State Committee Meeting:
2nd Wednesday and
Thursday of each Quarter

Acting State Executive Director: Danny Hoots

Executive Officer:
James Culpepper

Administrative Officer:
Sharon Baker

Farm Programs:
Terri McManus

Message from the SED

Due to COVID-19, USDA has announced the temporary suspension of past-due debt collections and foreclosures for distressed borrowers under FSFL and Direct Farm Loans. Also, deadlines have been extended for producers to respond to loan servicing actions, including loan deferral consideration for financially distressed and delinquent borrowers. For the Guaranteed Loan program, flexibilities have been made available to lenders to assist in servicing their customers.

USDA has also suspended the processing and payments under the "CFAP - Additional Assistance" and has halted implementation until further notice. CRP General Signup period has been extended. Producers will have the opportunity to adjust or resubmit their offers to take advantage of planned improvements to the program. Producers may enroll land for the first time or re-enroll land under existing contracts that will be expiring Sept. 30, 2021.

FMI signup began January 19, 2021 and QLA signup deadline is March 5, 2021. Producers can make elections and enroll in the

Farm Loan Programs:

Lori Lavender

Please contact your local FSA Office for questions specific to your operation or county. To find contact information for your local office go to www.fsa.usda.gov/ar.

ARC/PLC programs for the 2021 crop year on or before March 15, 2021.

USDA is seeking members for a new advisory committee on urban agriculture. The committee will advise the Secretary of Agriculture on the development of policies and outreach, as well as, identify any barriers to urban agriculture. Nominations may be made and self-nominations are also welcome. Nominations should include a cover letter, resume and a background form. The deadline March 5, 2021 and nominations may be mailed to Ronald Harris, Designated Federal Officer, Director of Outreach and Partnerships, NRCS, Department of Agriculture, 1400 Independence Avenue, S.W., Room 6006-S, Washington, D.C. 20250 or emailed to Ronald.Harris@usda.gov.

FSA County Offices are still available to customers. Please contact your local office to determine whether in-person or phone appointments are available. Our Staff will continue to work with our customers by phone, email and by using online tools whenever possible. For Service Center contact information, visit <https://offices.sc.egov.usda.gov/locator/app>

For more information, contact your local USDA service center or visit www.farmers.gov.

Report Banking Changes to FSA

Farm Service Agency (FSA) program payments are issued electronically into your bank account. In order to receive timely payments, you need to notify your FSA servicing office if you close your account or if your bank information is changed for any reason (such as your financial institution merging or being purchased). Payments can be delayed if FSA is not notified of changes to account and bank routing numbers.

For some programs, payments are not made until the following year. For example, payments for crop year 2019 through the Agriculture Risk Coverage and Price Loss Coverage program aren't paid until 2020. If the bank account was closed due to the death of an individual or dissolution of an entity or partnership before the payment was issued, please notify your local FSA office as soon as possible to claim your payment.

March 15 is Deadline to Make Elections and Complete Enrollment in 2021 Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) Programs

Agricultural producers can now make elections and enroll in the Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) programs for the 2021 crop year.

Enrollment for the 2021 crop year closes March 15, 2021.

ARC provides income support payments on historical base acres when actual crop revenue declines below a specified guaranteed level. PLC provides income support payments on historical base acres when the effective price for a covered commodity falls below its reference price.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed,

grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium and short grain rice, safflower seed, seed cotton, sesame, soybeans, sunflower seed and wheat.

2021 Elections and Enrollment

Producers can elect coverage and enroll in crop-by-crop ARC-County or PLC, or ARC-Individual for the entire farm, for the 2021 crop year. Although election changes for 2021 are optional, enrollment (signed contract) is required for each year of the program. If a producer has a multi-year contract on the farm and makes an election change for 2021, it will be necessary to sign a new contract.

If an election is not submitted by the deadline of March 15, 2021, the election defaults to the current election for crops on the farm from the prior crop year.

For crop years 2022 and 2023, producers will have an opportunity to make new elections during those signups. Farm owners cannot enroll in either program unless they have a share interest in the farm.

Web-Based Decision Tools

In partnership with USDA, the University of Illinois and Texas A&M University offer web-based decision tools to assist producers in making informed, educated decisions using crop data specific to their respective farming operations. Tools include:

- Gardner-farmdoc Payment Calculator, the University of Illinois tool that offers farmers the ability to run payment estimate modeling for their farms and counties for ARC-County and PLC.
- ARC and PLC Decision Tool, the Texas A&M tool allows producers to analyze payment yield updates and expected payments for 2021. Producers who have used the tool in the past should see their username and much of their farm data already available in the system.

More Information

For more information on ARC and PLC, including two online decision tools that assist producers in making enrollment and election decisions specific to their operations, visit the ARC and PLC webpage.

For additional questions and assistance, contact your local USDA service center. To locate your local FSA office, visit farmers.gov/service-locator.

Quality Loss Assistance Now Available for Eligible Producers Affected by 2018, 2019 Natural Disasters

The U.S. Department of Agriculture's (USDA) Farm Service Agency (FSA) announced that signup for the Quality Loss Adjustment (QLA) Program began Wednesday, Jan. 6, 2021. Funded by the Further Consolidated Appropriations Act of 2020, this new program provides assistance to producers who suffered eligible crop quality losses due to natural disasters occurring in 2018 and 2019. The deadline to apply for QLA is Friday, March 5, 2021.

Eligible Crops

Eligible crops include those for which federal crop insurance or Noninsured Crop Disaster Assistance Program (NAP) coverage is available, except for grazed crops and value loss crops, such as honey, maple sap, aquaculture, floriculture, mushrooms, ginseng root, ornamental nursery, Christmas trees, and turfgrass sod.

Additionally, crops that were sold or fed to livestock or that are in storage may be eligible; however, crops that were destroyed before harvest are not eligible. Crop quality losses occurring after harvest, due to deterioration in storage, or that could have been mitigated, are also not eligible.

Assistance is based on a producer's harvested affected production of an eligible crop, which must have had at least a 5% quality loss reflected through a quality discount; or for forage crops, a nutrient loss, such as total digestible nutrients.

Qualifying Disaster Events

Losses must have been a result of a qualifying disaster event (hurricane, excessive moisture, flood,

qualifying drought, tornado, typhoon, volcanic activity, snowstorm, or wildfire) or related condition that occurred in calendar years 2018 and/or 2019.

Assistance is available for eligible producers in counties that received a qualifying Presidential Emergency Disaster Declaration or Secretarial Disaster Designation because of one or more of the qualifying disaster events or related conditions.

Lists of counties with Presidential Emergency Disaster Declarations and Secretarial Disaster Designations for all qualifying disaster events for 2018 and 2019 are available here. For drought, producers are eligible for QLA if the loss occurred in an area within a county rated by the U.S. Drought Monitor as having a D3 (extreme drought) or higher intensity level during 2018 or 2019.

Producers in counties that did not receive a qualifying declaration or designation may still apply but must also provide supporting documentation to establish that the crop was directly affected by a qualifying disaster event.

To determine QLA eligibility and payments, FSA considers the total quality loss caused by all qualifying natural disasters in cases where a crop was impacted by multiple events.

Applying for QLA

When applying, producers are asked to provide verifiable documentation to support claims of quality loss or nutrient loss in the case of forage crops. For crops that have been sold, grading must have been completed within 30 days of harvest, and for forage crops, a laboratory analysis must have been completed within 30 days of harvest.

Some acceptable forms of documentation include sales receipts from buyers, settlement sheets, truck or warehouse scale tickets, written sales contracts, similar records that represent actual and specific quality loss information, and forage tests for nutritional values.

Payments Calculations and Limitations

QLA payments are based on formulas for the type of crop (forage or non-forage) and loss documentation submitted. Based on this documentation FSA is calculating payments based on the producer's own individual loss or based on the county average loss. More information on payments can be found on farmers.gov/quality-loss.

FSA will issue payments once the application period ends. If the total amount of calculated QLA payments exceeds available program funding, payments will be prorated.

For each crop year, 2018, 2019 and 2020, the maximum amount that a person or legal entity may receive, directly or indirectly, is \$125,000. Payments made to a joint operation (including a general partnership or joint venture) will not exceed \$125,000, multiplied by the number of persons and legal entities that comprise the ownership of the joint operation. A person or legal entity is ineligible for QLA payment if the person's or legal entity's average Adjusted Gross Income exceeds \$900,000, unless at least 75% is derived from farming, ranching or forestry-related activities.

Future Insurance Coverage Requirements

All producers receiving QLA Program payments are required to purchase crop insurance or NAP coverage for the next two available crop years at the 60% coverage level or higher. Wildlife and Hurricane Indemnity Program Plus (WHIP+) participants who already met the WHIP+ requirement to purchase crop insurance or NAP coverage are considered to have thereby met the requirement to purchase crop insurance or NAP coverage for QLA. If eligible, QLA participants may meet the insurance purchase requirement by purchasing Whole-Farm Revenue Protection coverage offered through USDA's Risk Management Agency.

More Information

For more information, visit farmers.gov/quality-loss, or contact your local USDA Service Center. Producers can also obtain one-on-one support with applications by calling 877-508-8364.

USDA Offers New Forest Management Incentive for Conservation Reserve Program

The U.S. Department of Agriculture (USDA) is making available \$12 million for use in making payments to forest landowners with land enrolled in the Conservation Reserve Program (CRP) in exchange for their implementing healthy forest management practices. Existing CRP participants can now sign up for the Forest Management Incentive (FMI), which provides financial incentives to landowners with land in CRP to encourage proper tree thinning and other practices.

Right now, less than 10% of land currently enrolled in CRP is dedicated to forestland. But, these nearly 2 million acres of CRP forestland, if properly managed, can have enormous benefits for natural resources by reducing soil erosion, protecting water quality, increasing water quantity, and diversifying local farm operations and rural economies.

Only landowners and agricultural producers with active CRP contracts involving forest cover can enroll. However, this does not include active CRP contracts that expire within two years. Existing CRP participants interested in tree thinning and prescribed burning must comply with the standards and specifications established in their CRP contract.

CRP participants will receive the incentive payment once tree thinning and/or other authorized forest management practices are completed.

The incentive payment is the lower of:

- The actual cost of completing the practice; or
- 75% of the payment rate offered by USDA's Natural Resources Conservation Service (NRCS) if the practice is offered through NRCS conservation programs.

CRP signup is currently open. FSA will announce deadline later this year. Interested producers should contact their local FSA county office.

Change to Policy on Filing a Notice of Loss for Grazed Forage Producers with NAP Coverage

For the 2021 and subsequent crop years, NAP forage producers with the intended use of grazing who elect to use independent assessments or other approved alternative loss percentage methods to establish their loss are no longer required to file a CCC-576 Notice of Loss with FSA. However, a CCC-576 Application for Payment form must be submitted to FSA no later than 60 calendar days after the coverage period ends.

Producers that elect to have the grazing loss determined using similar mechanically harvested units still must timely file a CCC-576 Notice of Loss within 15 days of the disaster event or damage to the crop first becomes apparent or within 15 days of harvest.

FSA Offers Joint Financing Option on Direct Farm Ownership Loans

The USDA Farm Service Agency's (FSA) Direct Farm Ownership loans can help farmers and ranchers become owner-operators of family farms, improve and expand current operations, increase agricultural productivity, and assist with land tenure to save farmland for future generations.

There are three types of Direct Farm Ownership Loans: regular, down payment and joint financing. FSA also offers a Direct Farm Ownership Microloan option for smaller financial needs up to \$50,000.

Joint financing allows FSA to provide more farmers and ranchers with access to capital. FSA lends up to 50 percent of the total amount financed. A commercial lender, a State program or the seller of the property being purchased, provides the balance of loan funds, with or without an FSA guarantee. The maximum loan amount for a joint financing loan is \$600,000, and the repayment period for the loan is up to 40 years.

The operation must be an eligible farm enterprise. Farm Ownership loan funds cannot be used to finance nonfarm enterprises and all applicants must be able to meet general eligibility requirements. Loan applicants are also required to have participated in the business operations of a farm or ranch for at least three years out of the 10 years prior to the date the application is submitted. The applicant must show documentation that their participation in the business operation of the farm or ranch was not solely as a laborer.

For more information about farm loans, contact your local County USDA Service Center or visit fsa.usda.gov.

Maintaining Good Credit History

Farm Service Agency (FSA) loans require applicants to have a satisfactory credit history. A credit report is requested for all FSA direct farm loan applicants. These reports are reviewed to verify outstanding debts, see if bills are paid timely and to determine the impact on cash flow.

Information on your credit report is strictly confidential and is used only as an aid in conducting FSA business.

Our farm loan staff will discuss options with you if you have an unfavorable credit report and will provide a copy of your report. If you dispute the accuracy of the information on the credit report, it is up to you to contact the issuing credit report company to resolve any errors or inaccuracies.

There are multiple ways to remedy an unfavorable credit score:

- Make sure to pay bills on time
- Setting up automatic payments or automated reminders can be an effective way to remember payment due dates.
- Pay down existing debt
- Keep your credit card balances low
- Avoid suddenly opening or closing existing credit accounts

FSA's farm loan staff will guide you through the process, which may require you to reapply for a loan after improving or correcting your credit report.

For more information on FSA farm loan programs, contact your local County USDA Service Center or visit fsa.usda.gov.

Ask USDA available to answer questions about FSA programs

Ask USDA is now available as a tool for FSA customers to ask questions about FSA programs and services.

Ask USDA, available at ask.usda.gov is similar to AskFSA, which was decommissioned Sept. 21, but it also provides information for all USDA programs. Ask USDA allows USDA customers to search for and read answers about FSA programs and services in the same location as they read about other USDA programs and services.

Customers are able to submit questions through email, chat, and phone if they need more information. This improved customer service approach further builds on Secretary Sonny Perdue's

OneUSDA vision and provides the customer a one-stop shopping experience that covers all of USDA's many programs.

Rates and Dates
