Dates to Remember

January 13, 2024: Applications due for [Section 22007 of the Inflation Reduction Act \(IRA\)](#).

January 15, 2024: USDA Service Centers Closed in Observance of the Birthday of Martin Luther King, Jr.

January 16, 2024: Final Acreage Reporting deadline for apples, caneberries, cherries, cranberries, currants, hops, huckleberries, pears, and strawberries.

January 30, 2024: Final date to submit [Livestock Forage Disaster Program \(LFP\)](#) applications for 2023 grazing losses due to drought.

January 30, 2024: Final date to submit a Notice of Loss and application for payment for the [Emergency Assistance for Livestock, Honeybees, and Farm Raised Fish Program \(ELAP\)](#)

January 31, 2024: Deadline to apply for 2022 and 2023 assistance for the [Food Safety Certification for Specialty Crops Program \(FSCSC\)](#)

January 31, 2024: Final Availability Date for Wool, Mohair, and Unshorn Pelt MAL's and LDP's.

February 1, 2024: Final Acreage Reporting deadline for Maple Sap

February 19, 2024: USDA Service Centers Closed in Observance of Washington's Birthday.

February 29, 2024: [RMA Livestock Roadshow](#) - presentations on federal livestock insurance programs, FSA resources, and farm succession/estate planning.

Tax Resources for USDA Program Participants

Navigating filing taxes can be challenging, especially if you are new to running a farm business, participating in disaster programs for first time, or trying to forecast the farm's tax bill. Receiving funds from USDA through activities such as a conservation program payment or a disaster program is considered farm income that includes a tax liability for farm businesses. USDA technical assistance is free and creates no tax implications.

At the end of the tax year, USDA issues tax forms 1098 and 1099 forms for farm loans, conservation programs administered by the Farm Service Agency and Natural Resource Conservation Service including the Conservation Reserve Program and Environmental Quality Incentives Program, crop disaster payments, and the Market Facilitation Program. USDA also issues tax forms for recipients of assistance for distressed borrowers, including through Section 22006 of the Inflation Reduction Act.

If you have received tax forms related to your operation, USDA cannot and does not provide tax advice but wants you to be aware of options that may help manage your tax liability. USDA has partnered with experts to provide resources to help you make the right tax decisions for your operation. Monthly webinars are available for registration and to view on demand at <https://www.farmers.gov/working-with-us/taxes>.

The [Tax Estimator Tool](#) is an interactive spreadsheet that producers can download to estimate tax liability. It is for informational and educational purposes and should not be considered tax or legal advice. Producers may need to work with a tax professional to determine the correct information to be entered in the Tax Estimator Tool.

We encourage you to visit <https://www.farmers.gov/working-with-us/taxes> for more information on how to find and work with a tax preparer as well as instructions on how to request copies of USDA documents and links to other helpful tax resources

USDA Makes Producer-Friendly Change to 2023 Notice of Loss Requirements for Two Livestock Disaster Assistance Programs

The U.S. Department of Agriculture (USDA) has waived certain notice of loss requirements for 2023 for the [Emergency Assistance for Livestock, Honeybees, and Farm-raised Fish](#) (ELAP) and [Livestock Indemnity Program](#) (LIP). In an effort to streamline assistance to support access to critical 2023 natural disaster recovery assistance, USDA's Farm Service Agency (FSA) is waiving the requirement to submit ELAP or LIP notices of

loss within a pre-determined number of days for 2023. Instead, producers have the flexibility to submit 2023 notices of loss as soon as possible, once losses are realized, following a natural disaster event or no later than the established annual program application for payment deadlines for each program. FSA county committees are also being asked to re-evaluate 2023 ELAP and LIP late-filed notices of loss to determine if the waiver applies.

Emergency Assistance for Livestock, Honeybees, and Farm-raised Fish

ELAP provides recovery assistance to eligible producers of livestock, honeybee, and farm-raised fish losses due to an eligible adverse weather or loss condition, including blizzards, disease, water shortages and wildfires. ELAP covers grazing and feed losses, transportation of water and feed to livestock and hauling livestock to grazing acres. ELAP also covers certain mortality losses for livestock including honeybees and farm-raised fish as well as honeybee hive losses. ELAP is designed to address losses not covered by other FSA disaster assistance programs.

For 2023, FSA is waiving the regulatory requirement for producers who are eligible for ELAP to file a notice of loss with FSA within 30 calendar days from when the loss first became apparent for livestock and farm-raised fish and 15 calendar days for honeybees. Under this waiver, notices of loss are to be completed by the eligible producer and submitted to FSA no later than the annual program application deadline of January 30 following the program year in which the loss occurred. Therefore, producers who incurred ELAP-eligible losses in 2023, will need to submit a notice of loss by Jan. 30, 2024.

Livestock Indemnity Program

LIP provides disaster recovery assistance to livestock owners and contract growers who experience livestock deaths, in excess of normal mortality caused by eligible loss conditions including adverse weather, disease and attacks by animals reintroduced into the wild by the federal government or protected by federal law, including wolves and avian predators. LIP also helps livestock owners who must sell livestock at a reduced price because of an injury from certain loss conditions.

For 2023, FSA is waiving the regulatory requirement for producers who are eligible for LIP to file a notice of loss within 30 calendar days from when the loss first became apparent. Under this waiver, producers are still required to complete and submit the notice of loss to FSA no later than the annual program payment application date, which is 60 calendar days following the program year in which the loss occurred. The LIP payment application and notice of loss deadline is Feb. 29, 2024, for the 2023 program year.

2023 Disapproved Applications

FSA county committees will review all notices of loss for both ELAP and LIP that were previously disapproved for the 2023 program year due to late filing and re-evaluate them to determine if the waiver applies. To receive ELAP and LIP benefits, producers will still need to file an application for payment by the established program deadline for the 2023 program year. Producers who are unsure about the status of their notice of loss or application for payment, should contact their local FSA county office as soon as possible.

Supporting Documentation

Accurate records and loss documentation are critical following disaster events and are required when filing notices of loss with FSA. Acceptable loss documentation includes:

- Documentation of the number, kind, type, and weight range of livestock that have died, supplemented, if possible, by photographs or video records of ownership and losses.
- Rendering truck receipts by kind, type, and weight - important to document prior to disposal.
- Beginning inventory supported by birth recordings or purchase receipts.
- Documentation from Animal Plant Health Inspection Service, Department of Natural Resources, or other sources to substantiate eligible death losses due to an eligible loss condition.
- Documentation that livestock were removed from grazing pastures due to an eligible adverse weather or loss condition.
- Costs of transporting livestock feed to eligible livestock, such as receipts for equipment rental fees for hay lifts and snow removal.
- Feed purchase receipts if feed supplies or grazing pastures are destroyed.
- Number of gallons of water transported to livestock due to water shortages.

More Information

The improvements to ELAP and LIP build on others made since 2021. This includes ELAP benefits for above normal costs for hauling feed and water to livestock and transporting livestock to other grazing acres during a qualifying drought. FSA also [expanded eligible livestock](#) under ELAP, LIP, and the Livestock Forage Disaster Assistance Program, and increased the LIP payment rate for beef, beefalo, bison, and dairy animals less than 250 pounds and most recently beef calves over 800 pounds. Learn about USDA disaster assistance programs on [farmers.gov](#).

On [farmers.gov](#), the [Disaster Assistance Discovery Tool](#), [Disaster-at-a-Glance fact sheet](#) and [Loan Assistance Tool](#) can help producers and landowners determine [disaster protection and recovery](#) program or loan options. For more information about FSA programs, contact your local [USDA Service Center](#).

Current FSA Loan Interest Rates

Current loan rates as of January 1, 2024.

Farm Loan Interest Rates:

| | |
|----------------------------|--------|
| Farm Operating - Direct | 5.625% |
| Farm Operating - Microloan | 5.625% |
| Farm Ownership - Direct | 5.875% |

| | |
|--|--------|
| Farm Ownership - Microloan | 5.875% |
| Farm Ownership - Direct, Joint Financing | 3.875% |
| Farm Ownership - Down Payment | 1.875% |
| Emergency - Amount of Actual Loss | 3.750% |

Farm Storage Facility Loans (FSFL):

| | |
|--------------|--------|
| 3-year FSFL | 4.375% |
| 5-year FSFL | 4.125% |
| 7-year FSFL | 4.250% |
| 10-year FSFL | 4.125% |
| 12-year FSFL | 4.250% |

Please visit the [Farm Loan Program](#) webpage for more information.

Disaster Assistance for 2023 Livestock Forage Losses

Producers in Wisconsin may be eligible to apply for 2023 Livestock Forage Disaster Program (LFP) grazing benefits.

LFP provides compensation if you suffer grazing losses for covered livestock due to drought on privately owned or cash leased land or fire on federally managed land.

County committees can only accept LFP applications after notification is received by the National Office of qualifying drought or if a federal agency prohibits producers from grazing normal permitted livestock on federally managed lands due to qualifying fire. You must complete a CCC-853 and the required supporting documentation no later than January 30, 2023, for 2023 losses.

For additional information about LFP, including eligible livestock and fire criteria, contact your County USDA Service Center or visit fsa.usda.gov.

USDA Now Accepting Applications for Farm Loans Online

The U.S. Department of Agriculture (USDA) has launched an [online application for Direct Loan customers](#). More than 26,000 customers who submit a Direct Loan application each year can now use an online, interactive, guided application that is paperless and provides helpful features including an electronic signature option, the ability to attach supporting documents such as tax returns, complete a balance sheet and build a farm operating plan. This tool is part of a broader effort by USDA's Farm Service Agency (FSA) to streamline its processes, improve customers service, and expand credit access.

The online farm loan application replicates the support an applicant would receive when completing a loan application in person with an FSA Farm Loan Officer, while continuing to provide customers with one-on-one assistance as needed. This tool and other process improvements allow farmers and ranchers to submit complete loan applications and reduce the number of incomplete and withdrawn applications.

Through a personalized dashboard, borrowers can track the progress of their loan application. It can be accessed on farmers.gov or by completing FSA's Loan Assistance Tool at farmers.gov/loan-assistance-tool. To use the online loan application tool, producers must establish a USDA customer account and a [USDA Level 2 eAuthentication \("eAuth"\) account or a Login.gov account](#). For the initial stage, the online application tool is only available for producers who will be, or are currently, operating their farm as an individual. FSA is expanding the tools availability to married couples applying jointly and other legal entities in 2024.

Farm Loan Improvement Efforts

FSA has a significant initiative underway to streamline and automate Farm Loan Program customer-facing business processes. For the over 26,000 producers who submit a Direct Loan application to FSA annually, and its 85,000 Direct Loan borrowers, FSA has made improvements this year, including:

- A [simplified direct loan paper application](#), reduced from 29 pages to 13 pages.
- The [Loan Assistance Tool on farmers.gov](#) that provides customers with an interactive online, step-by-step guide to identifying the Direct Loan products that may be a fit for their business needs and to understanding the application process.

More Information

FSA continues to accept and review individual requests for assistance from borrowers who took certain extraordinary measures to avoid delinquency on their direct FSA loans or those who missed a recent installment or are unable to make their next scheduled installment. All requests for assistance must be received by Dec. 31, 2023. For more information, or to submit a request for assistance, producers can contact their local [USDA Service Center](#) or visit farmers.gov/inflation-reduction-investments/assistance.

The Inflation Reduction Act, a historic, once-in-a-generation investment and opportunity for agricultural communities, provided \$3.1 billion for USDA to provide relief for distressed borrowers with certain FSA direct and guaranteed loans and to expedite assistance for those whose agricultural operations are at financial risk. Since October 2022, USDA has provided approximately \$1.6 billion in immediate assistance to more than 27,000 financially distressed direct and guaranteed FSA loan borrowers.

Wisconsin NRCS Encourages Producers Within High-Priority Watersheds to ACT NOW

The U.S. Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS), has announced they will begin utilizing the new *Act Now* policy, which offers additional flexibilities for eligible Environmental Quality Incentives Program (EQIP)

applicants enrolled in the [Mississippi River Basin Healthy Watersheds Initiative \(MRBI\)](#) and [National Water Quality Initiative \(NWQI\)](#). These NRCS initiatives were designed to help agricultural producers within high-priority watershed areas implement voluntary conservation practices to control nutrient runoff, improve water quality and wildlife habitat, and maintain agricultural productivity.

Through *Act Now*, Wisconsin NRCS can immediately preapprove all EQIP applications eligible through the MRBI and NWQI.

LAST CHANCE - Deadline Approaching for Discrimination Financial Assistance Program

January 13 is the deadline for Wisconsin farmers, ranchers and forest landowners to submit applications for assistance through the Discrimination Financial Assistance Program for those who experienced discrimination in USDA farm lending programs prior to January 2021.

If you think you may be eligible, we encourage you to check out the program website: <https://22007apply.gov>. You'll find various assistance to help learn about the program and help you apply. Borrowers have the option to apply for assistance online via 22007apply.gov or through a paper-based form. FSA offices in Wisconsin are not managing the program and cannot help with applications. As directed by Congress, USDA is working with third-party vendors to administer this program.

We've been made aware of some lawyers and groups spreading misleading information about the discrimination assistance process, pressuring people to sign retainer agreements, and asking people to fill out forms with private and sensitive information. The official application process and filling out an application is **FREE** and does not require a lawyer.

To apply or learn more about the Discrimination Financial Assistance Program, please visit 22007apply.gov or call the free call center at 1-800-721-0970 before January 13, 2024.

Farmers Can Now Enroll for the Agriculture Risk Coverage and Price Loss Coverage Programs the 2024 Crop Year

The U.S. Department of Agriculture (USDA) today announced that agricultural producers can now enroll in the Farm Service Agency's (FSA) [Agriculture Risk Coverage \(ARC\)](#) and [Price Loss Coverage \(PLC\)](#) programs for the 2024 crop year. Producers can enroll and make election changes for the 2024 crop year starting Dec. 18, 2023. The deadline to complete enrollment and any election change is March 15, 2024.

On Nov. 16, 2023, President Biden signed into law H.R. 6363, the *Further Continuing Appropriations and Other Extensions Act, 2024* (Pub. L. 118-22), which extended the *Agriculture Improvement Act of 2018* (Pub. L. 115-334), more commonly known as the 2018 Farm Bill, through September 30, 2024. This extension allows authorized programs, including ARC and PLC, to continue operating.

2024 Elections and Enrollment

Producers can elect coverage and enroll in ARC-County (ARC-CO) or PLC, which provide crop-by-crop protection, or ARC-Individual (ARC-IC), which protects the entire farm. Although election changes for 2024 are optional, producers must enroll through a signed contract each year. Also, if a producer has a multi-year contract on the farm it will continue for 2024 unless an election change is made.

If producers do not submit their election revision by the March 15, 2024, deadline, their election remains the same as their 2023 election for commodities on the farm. Farm owners cannot enroll in either program unless they have a share interest in the cropland.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice, safflower seed, seed cotton, sesame, soybeans, sunflower seed and wheat.

2022 Crop Year Payments

This fall, FSA issued payments totaling more than \$267 million to agricultural producers who enrolled in the 2022 ARC-CO option and the ARC-IC option for covered commodities that triggered a payment. Payments through the PLC option did not trigger for the 2022 crop year.

ARC and PLC payments for a given crop year are paid out the following fall to allow actual county yields and the Market Year Average prices to be finalized. These payments help mitigate fluctuations in either revenue or prices for certain crops. Payments for crops that may trigger for the 2023 crop year will be issued in the fall of 2024.

Crop Insurance Considerations

ARC and PLC are part of a broader USDA safety net that also includes crop insurance and marketing assistance loans.

Producers are reminded that ARC and PLC elections and enrollments can impact eligibility for some crop insurance products.

Producers on farms with a PLC election can purchase Supplemental Coverage Option (SCO) through their Approved Insurance Provider; however, producers on farms where ARC is the election are ineligible for SCO on their planted acres for that crop on that farm.

Unlike SCO, the Enhanced Coverage Option (ECO) is unaffected by an ARC election. Producers may add ECO regardless of the farm program election.

Upland cotton farmers who choose to enroll seed cotton base acres in ARC or PLC are ineligible for the stacked income protection plan (STAX) on their planted cotton acres for that farm.

Web-Based Decision Tools

Many universities offer web-based decision tools to help producers make informed, educated decisions using crop data specific to their respective farming operations. Producers are encouraged to use the tool of their choice to support their ARC and PLC elections.

More Information

For more information on ARC and PLC, producers can visit the [ARC and PLC webpage](#) or contact their local [USDA Service Center](#). Producers can also make elections and complete enrollment [online with level 2 eAuth](#).
