USDA Acreage Reporting Deadline for Perennial Forage Changes to July 15

USDA Farm Service Agency (FSA) has established a new acreage reporting deadline for perennial forage for 2019 and subsequent years. Previously set in the fall, the new deadline is July 15 for all states, except for Hawaii and Puerto Rico.

Timely and accurate acreage reports for all crops and land uses, including prevented planting or failed acreage, are the foundation for many FSA program benefits, including disaster programs for livestock owners. Producers must report their acreage to maintain program eligibility.

Producers who have coverage for perennial forage under the Noninsured Crop Disaster Assistance Program (NAP) must report their crop acreage by the earlier of any of the following:

- the established acreage reporting date (July 15)
- 15 calendar days before the onset of harvest or grazing of the specific crop acreage being reported

- the established normal harvest date for the end of the coverage period.

Higher Limits Now Available on USDA Farm Loans

Higher limits are now available for borrowers interested in USDA's farm loans, which help agricultural producers purchase farms or cover operating expenses. The 2018 Farm Bill increased the amount that producers can borrow through direct and guaranteed loans available through USDA's Farm Service Agency (FSA) and made changes to other loans, such as microloans and emergency loans.

Key changes include:

- The Direct Operating Loan limit increased from \$300,000 to \$400,000, and the Guaranteed Operating Loan limit increased from \$ 1.429 million to \$1.75 million. Operating loans help producers pay for normal operating expenses, including machinery and equipment, seed, livestock feed, and more.
- The Direct Farm Ownership Loan limit increased from \$300,000 to \$600,000, and the Guaranteed Farm Ownership Loan limit increased from \$1.429 million to \$1.75 million. Farm ownership loans help producers become owner-operators of family farms as well as improve and expand current operations.
- Producers can now receive both a \$50,000 Farm Ownership Microloan and a \$50,000 Operating Microloan. Previously, microloans were limited to a combined \$50,000. Microloans provide flexible access to credit for small, beginning, niche, and non-traditional farm operations.
- Producers who previously received debt forgiveness as part of an approved FSA restructuring plan are now eligible to apply for emergency loans. Previously, these producers were ineligible.
- Beginning and socially disadvantaged producers can now receive up to a 95 percent guarantee against the loss of principal and interest on a loan, up from 90 percent.

About Farm Loans

Direct farm loans, which include microloans and emergency loans, are financed and serviced by FSA, while guaranteed farm loans are financed and serviced by commercial lenders. For guaranteed loans, FSA provides a guarantee against possible financial loss of principal and interest.

For more information on FSA farm loans, visit www.fsa.usda.gov or contact your [local USDA service center](#).

Maintaining Good Credit History

Farm Service Agency (FSA) Farm Loan programs require that applicants have a satisfactory credit history. A credit report is requested for all FSA direct farm loan applicants. These reports are reviewed to verify outstanding debts, if bills are paid timely and to determine the impact on cash flow.

Information found on a customer's credit report is strictly confidential and is used only as an aid in conducting FSA business.

Our farm loan staff will discuss options with you if you have an unfavorable credit report and will provide a copy of your report. If you dispute the accuracy of the information on the credit report, it is up to you to contact the issuing credit report company to resolve any errors or inaccuracies.

There are multiple ways to remedy an unfavorable credit score.

- Make sure to pay bills on time. Setting up automatic payments or automated reminders can be an effective way to remember payment due dates.
- Pay down existing debt.
- Keep your credit card balances low.
- Avoid suddenly opening or closing existing credit accounts.

FSA's farm loan staff will guide you through the process, which may require you to reapply for a loan after improving or correcting your credit report.

For more information on FSA farm loan programs, visit www.fsa.usda.gov.

Storage and Handling Trucks Eligible for Farm Storage Facility Loans

Farm Storage Facility Loans (FSFL) provide low-interest financing so producers can build or upgrade facilities to store commodities. Some storage and handling trucks are eligible for the FSFL. These include:

- **Cold Storage Trucks**-A van or truck designed to carry perishable freight at specific temperatures. Cold storage trucks can be ice-cooled or equipped with any variety of mechanical refrigeration systems.
- **Flatbed Trucks**-Truck with an open body in the form of a platform with no side walls for easy loading and unloading. These trucks can be categorized into different sizes which range from light, medium, or heavy duty, compact or full-size, or short and expandable beds.
- **Grain Trucks**-A piece of farm equipment specially made to accommodate grain products and are traditionally truck chassis units with a mounted grain "dump" body where grain commodities are transported from a field to either a grain elevator or a storage bin.

- **Storage Trucks with a Chassis Unit**-Commonly referred to as a box truck, box van or straight truck, is a truck with a cargo body mounted on the same chassis with the engine and cab.

To be eligible for FSFL, the storage and handling truck must be less than 15 years old and have a maximum of four axles with a gross weight rating of 60,000 pounds or less. Pick-up trucks, semi-trucks, dump trucks, and simple insulated and ventilated vans are ineligible for FSFL.

FSFL for storage and handling trucks must be \$100,000 or less. FSFL-financed storage and handling trucks must be used for the purpose for which they were acquired for the entire FSFL term.

Eligible commodities include grains, oilseeds, pulse crops, hay, honey, renewable biomass commodities, fruits and vegetables, floriculture, hops, maple sap, milk, cheese, yogurt, butter, eggs, meat/poultry (unprocessed), rye and aquaculture.

For more information or to apply for a FSFL, contact your local [FSA Service Center](#).

USDA Announces Buy-Up Coverage Availability and New Service Fees for Noninsured Crop Coverage Policies

USDA's Farm Service Agency (FSA) announced that higher levels of coverage will be offered through the Noninsured Crop Disaster Assistance Program (NAP), a popular safety net program, beginning April 8, 2019. The 2018 Farm Bill also increased service fees and made other changes to the program, including service fee waivers for qualified military veterans interested in obtaining NAP coverage.

"When other insurance coverage is not an option, NAP is a valuable risk mitigation tool for farmers and ranchers," said FSA Administrator Richard Fordyce. "In agriculture, losses from natural disasters are a matter of when, not if, and having a NAP policy provides a little peace of mind."

NAP provides financial assistance to producers of commercial crops for which insurance coverage is not available in order to protect against natural disasters that result in lower yields or crop losses, or prevent crop planting.

NAP Buy-Up Coverage Option

The 2018 Farm Bill reinstates higher levels of coverage, from 50 to 65 percent of expected production in 5 percent increments, at 100 percent of the average market price. Producers of organics and crops marketed directly to consumers also may exercise the "buy-up" option to obtain NAP coverage of 100 percent of the average market price at the coverage levels of between 50 and 65 percent of expected production. NAP basic coverage is available at 55 percent of the average market price for crop losses that exceed 50 percent of expected production.

Producers have a *one-time opportunity until May 24, 2019*, to obtain buy-up coverage for 2019 or 2020 eligible crops for which the NAP application closing date has passed.

Buy-up coverage is not available for crops intended for grazing.

NAP Service Fees

For all coverage levels, the new NAP service fee is the lesser of \$325 per crop or \$825 per producer per county, not to exceed a total of \$1,950 for a producer with farming interests in multiple counties. These amounts reflect a \$75 service fee increase for crop, county or multi-county coverage. The fee increases apply to obtaining NAP coverage on crops on or after April 8, 2019.

NAP Enhancements for Qualified Military Veterans

The 2018 Farm Bill NAP amendments specify that qualified veteran farmers or ranchers are now eligible for a service fee waiver and premium reduction, if the NAP applicant meets certain eligibility criteria.

Beginning, limited resource and targeted underserved farmers or ranchers remain eligible for a waiver of NAP service fees and premium reduction when they file form CCC-860, "*Socially Disadvantaged, Limited Resource and Beginning Farmer or Rancher Certification*."

For NAP application, eligibility and related program information, visit www.fsa.usda.gov/nap or contact your local USDA Service Center. To locate your local FSA office, visit www.farmers.gov.

Supervised Credit

Farm Service Agency (FSA) Farm Loan programs are considered supervised credit. Unlike loans from a commercial lender, FSA loans are intended to be temporary in nature. Therefore, it is our goal to help you graduate to commercial credit, and our farm loan staff is available to help borrowers through training and credit counseling.

The FSA team will help borrowers identify their goals to ensure financial success. Through this process, FSA staff will advise borrowers in developing strategies and a plan to meet your operation's goals and graduate to commercial credit. Ultimately, the borrower is responsible for the success of the farming operation, but FSA's staff will help in an advisory role to provide the tools necessary to help you achieve your operational goals and manage your finances.

For more information on FSA farm loan programs, visit www.fsa.usda.gov.
