FSA Encourages Farmers and Ranchers to Vote in County Committee Elections

The 2023 Farm Service Agency County Committee Elections began on Nov. 6, 2023, when ballots were mailed to eligible voters. The deadline to return ballots to local FSA offices, or to be postmarked, is Dec. 4, 2023.

County committee members are an important component of the operations of FSA and provide a link between the agricultural community and USDA. Farmers and ranchers elected to county committees help deliver FSA programs at the local level, applying their knowledge and judgment to make decisions on commodity price support programs; conservation programs; incentive, indemnity and disaster programs for some commodities; emergency programs and eligibility. FSA committees operate within official regulations designed to carry out federal laws.

To be an eligible voter, farmers and ranchers must:

- Be of legal voting age or, if not of legal voting age, supervise and conduct the farming operation of an entire farm.
- Have an interest in a farm or ranch as either:
 - An individual who meets one or more of the following:
 - Is eligible and capable to vote in one's own right.
 - Is a partner of a general partnership.
 - Is a member of a joint venture.
 - Participates or cooperates in any FSA program that is provided by law. A cooperating producer is someone who has provided information to FSA about their farming or ranching operation(s) but may not have applied or received program benefits.

Eligible voters in Local Administrative Area LAA 3 and LAA 4, who do not receive a ballot can obtain one from their local FSA county office. Customers can identify which LAA they or their farming operation is in by using our new GIS locator tool available at fsa.usda.gov/elections.

Newly elected committee members will take office Jan. 1, 2024.

USDA to Provide More Than \$3 Billion to Commodity and Specialty Crop Producers Impacted by 2022 Natural Disasters

The U. S Department of Agriculture (USDA) will provide more than \$3 billion to commodity and specialty crop producers impacted by natural disaster events in 2022. Eligible impacted producers can apply for financial assistance through the [Emergency Relief Program \(ERP\) 2022](#). The program will help offset the financial impacts of crop yield and value losses from qualifying disasters occurring in 2022.

Background

On Dec. 29, 2022, President Biden signed into law the *Disaster Relief Supplemental Appropriations Act, 2023* (P.L. 117-328) that provides about \$3.7 billion in financial assistance for agricultural producers impacted by eligible natural disasters that occurred in calendar year 2022.

ERP 2022 covers losses to crops, trees, bushes and vines due to qualifying, calendar year 2022 natural disaster events including wildfires, hurricanes, floods, derechos, excessive heat, tornadoes, winter storms, freeze (including a polar vortex), smoke exposure, excessive moisture, qualifying drought and related conditions.

ERP 2022 program benefits will be delivered to eligible producers through a two-track process. FSA intends to make both tracks available to producers at the same time. This two-track approach enables USDA to:

- Streamline the application process.
- Reduce the paperwork burden on producers.
- Proactively include provisions for underserved producers who have not been well served by past emergency relief efforts.
- Encourage producer participation in existing risk management programs to mitigate the impacts of future severe weather events.

It's important to note that disaster-impacted producers may be eligible for ERP 2022 assistance under one or both tracks. To avoid duplicative benefits, if a producer applies for both tracks, the Track 2 payment calculation will take into account any payments received through Track 1.

ERP 2022 Application Process – Track 1

ERP 2022 Track 1 leverages existing federal crop insurance or Noninsured Crop Disaster Assistance Program (NAP) data as the basis for calculating payments for eligible crop producers who received indemnities through these risk management programs.

Although FSA is sending pre-filled ERP 2022 Track 1 application forms to producers who have crop insurance and NAP data already on file with USDA, producers indemnified for losses resulting from 2022 natural disasters do not have to wait to receive the application before requesting ERP 2022 assistance. Effective Oct. 31, 2023, producers can apply for ERP 2022 benefits whether they have received the pre-filled application or not. Receipt of a pre-filled application is not confirmation that a producer is eligible to receive an ERP 2022 Track 1 payment.

USDA estimates that ERP Track 1 benefits will reach more than 206,000 producers who received indemnities for losses covered by federal crop insurance and more than 4,500 producers who obtained NAP coverage for the 2022 crop year.

ERP 2022 Application Process – Track 2

Track 2 is a revenue-based certification program designed to assist eligible producers who suffered an eligible decrease in revenue resulting from 2022 calendar year disaster events when compared with revenue in a benchmark year using revenue information that is readily available from most tax records. In cases where revenue does not reasonably reflect a normal year's revenue, Track 2 provides an alternative method for

establishing revenue. Likewise, Track 2 affords producers of crops that are used within an operation and do not generate revenue from the sale of the crop a method for establishing revenue for the purpose of applying for ERP 2022 benefits. Producers are not required to submit tax records to FSA unless requested by the County Committee if required for an FSA compliance spot check.

Although not required when applying for ERP 2022 Track 2, applicants might find the following documents useful to the process:

- Schedule F (Form 1040)
- *Profit or Loss from Farming* or similar tax documents for tax years 2018, 2019, 2022 and 2023.

Track 2 targets gaps in emergency relief assistance for eligible producers whose eligible losses were not covered by crop insurance or NAP including revenue losses too small (shallow loss) to be covered by crop insurance.

Producers interested in applying for ERP 2022 Track 2, should contact their local FSA county office. Additional reference resources can be found on FSA's [emergency relief website](#).

Additional Required Forms

For both ERP 2022 tracks, all producers must have certain required forms on file with FSA within 60 days of the ERP 2022 deadline. Producers can apply for ERP 2022 starting Oct. 31, 2023. The application deadline has not yet been determined and will be announced at a later date. If not already on file, producers can update, complete and submit required forms to FSA at any time.

Required forms:

- Form AD-2047, *Customer Data Worksheet*.
- Form CCC-902, *Farm Operating Plan* for an individual or legal entity.
- Form CCC-901, *Member Information for Legal Entities* (if applicable).
- Form FSA-510, *Request for an Exception to the \$125,000 Payment Limitation for Certain Programs* (if applicable).
- Form CCC-860, *Socially Disadvantaged, Limited Resource, Beginning and Veteran Farmer or Rancher Certification*, if applicable, for the 2022 program year.
- A highly erodible land conservation (sometimes referred to as HELC) and wetland conservation certification (Form AD-1026 *Highly Erodible Land Conservation (HELC) and Wetland Conservation (WC) Certification*) for the ERP producer and applicable affiliates.

Most producers, especially those who have previously participated in FSA programs, will likely have these required forms on file. However, those who are uncertain or want to confirm the status of their forms can contact their local FSA county office.

Future Insurance Coverage Requirements

All producers who receive ERP 2022 payments must purchase crop insurance, or NAP coverage where crop insurance is not available, in the next two available crop years as determined by the Secretary. Purchased coverage must be at the 60/100 coverage level or higher for insured crops or at the catastrophic coverage level or higher for NAP crops.

More Information

ERP 2022 eligibility details and payment calculation factor tables are available on the [emergency relief website](#), in the [ERP Track 1](#) and [ERP Track 2](#) fact sheets and through your local [FSA county office](#).

Producers Encouraged to Apply Now for USDA Conservation Programs

The U.S. Department of Agriculture (USDA) is encouraging agricultural producers and forest landowners to participate in voluntary conservation programs and adopt climate-smart practices in fiscal year 2024 as part of President Biden's Investing in America agenda. USDA's Natural Resources Conservation Service (NRCS) is accepting applications for the Environmental Quality Incentives Program (EQIP), Conservation Stewardship Program (CSP) and Agricultural Conservation Easement Program (ACEP), which help a wide variety of producers, including urban and organic producers.

For fiscal year 2024, NRCS has \$3 billion in Inflation Reduction Act funds to invest in [climate-smart mitigation activities](#). This year, NRCS expanded the list of those activities as well as expanded priority areas for ACEP for grasslands, wetlands and farmlands at risk of conversion. Learn more about those expansions in our [Sept. 28, 2023 news release](#).

Additionally, for fiscal year 2024, NRCS has over \$2 billion in Farm Bill funding available to producers for priorities like organic and urban agriculture, soil health, water quality and quantity and wildlife habitat development. This extensive amount of funding will be used to meet producer demand for our oversubscribed programs, maximize climate benefits and help producers address their natural resource challenges.

NRCS accepts producer applications for its conservation programs year-round. To apply for fiscal year 2024 funding, apply by your [state's ranking date](#) by contacting your [local NRCS office](#).

USDA Launches Loan Assistance Tool to Enhance Equity and Customer Service

The U.S. Department of Agriculture (USDA) launched a new online tool to help farmers and ranchers better navigate the farm loan application process. This uniform application process will help to ensure all farm loan applicants receive equal support and have a consistent customer experience with USDA's Farm Service Agency (FSA) regardless of their individual circumstances.

USDA experiences a high rate of incomplete or withdrawn applications, particularly among underserved customers, due in part to a challenging and lengthy paper-based application process. The Loan Assistance Tool is available 24/7 and gives customers an online step-by-step guide that supplements the support they receive when working in person with a USDA employee, providing materials that may help an applicant prepare their loan application in one tool.

Farmers can access the Loan Assistance Tool by visiting farmers.gov/farm-loan-assistance-tool and clicking the 'Get Started' button. From here they can follow the prompts to complete the Eligibility Self-Assessment and start the farm loan journey. The tool is built to run on any modern browser like Chrome, Edge, Firefox, or the Safari browser, and is fully functional on mobile devices. It does not work in Internet Explorer.

The Loan Assistance Tool is the first of multiple farm loan process improvements that will be available to USDA customers on farmers.gov in the future. Other improvements and tools that are anticipated to launch in 2023 include:

- A streamlined and simplified direct loan application, reduced from 29 pages to 13 pages.
- An interactive online direct loan application that gives customers a paperless and electronic signature option, along with the ability to attach supporting documents such as tax returns.
- An online direct loan repayment feature that relieves borrowers from the necessity of calling, mailing, or visiting a local Service Center to pay a loan installment.
