## Office Message

### IMPORTANT DATES

**July 14<sup>th</sup>** – DEADLINE to sign up for ERP Phase II and PARP

**July 17<sup>th</sup>** – DEADLINE for Spring Crop Acreage Reporting

**August 1<sup>st</sup>** – LAA 1 COC Nominations Due

**September 4<sup>th</sup>** – Office CLOSED for Labor Day

As always, if you have any questions about programs or the like, please contact our office Monday through Friday between 8am and 4:30pm.

Very Sincerely,  
Dee

## Farm Service Agency Now Accepting Nominations for Farmers and Ranchers to Serve on Local County Committees

The U.S. Department of Agriculture (USDA) is now accepting nominations for county committee members for elections that will occur later this year. Additionally, USDA's Farm Service Agency (FSA) is unveiling a new GIS tool to make it easier for producers to participate in the nomination and election processes for county committee members, who make important decisions on how federal farm programs are administered locally.

All nomination forms for the 2023 election must be postmarked or received in the local FSA office by Aug. 1, 2023.

Elections will occur in certain Local Administrative Areas (LAA) for members. LAAs are elective areas for FSA committees in a single county or multi-county jurisdiction and they may include LAAs that are focused on an urban or suburban area.

Customers can locate their LAA through a new GIS locator tool available at [fsa.usda.gov/elections](https://fsa.usda.gov/elections).

Agricultural producers may be nominated for candidacy for the county committee if they:

- Participate or cooperate in a USDA program; and

- Reside in the LAA that is up for election this year.

A cooperating producer is someone who has provided information about their farming or ranching operation to FSA, even if they have not applied or received program benefits. Individuals may nominate themselves or others and qualifying organizations may also nominate candidates. USDA encourages minority producers, women and beginning farmers or ranchers to nominate, vote and hold office.

Nationwide, more than 7,700 dedicated members of the agricultural community serve on FSA county committees. The committees are made up of three to 11 members who serve three-year terms. Committee members are vital to how FSA carries out disaster programs, as well as conservation, commodity and price support programs, county office employment and other agricultural issues.

## USDA Hiring Engineers, Natural Resource Specialists Nationwide to Strengthen Inflation Reduction Act Implementation, Enhance Agricultural Conservation

USDA announced it is ramping up hiring for key positions that will help strengthen agricultural conservation efforts and turn President Biden's Investing in America agenda into action. The available positions include engineers, civil engineering technicians and natural resource specialists, building on other large-scale hiring announcements earlier this year.

Today's announcement is funded by \$19.5 billion from President Biden's Inflation Reduction Act. The new NRCS engineers and engineering technicians will play a critical role in solving a host of natural resource problems for agricultural producers and local communities. Their projects may involve stream restoration, erosion control, developing water systems for livestock, improving and conserving irrigation water and restoring wetlands. They may also help communities recover from natural disasters.

Natural resource specialists perform a variety of duties to help landowners meet their conservation objectives. This may include assisting in the implementation of conservation plans, conducting scientific studies and performing on-site evaluations with customers. Their work enhances conservation program delivery and helps build resilient farms and communities across America.

### How to Apply

NRCS posted an announcement for engineering technicians on June 26 and natural resource specialists on July 3. Interested candidates can find more information and apply by searching for these job titles on [USAjobs.gov](https://www.usajobs.gov).

To qualify for these positions, candidates must meet the education requirements, or a combination of education and experience requirements, as outlined in the job announcement. General qualifications for the engineering and natural resource management job series are also available on [OPM.gov](https://www.opm.gov). Additional information on career opportunities at NRCS is available on the agency's [careers webpage](#).

### More Information

Over the next several years, NRCS expects to add over 4,400 new employees to its federal workforce, in addition to over 3,000 team members through partner organizations, to help with Inflation Reduction Act implementation.

NRCS is a federal agency that helps farmers, ranchers and forest landowners conserve soil, water and other natural resources. Employees provide technical expertise and conservation planning. Financial assistance is available for a wide variety of conservation programs. NRCS has offices in USDA Service Centers nationwide.

## Communication is Key in Lending

Farm Service Agency (FSA) is committed to providing our farm loan borrowers the tools necessary to be successful. FSA staff will provide guidance and counsel from the loan application process through the borrower's graduation to commercial credit. While it is FSA's commitment to advise borrowers as they identify goals and evaluate progress, it is crucial for borrowers to communicate with their farm loan staff when changes occur. It is the borrower's responsibility to alert FSA to any of the following:

- Any proposed or significant changes in the farming operation
- Any significant changes to family income or expenses
- The development of problem situations
- Any losses or proposed significant changes in security

If a farm loan borrower can't make payments to suppliers, other creditors, or FSA on time, contact your farm loan staff immediately to discuss loan servicing options.

For more information on FSA farm loan programs, contact your Lincoln County USDA Service Center at 307-886-9001 ext. 2 or visit [fsa.usda.gov](http://fsa.usda.gov).
