Staci's Corner

This has been one of the craziest, wettest, coldest summers that I can remember. As the grass looks beautiful, tall and green, the hay fields are not getting all the attention they need due to mud. RAIN, it is a blessing and a curse for ranchers and farmers.

I wanted to Thank the producers of Crook County for welcoming me into this very special corner of Wyoming! I have enjoyed almost every day here – the minus 51 degrees winter was not my favorite however. I have accepted a position in Arizona with FSA and am headed south. Wednesday, August 16th will be my final day in the office here in Sundance. THANK YOU!

IMPORTANT DATES

September 4th – Office CLOSED for Labor Day

October 9th – Office CLOSED for Columbus Day

If you have any questions about programs or policies, please contact our office Monday through Friday between 8am and 4:30pm.

Very Sincerely,
Staci

SSHHHHH Don't Tell!!

We are doing a going away party for Staci at the Crook County FSA office on August 16th, 2023 at 2:00pm. Please come enjoy snacks and drinks and help us send Staci off on her new adventure.

Tiffany, Bailey, Kevie, Keela, Sherry, Jason, Jess, Sarah, Bridget, Jessica

Financial Assistance Application Process Opens for USDA Farm Loan Borrowers Who Have Faced Discrimination

USDA announced the opening of the financial assistance application process for eligible farmers, ranchers, and forest landowners who experienced discrimination in USDA farm lending programs prior to January 2021. Section 22007 of the Inflation Reduction Act (IRA) directs USDA to provide this assistance. Since the law's passage, USDA has worked diligently to design the program in accordance with significant stakeholder input.

The program website, 22007apply.gov, is now open. The website includes an English- and Spanish-language application that applicants can download or submit via an e-filing portal, information on how to obtain technical assistance in-person or virtually, and additional resources and details about the program.

Farmers, ranchers, and forest landowners who experienced discrimination by USDA in its farm loan programs prior to January 1, 2021 and/or are currently debtors with assigned or assumed USDA farm loan debt that was the subject of USDA discrimination that occurred prior to January 1, 2021, are eligible for this program.

To apply, borrowers have the option to apply via the e-filing portal at 22007apply.gov or submit paper-based forms via mail or in-person delivery to the program's local offices. The application process will be open from July 7 to October 31, 2023. Under the planned timeline, applications will be reviewed in November and December, with payments reaching recipients soon thereafter. Importantly, applicants should know that the application process is not on a first come, first served, basis. All applications received or postmarked before the October 31 deadline will be considered.

To support producers throughout the application process, USDA is ensuring that organizations with extensive experience conducting outreach to farm organizations are able to support individuals who may be eligible for the program. These groups include [AgrAbility](#), [Farmer Veteran Coalition](#), [Farmers' Legal Action Group](#), [Federation of Southern Cooperatives](#), [Intertribal Agriculture Council](#), [Land Loss Prevention Program](#), [National Young Farmers Coalition](#), and [Rural Coalition](#).

Vendors operating four regional hubs are also providing technical assistance and working closely with these and other community-based organizations to conduct outreach using digital and grassroots strategies, to ensure potential applicants are informed about the program and have the opportunity to apply. These hubs are operating a network of brick-and-mortar program offices and will conduct extensive outreach about the program. Windsor Group serves farmers in the eastern regions of the U.S. and Analytic Acquisitions serves the western regions. A national administrator, Midtown Group, is responsible for program oversight and integrity, and will lead a national call-center, operate the application website - 22007apply.gov, which is now open – and review and process applications and payments. All vendors have experience in professional services, supporting government contracts, and complex program operations.

In standing up this program, USDA has become aware of some lawyers and groups spreading misleading information about the discrimination assistance process, pressuring people to sign retainer agreements, and asking people to fill out forms with private and sensitive information. As of today, the official application process has begun and filling out an application is free.

No attorneys' fees will be paid to applicants or their counsel by USDA or by any other agency or department of the United States. The amount of financial assistance will not be increased for those claimants who are represented by an attorney. Applicants are not required to retain an attorney. USDA, the national administrator, and the regional hub vendors will neither recommend that any applicant retain counsel or retain a specific attorney or law firm, nor discourage an applicant from obtaining counsel or using a specific attorney or law firm. For

more information, read our [fact sheet about the program timeline and ways to protect against possible scams](#).

Is the Noninsured Crop Disaster Assistance Program Right for You?

Farmers and ranchers rely on crop insurance to protect themselves from disasters and unforeseen events, but not all crops are insurable through the USDA's Risk Management Agency. The Farm Service Agency's (FSA) Noninsured Crop Disaster Assistance Program (NAP) provides producers another option to obtain coverage against disaster for these crops. NAP provides financial assistance to producers of non-insurable crops impacted by natural disasters that result in lower yields, crop losses, or prevents crop planting.

Commercially produced crops and agricultural commodities for which crop insurance is not available are generally eligible for NAP. Eligible crops include those grown specifically for food, fiber, livestock consumption, biofuel or biobased products, or value loss crops such as aquaculture, Christmas trees, ornamental nursery, and others. Contact your local FSA office to see which crops are eligible in your state and county.

of loss include drought, freeze, hail, excessive moisture, excessive wind or hurricanes, earthquake and flood. These events must occur during the NAP policy coverage period, before or during harvest, and the disaster must directly affect the eligible crop. For guidance on causes of loss not listed, contact your local FSA county office.

Interested producers apply for NAP coverage using FSA form [CCC-471](#), "Application for Coverage," and pay the applicable service fee at the FSA office where their farm records are maintained. These must be filed by the application closing date, which varies by crop. Contact your local FSA office to verify application closing dates and ensure coverage for eligible NAP crops.

At the time of application, each producer acknowledges they have received the [NAP Basic Provisions](#), which describes NAP requirements for coverage. NAP participants must report crop acreage shortly after planting and provide verifiable or reliable crop production records when required by FSA.

Producers are required to pay service fees which vary depending on the number of crops and number of counties your operation is located in. The NAP service fee is the lesser of \$325 per crop or \$825 per producer per administrative county, not to exceed a total of \$1,950 for a producer with farming interests in multiple counties. Premiums also apply when producers elect higher levels of coverage with a maximum premium of \$15,750 per person or legal entity.

A producer's certification on Form CCC-860 *Socially Disadvantaged, Limited Resource, Beginning and Veteran Farmer or Rancher Certification* may serve as an application for basic NAP coverage for all eligible crops beginning with crop year 2022. These producers will have all NAP-related service fees for basic coverage waived, in addition to a 50 percent premium reduction if higher levels of coverage are elected.

For more detailed information on NAP, download the [NAP Fact Sheet](#). To get started with NAP, we recommend you contact your [local USDA service center](#).

Farmers.gov Feature Helps Producers Find Farm Loans that Fit Their Operation

Farmers and ranchers can use the *Farm Loan Discovery Tool* on farmers.gov to find information on USDA farm loans that may best fit their operations.

USDA's Farm Service Agency (FSA) offers a variety of loan options to help farmers finance their operations. From buying land to financing the purchase of equipment, FSA loans can help.

USDA conducted field research in eight states, gathering input from farmers and FSA farm loan staff to better understand their needs and challenges.

How the Tool Works

Farmers who are looking for financing options to operate a farm or buy land can answer a few simple questions about what they are looking to fund and how much money they need to borrow. After submitting their answers, farmers will receive information on farm loans that best fit their specific needs. The loan application and additional resources also will be provided.

Farmers can download application quick guides that outline what to expect from preparing an application to receiving a loan decision. There are four guides that cover loans to individuals, entities, and youth, as well as information on microloans. The guides include general eligibility requirements and a list of required forms and documentation for each type of loan. These guides can help farmers prepare before their first USDA service center visit with a loan officer.

Farmers can access the *Farm Loan Discovery Tool* by visiting farmers.gov/fund and clicking the "Start" button. Follow the prompts and answer five simple questions to receive loan information that is applicable to your agricultural operation. The tool is built to run on any modern browser like Chrome, Edge, Firefox, or the Safari browser, and is fully functional on mobile devices. It does not work in Internet Explorer.

About Farmers.gov

In 2018, USDA unveiled farmers.gov, a dynamic, mobile-friendly public website combined with an authenticated portal where farmers will be able to apply for programs, process transactions, and manage accounts.

The *Farm Loan Discovery Tool* is one of many resources on farmers.gov to help connect farmers to information that can help their operations. Earlier this year, USDA launched the *My Financial Information* feature, which enables farmers to view their loan information, history, payments, and alerts by logging into the website.

USDA is building farmers.gov for farmers, by farmers. In addition to the interactive farm loan features, the site also offers a Disaster Assistance Discovery Tool. Farmers can visit farmers.gov/recover/disaster-assistance-tool/#step-1 to find disaster assistance programs that can help their operation recover from natural disasters.

For more information, contact Eilish Hanson at the Campbell County USDA Service Center at (307) 682-8843 ext. 2 or visit farmers.gov.
