Niobrara County Updates

Greetings Niobrara County Farmers and Ranchers!

A few deadlines are rapidly approaching – one is the deadline to report any fall-seeded crops, which needs to be completed by November 15, 2023. The other major fall deadline to have on your radar is the deadline to obtain 2024 NAP coverage for fall-seeded and perennial crops, including grass, which is December 1, 2023.

For those of you in the southwest portion of the county, you should be seeing ballots showing up in your mailboxes for this year's County Committee election. The last day to return or postmark a County Committee election ballot is December 4, 2023.

For anyone who was paid for a crop loss under NAP or crop insurance programs in 2022, you will be seeing ERP 2022 Track 1 applications arriving in your mailbox. Please visit with the office or see the article below for more information about the ERP 2022 program. For anyone else who sustained a crop loss in 2022, but was not paid a NAP or crop insurance indemnity on that crop loss, please see the article below or visit with the office about the ERP 2022 program and your options to apply for Track 2 of this program.

Sheep producers, the wool rate is currently at \$.40/lb. The deadline to submit an application for a Loan Deficiency Payment (LDP) on your 2023 wool is January 31, 2024. Please contact the office if you have any more questions or need more information.

Please bear in mind, as we enter winter weather season, that if you have any weather-related livestock losses, please be sure to notify the office as quickly as possible after the loss becomes apparent to you.

As always, please be sure to let the office know about any changes to your operation!

Please help reduce the burden on FSA staff by making an appointment prior to visiting the office, so that you can be prepared for your visit and we can be prepared for you as well. Thank you!

-Niobrara County FSA Staff

Please note the following important dates and deadlines:

November 10, 2023 – OFFICE CLOSED – Observed Veteran's Day Holiday

November 15, 2023 – Fall-seeded acreage reporting deadline

November 23, 2023 – OFFICE CLOSED – Thanksgiving Holiday

December 1, 2023 – NAP Sales Closing Date for 2023 perennial and fall-seeded crops

December 6, 2023 – Deadline to return/postmark COC election ballots for LAA #1

December 25, 2023 – OFFICE CLOSED – Christmas Day Holiday

January 1, 2023 – OFFICE CLOSED – New Year's Day Holiday

Within 15 days of noticing crop loss – File NAP Notice of Loss

2023 Farm Service Agency County Committee Elections Open This Week

The U.S. Department of Agriculture (USDA) will begin mailing ballots this week for the Farm Service Agency (FSA) [county and urban county committee elections](#) to all eligible agricultural producers and private landowners across the country.

Elections are occurring in certain Local Administrative Areas for these committee members who make important decisions about how Federal farm programs are administered locally. Producers and landowners must return ballots to their local FSA county office or have their ballots postmarked by Dec. 4, 2023, for those ballots to be

counted.

Producers must participate or cooperate in an FSA program to be eligible to vote in the county committee election. A cooperating producer is someone who has provided information about their farming or ranching operation to FSA, even if they have not applied or received program benefits. Additionally, producers who are not of legal voting age, but supervise and conduct farming operations for an entire farm, are eligible to vote in these elections.

For purposes of FSA county committee elections, every member of an American Indian Tribe is considered an agricultural landowner if the land on which the tribal member's voting eligibility is based is tribally owned or held in trust by the U.S. for the Tribe, even if the individual does not personally produce a crop on that land. Tribal agricultural landowners 18 years and older can contact their local FSA county office to register to vote.

Each committee has from three to 11 elected members who serve three-year terms, and at least one seat representing a Local Administrative Area is up for election each year. Committee members help ensure inclusive representation on committees and equitable administration of FSA farm programs in their jurisdiction.

Ballots must be postmarked or delivered in person by close of business Dec. 4, 2023, to be counted. Newly elected committee members will take office Jan. 1, 2024. Producers can find out if their Local Administrative Area is up for election and if they are eligible to vote by contacting their local FSA county office. Eligible voters who do not receive a ballot in the mail can request one from their local FSA county office.

USDA Reminds Producers of Application Deadlines for Noninsured Crop Disaster Assistance Program (NAP)

USDA Niobrara County Farm Service Agency (FSA) reminds producers of approaching application deadlines for purchasing risk coverage for some crops through the Noninsured Crop Disaster Assistance Program (NAP). NAP provides financial assistance to producers of non-insurable crops impacted by natural disasters that result in lower yields, crop losses, or prevented crop planting.

NAP covers losses from natural disasters on crops for which no permanent federal crop insurance program is available, including forage and grazing crops.

Upcoming application deadlines for NAP coverage in Niobrara County for the 2024 production season include:

December 1 – Fall-seeded and perennial crops, including grass

NAP basic coverage is available at 55% of the average market price for crop losses that exceed 50% of expected production. Buy-up coverage is available in some cases. NAP offers higher levels of coverage, ranging from 50% to 65% of expected production in 5% increments, at 100% of the average market price. Producers of organic crops and crops marketed directly to consumers also may exercise the “buy-up” option to obtain NAP coverage of 100% of the average market price at coverage levels ranging between 50% and 65% of expected production. Buy-up coverage is not available for crops intended for grazing.

For all coverage levels, the NAP service fee is the lesser of \$325 per crop or \$825 per producer per county, not to exceed a total of \$1,950 for a producer with farming interests in multiple counties. Premiums apply for buy-up coverage.

If a producer has a Socially Disadvantaged, Limited Resource, Beginning and Veteran Farmer or Rancher Certification (form CCC-860) on file with FSA, it may serve as an application for basic coverage for all eligible crops beginning with crop year 2022. These producers will have all NAP-related service fees for basic coverage waived. These producers may also receive a 50% premium reduction if higher levels of coverage are elected on form CCC-471, prior to the application closing date for each crop.

To learn more about NAP visit fsa.usda.gov/nap or contact the Niobrara County FSA Office at 307-334-2953, Ext. 2.

USDA to Provide More Than \$3 Billion to Commodity and Specialty Crop Producers Impacted by 2022 Natural Disasters

The U. S Department of Agriculture (USDA) will provide more than \$3 billion to commodity and specialty crop producers impacted by natural disaster events in 2022. Eligible impacted producers can apply for financial assistance through the [Emergency Relief Program \(ERP\) 2022](#). The program will help offset the financial impacts of crop yield and value losses from qualifying disasters occurring in 2022.

Background

On Dec. 29, 2022, President Biden signed into law the *Disaster Relief Supplemental Appropriations Act, 2023* (P.L. 117-328) that provides about \$3.7 billion in financial assistance for agricultural producers impacted by eligible natural disasters that occurred in calendar year 2022.

ERP 2022 covers losses to crops, trees, bushes and vines due to qualifying, calendar year 2022 natural disaster events including wildfires, hurricanes, floods, derechos, excessive heat, tornadoes, winter storms, freeze (including a polar vortex), smoke exposure, excessive moisture, qualifying drought and related conditions.

ERP 2022 program benefits will be delivered to eligible producers through a two-track process. FSA intends to make both tracks available to producers at the same time. This two-track approach enables USDA to:

- Streamline the application process.
- Reduce the paperwork burden on producers.
- Proactively include provisions for underserved producers who have not been well served by past emergency relief efforts.
- Encourage producer participation in existing risk management programs to mitigate the impacts of future severe weather events.

It's important to note that disaster-impacted producers may be eligible for ERP 2022 assistance under one or both tracks. To avoid duplicative benefits, if a producer applies for both tracks, the Track 2 payment calculation will take into account any payments received through Track 1.

ERP 2022 Application Process – Track 1

ERP 2022 Track 1 leverages existing federal crop insurance or Noninsured Crop Disaster Assistance Program (NAP) data as the basis for calculating payments for eligible crop producers who received indemnities through these risk management programs.

Although FSA is sending pre-filled ERP 2022 Track 1 application forms to producers who have crop insurance and NAP data already on file with USDA, producers indemnified for losses resulting from 2022 natural disasters do not have to wait to receive the application before requesting ERP 2022 assistance. Effective Oct. 31, 2023, producers can apply for ERP 2022 benefits whether they have received the pre-filled application or not. Receipt of a pre-filled application is not confirmation that a producer is eligible to receive an ERP 2022 Track 1 payment.

USDA estimates that ERP Track 1 benefits will reach more than 206,000 producers who received indemnities for losses covered by federal crop insurance and more than 4,500 producers who obtained NAP coverage for the 2022 crop year.

ERP 2022 Application Process – Track 2

Track 2 is a revenue-based certification program designed to assist eligible producers who suffered an eligible decrease in revenue resulting from 2022 calendar year disaster events when compared with revenue in a benchmark year using revenue information that is readily available from most tax records. In cases where revenue does not reasonably reflect a normal year's revenue, Track 2 provides an alternative method for establishing revenue. Likewise, Track 2 affords producers of crops that are used within an operation and do not generate revenue from the sale of the crop a method for establishing revenue for the purpose of applying for ERP 2022 benefits. Producers are not required to submit tax records to FSA unless requested by the County Committee if required for an FSA compliance spot check.

Although not required when applying for ERP 2022 Track 2, applicants might find the following documents useful to the process:

- Schedule F (Form 1040)
- *Profit or Loss from Farming* or similar tax documents for tax years 2018, 2019, 2022 and 2023.

Track 2 targets gaps in emergency relief assistance for eligible producers whose eligible losses were not covered by crop insurance or NAP including revenue losses too small (shallow loss) to be covered by crop insurance.

Producers interested in applying for ERP 2022 Track 2, should contact their local FSA county office. Additional reference resources can be found on FSA's [emergency relief website](#).

Additional Required Forms

For both ERP 2022 tracks, all producers must have certain required forms on file with FSA within 60 days of the ERP 2022 deadline. Producers can apply for ERP 2022 starting Oct. 31, 2023. The application deadline has not yet been determined and will be announced at a later date. If not already on file, producers can update, complete and submit required forms to FSA at any time.

Required forms:

- Form AD-2047, *Customer Data Worksheet*.
- Form CCC-902, *Farm Operating Plan* for an individual or legal entity.

- Form CCC-901, *Member Information for Legal Entities* (if applicable).
- Form FSA-510, *Request for an Exception to the \$125,000 Payment Limitation for Certain Programs* (if applicable).
- Form CCC-860, *Socially Disadvantaged, Limited Resource, Beginning and Veteran Farmer or Rancher Certification*, if applicable, for the 2022 program year.
- A highly erodible land conservation (sometimes referred to as HELC) and wetland conservation certification (Form AD-1026 *Highly Erodible Land Conservation (HELC) and Wetland Conservation (WC) Certification*) for the ERP producer and applicable affiliates.

Most producers, especially those who have previously participated in FSA programs, will likely have these required forms on file. However, those who are uncertain or want to confirm the status of their forms can contact their local FSA county office.

Future Insurance Coverage Requirements

All producers who receive ERP 2022 payments must purchase crop insurance, or NAP coverage where crop insurance is not available, in the next two available crop years as determined by the Secretary. Purchased coverage must be at the 60/100 coverage level or higher for insured crops or at the catastrophic coverage level or higher for NAP crops.

More Information

ERP 2022 eligibility details and payment calculation factor tables are available on the [emergency relief website](#), in the [ERP Track 1](#) and [ERP Track 2](#) fact sheets and through your local [FSA county office](#).

USDA Launches Loan Assistance Tool to Enhance Equity and Customer Service

The U.S. Department of Agriculture (USDA) launched a new online tool to help farmers and ranchers better navigate the farm loan application process. This uniform application process will help to ensure all farm loan applicants receive equal support and have a consistent customer experience with USDA's Farm Service Agency (FSA) regardless of their individual circumstances.

USDA experiences a high rate of incomplete or withdrawn applications, particularly among under-served customers, due in part to a challenging and lengthy paper-based application process. The Loan Assistance Tool is available 24/7 and gives customers an online step-by-step guide that supplements the support they receive when working in person with a USDA employee, providing materials that may help an applicant prepare their loan application in one tool.

Farmers can access the Loan Assistance Tool by visiting farmers.gov/farm-loan-assistance-tool and clicking the 'Get Started' button. From here they can follow the prompts to complete the Eligibility Self-Assessment and start the farm loan journey. The tool is built to run on any modern browser like Chrome, Edge, Firefox, or the Safari browser, and is fully functional on mobile devices. It does not work in Internet Explorer.

The Loan Assistance Tool is the first of multiple farm loan process improvements that will be available to USDA customers on farmers.gov in the future. Other improvements and tools that are anticipated to launch in 2023 include:

- A streamlined and simplified direct loan application, reduced from 29 pages to 13 pages.
- An interactive online direct loan application that gives customers a paperless and electronic signature option, along with the ability to attach supporting documents such as tax returns.

An online direct loan repayment feature that relieves borrowers from the necessity of calling, mailing, or visiting a local Service Center to pay a loan installment.
