDA Regional Climate Change Hubs

Agriculture Secretary Tom Vilsack established the first ever USDA Regional Climate Change Hubs in February 2014 at seven locations around the country to provide more information to farmers, ranchers and forest landowners on the increasing risks of fires, pests, floods, and droughts associated with a changing climate. For general information on Climate Hubs, visit

<http://www.climatehubs.oce.usda.gov/sites/default/files/USDA%20Regional%20Hubs%20for%20Risk%20Adaptation%20and%20Mitigation%20to%20Climate%20Change%202015.pdf>.

For information on the Climate Hub in your Region, visit <http://climatehubs.oce.usda.gov> and click on the region to learn more.

Changing Administrative Counties

**State
Executive
Director:**
Richard V.
Snuffer II

Producers who wish to transfer their farm records to a different administrative county for Fiscal Year (FY) 2016 must file a request no later than August 1, 2016. Restrictions do apply when transferring to an office other than the county in which the land is physically located. Contact your local FSA office for more information.

or county.

USDA Expands Microloans to Help Farmers Purchase Farmland and Improve Property

Producers, Including Beginning and Underserved Farmers, Have a New Option to Gain Access to Land

The U.S. Department of Agriculture (USDA) is offering farm ownership microloans, creating a new financing avenue for farmers to buy and improve property. These microloans are especially helpful to beginning or underserved farmers, U.S. veterans looking for a career in farming, and those who have small and mid-sized farming operations.

The microloan program, which celebrates its third anniversary this week, has been hugely successful, providing more than 16,800 low-interest loans, totaling over \$373 million to producers across the country. Microloans have helped farmers and ranchers with operating costs, such as feed, fertilizer, tools, fencing, equipment, and living expenses since 2013. Seventy percent of loans have gone to new farmers.

Now, microloans will be available to also help with farm land and building purchases, and soil and water conservation improvements. FSA designed the expanded program to simplify the application process, expand eligibility requirements and expedite smaller real estate loans to help farmers strengthen their operations. Microloans provide up to \$50,000 to qualified producers, and can be issued to the applicant directly from the USDA Farm Service Agency (FSA).

This microloan announcement is another USDA resource for America's farmers and ranchers to utilize, especially as [new and beginning farmers and ranchers](#) look for the assistance they need to get started. To learn more about the FSA microloan program visit www.fsa.usda.gov/microloans, or contact your local FSA office. To find your nearest office location, please visit <http://offices.usda.gov>.

2016 ACREAGE REPORTING DATES

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit their

local FSA office to file an accurate crop certification report by the applicable deadline.

The following acreage reporting dates are applicable for West Virginia:

May 31, 2016:	Nursery
July 15, 2016:	All other crops
September 30, 2016:	Aquaculture

The following exceptions apply to the above acreage reporting dates:

- If the crop has not been planted by the above acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.
- If a producer acquires additional acreage after the above acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.

Noninsured Crop Disaster Assistance Program (NAP) policy holders should note that the acreage reporting date for NAP covered crops is the earlier of the dates listed above or 15 calendar days before grazing or harvesting of the crop begins.

For questions regarding crop certification and crop loss reports, please contact your local FSA office.

Enrollment Period for 2016 USDA Safety Net Coverage Ends Aug. 1

Producers who chose coverage from the safety net programs established by the 2014 Farm Bill, known as the Agriculture Risk Coverage (ARC) or the Price Loss Coverage (PLC) programs, can visit FSA county offices through Aug. 1, 2016, to sign contracts to enroll in coverage for 2016.

Although the choice between ARC and PLC is completed and remains in effect through 2018, producers must still enroll their farm by signing a contract each year to receive coverage.

Producers are encouraged to contact their local FSA office to schedule an appointment to enroll. If a farm is not enrolled during the 2016 enrollment period, producers on that farm will not be eligible for financial assistance from the ARC or PLC programs should crop prices or farm revenues fall below the historical price or revenue benchmarks established by the program.

The two programs were authorized by the 2014 Farm Bill and offer a safety net to agricultural producers when there is a substantial drop in prices or revenues for covered commodities. Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain and sweet rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity. For more details regarding these programs, go to www.fsa.usda.gov/arc-plc.

For more information, producers are encouraged to visit their local FSA office. To find a local FSA office, visit <http://offices.usda.gov>.

Report Livestock Losses

The Livestock Indemnity Program (LIP) provides assistance to eligible producers for livestock death losses in excess of normal mortality due to adverse weather and attacks by animals reintroduced into the wild by the federal government or protected by federal law. LIP compensates livestock owners and contract growers for livestock death losses in excess of normal mortality due to adverse weather, including losses due to hurricanes, floods, blizzards, wildfires, extreme heat or extreme cold.

For 2016, eligible losses must occur on or after Jan. 1, 2016, and before December 31, 2016. A notice of loss must be filed with FSA within 30 days of when the loss of livestock is apparent. Participants must provide supporting documentation to their local FSA office no later than 90 calendar days after the end of the calendar year for which benefits are requested.

USDA is an equal opportunity provider, employer and lender.
